[Little Explorers: Dinosaurs](#) Little Explorers

Learn about the amazing natural science of trees in this gorgeously illustrated nature and science ebook. From the highest branch and leaf down to the complex "wood wide web" of roots, every part of a tree plays an important role in its own growth and the habitat of the whole forest or woodland. Did you know that trees take care of each other and that the whole forest is connected? The Magic & Mystery of Trees takes children on a fascinating journey of exploration, showing them just how special these mighty organisms are. Discover how they communicate and warn each other of predators, how they nurture their networks, record the past, and anticipate the future to ensure their survival. Learn amazing tree facts, meet extraordinary trees from around the world and learn about the habitats they create. Find out what trees do for us and how to make your community a greener place by planting your very own tree!

If I Ran the Rain Forest little bee books

Embark on a journey through the enchanting world of the rainforest in Charlotte Milner's beautifully illustrated The Rainforest Book. Sweep aside the liana vines, hop over the giant roots of the kapok tree, and follow the sound of the howler monkey as you venture into the tropical rainforest. Find out

about some of the amazing animals that live there, learn about the enormous variety of life-giving plants, and discover why the Amazon rainforest is known as the 'lungs' of our Earth. In this beautiful ebook, Charlotte Milner continues to highlight the important ecological issues faced by our planet, following on from The Bee Book, The Sea Book, and The Bat Book. Did you know that over half of our planet's wildlife live in the rainforest? And that at least 2 metres of rain falls in the rainforest every year? The world's rainforests are packed with amazing animals and plants, from the deadly poison dart frog, to the stinky rafflesia flower - there is plenty to discover! As our planet's climate crisis becomes even more critical, The Rainforest Book is the perfect way to introduce little nature-lovers to this enchanting yet threatened world. This celebration of the rainforest shows children just how important it is, and reminds them that it is up to us to care for our planet and its wildlife.

Introducing two more books in the LITTLE EXPLORERS series, an interactive nonfiction series for curious youngsters. With more than 30 flaps, OUTER SPACE provides little ones with hands-on fun! OUTER SPACE is a lively introduction to the world of outer space, where children can lift the flaps to learn about all about what's beyond our earth. Young readers will be amazed as they find out how black holes work, the environments of planets in different universes, how we landed on the moon, and much, much more. This book features over 30 sturdy flaps to lift, along with charming, kid-friendly artwork that introduces new concepts and vocabulary in a simple and accessible way.

Forest Magic little bee books

Follow the adventure and travel through the Amazonian rainforest. Discover hidden worlds from the forest floor to the top of the canopy and through to the Amazon River.

RHS The Magic and Mystery of Trees little bee books

How do animals live in and adapt to life in the rain forest? Turn the page to reveal a grand pop-up with the different layers of the rain forest, rotate the wheel to see bonobos at play, and open big flaps to uncover the creatures at night. Filled with surprising details and strikingly beautiful illustrations, this interactive book is a must-have for young nature enthusiasts! The Ultimate Spotlight&; books have all the fun, facts, and hands-on action of the incredibly successful Ultimate Books&; series, but in a focused, more compact, and affordable format. Flaps, pull-tabs, and many other moveable parts appeal to children and provide an exciting inside look at various subjects. Filled with engaging text and surprising details, this collection of books provides hours of discovery.

Into the Rainforest First Colouring Books

WHAT IT IS: This fun and hilarious musical play helps you teach the standards while bringing your classroom to life! Easy-to-do play comes with script, audio CD, and teacher's guide. NO music or drama experience is required -- you don't have to sing or play a note! Go big and perform on stage, keep it simple with a classroom performance, or simply do reader's theater in class. No fancy sets, costumes, or performance spaces are needed, so it's all up to you! Flexible casting for 8-40 students and permission to edit the script and songs make it easy to tailor the play to the needs of your class and community. Your purchase of one copy per teacher includes permission to photocopy the script for students. /// WHAT IT TEACHES: "Rumpus in the Rainforest" gives students a musical tour of the various levels of the jungle and reinforces in fun fashion the importance of the rainforest. Frog desperately wants to get off the jungle floor and see the sky -- but who will help him climb above the canopy? The Jaguar loves the jungle floor, the Sloth family keeps falling asleep, and the Howler Monkeys have gone nuts! 25 minutes; grades 1-5. /// WHAT IT DOES: "Rumpus in the Rainforest" is a great complement to your curriculum resources in environmental science. And, like all Bad Wolf Press plays, this show can be used to improve reading comprehension, vocabulary, performance and speaking skills, class camaraderie and teamwork, and school engagement and parental involvement -- all while enabling students to be part of a truly fun and creative experience they will never forget!

The Secret Explorers and the Tomb Robbers Barefoot Books

Part of the critically acclaimed Over and Under series! Award-winning duo Kate Messner and Christopher Silas Neal take readers on a thrilling tour of one of the most diverse ecosystems on planet earth: the rainforests of Central America. Discover the wonder that lies hidden among the roots, above the winding rivers, and under the emerald leaves of the rainforest. • Features animals like the slender parrot snake to the blue morpho butterfly • Explores the canopies, where toucans and pale-billed woodpeckers chatter and call • Other animals include capuchin monkeys who swing from vines and slow-moving sloths who wait out daily thunderstorms Under the canopy of the rainforest hundreds of animals make their homes, but up in the leaves hides another world. This stunning read is perfect for kids who can't get enough of the rainforest and all the animals living in it. • Equal parts educational and beautiful, this book is perfect for parents and grandparents, as well as librarians, science teachers, and educators. • A great book for kids who love nature, rainforests, animals, and learning more about the world • Perfect for children ages 5 to 8 years old • You'll love this book if you love books like *The Big Book of Bugs* by Yuval Zommer, *The Animal Book* by Lonely Planet Kids, and *A Butterfly Is Patient* by Dianna Aston.

The Explorer little bee books

Introducing another book in the LITTLE EXPLORERS series, an interactive nonfiction series for curious youngsters. With more than 30 flaps, DINOSAURS provides little ones with hands-on fun! DINOSAURS is a lively introduction to all types of prehistoric dinos. Children can lift the flaps to learn about these amazing dinosaurs and the environments they used to live in, and they will be amazed as they find out all about the biggest, fastest, and most ferocious dinosaurs, and much, much more. This book features over 30 sturdy flaps to lift, along with charming, kid-friendly artwork that introduces new concepts and vocabulary in a simple and accessible way.

We're Roaming in the Rainforest Dorling Kindersley Ltd

Chronicling the practices, legends, and wisdom of the vanishing traditions of the upper Amazon, this book reveals the area's indigenous peoples' approach to living in harmony with the natural world. Rainforest Medicine features in-depth essays on plant-based medicine and indigenous science from four distinct Amazonian societies: deep forest and urban, lowland rainforest and mountain. The book is illustrated with unique botanical and cultural drawings by Secoya elder and traditional healer Agustin Payaguaje and horticulturalist Thomas Y. Wang as well as by the author himself. Payaguaje shares his sincere imaginal view into the spiritual life of the Secoya; plates of petroglyphs from the sacred valley of Cotundo relate to an ancient language, and other illustrations show traditional Secoya ayahuasca symbols and indigenous origin myths. Two color sections showcase photos of the plants and people of the region, and include plates of previously unpublished full-color paintings by Pablo Cesar Amaringo (1938-2009), an acclaimed Peruvian artist renowned for his intricate, colorful depictions of his visions from drinking the entheogenic plant brew, ayahuasca ("vine of the soul" in Quechua languages). Today the once-dense mysterious rainforest realms are under assault as the indiscriminate colonial frontier of resource extraction moves across the region; as the forest disappears, the traditional human legacy of sustainable utilization of this rich ecosystem is also being buried under modern realities. With over 20 years experience of ground-level environmental and cultural conservation, author Jonathon Miller Weisberger's commitment to preserving the fascinating, unfathomably precious relics of the indigenous legacy shines through. Chief among these treasures is the "shimmering" "golden" plant-medicine science of ayahuasca or yajé, a rainforest vine that was popularized in the 1950s by Western travelers such as William Burroughs and Alan Ginsberg. It has been sampled, reviled, and celebrated by outsiders ever since. Currently sought after by many in the industrialized West for its powerful psychotropic and life-transforming effects, this sacred brew is often imbibed by visitors to the upper Amazon and curious seekers in faraway venues, sometimes with little to no working knowledge of its principles and precepts. Perceiving that there is an evident need for in-depth information on ayahuasca if it is to be used beyond its traditional context for healing and spiritual illumination in the future, Miller Weisberger focuses on the fundamental knowledge and practices that guide the use of ayahuasca in indigenous cultures. Weaving first-person narrative with anthropological and ethnobotanical information, Rainforest Medicine aims to preserve both the record and ongoing reality of ayahuasca's unique tradition and, of course, the priceless forest that gave birth to these sacred vines. Featuring words from

Amazonian shamans--the living torchbearers of these sophisticated spiritual practices--the book stands as testimony to this sacred plant medicine's power in shaping and healing individuals, communities, and nature alike.

The Secret Explorers and the Comet Collision HarperCollins

Introducing Little Explorers-a new, interactive nonfiction series for curious youngsters. With more than 60 flaps to lift, MY AMAZING BODY provides little ones with hands-on fun. MY AMAZING BODY is a lively introduction to the human body, where children can lift the flaps to find out what goes on under their skin. Young readers will be amazed as they find out how the brain works, what happens to a mouthful of food, how fast our fingernails grow, how we breathe, and much, much more. This book features over 60 sturdy flaps to lift, along with charming, kid-friendly artwork that introduces new concepts and vocabulary in a simple and accessible way.

Ultimate Spotlight: Rain Forest Animals little bee books

The Cat in the Hat takes Sally and Dick for an "umbrella-vator" ride through the understory, canopy, and emergent layers of a tropical rain forest, encountering a host of plants, animals, and native peoples along the way.

Rainforest Explorer Harper Collins

From the Boston Globe-Horn Book Award-winning author of *Cartwheeling in Thunderstorms* comes an exciting new novel about a group of kids who must survive in the Amazon after their plane crashes. 5 1/2 x 8 5/16.

The Rainforest Grew All Around Penguin

Uses flaps to enable the reader to create different scenes of rain forest animals, plants, and people, each accompanied by matching text on facing pages.

Little Explorers: When I Grow Up Twirl

A space expert and a geology expert take readers on an out-of-this-world adventure to the moon, where they must navigate the dangerous terrain to clear up space debris before it can interfere with a lunar mission.

The Adventurer's Son National Geographic Books

Learn all about forest life and the amazing Venus flytrap in this conservation themed instalment of BK Books' new educational fiction series for children. Meet the Secret Explorers - a band of brainiac kids from all around the world. Everyone in this diverse group of young experts has a speciality, from outer space to dinosaurs, and each story follows a character who gets chosen for a "secret exploration". In this fun, fact-filled children's ebook, Leah the biology expert and Gustavo the history buff are whisked away on a mission to a forest in North Carolina, USA. There, they meet a botanist working to protect the amazing Venus flytrap - an endangered species of plant - from being stolen by poachers and sold for money. It'll take every bit of brainpower, bravery, and expertise that Leah and Gustavo have to stop the poachers and rescue the plants. Let's explore!

Rumpus in the Rainforest Silver Dolphin Books

Today is doomsday for a young Venezuelan Indian boy's beloved rain forest and its animal life—unless he and a visiting naturalist can save it. "George makes drama large and small out of the minute-by-minute events in an ecosystem . . . gripping ecological theater." —C. "An example of nonfiction writing at its best." —SLJ. Notable 1990 Children's Trade Books in Social Studies (NCSS/CBC) Outstanding Science Trade Books for Children 1990 (NSTA/CBC)

Toucania Dorling Kindersley Ltd

This picture book biography tells the story of Meg Lowman, a groundbreaking female scientist called a "real life Lorax" by National Geographic, who was determined to investigate the marvelous, undiscovered world of the rainforest treetops. Meg Lowman was always fascinated by the natural world above her head — the colors, the branches, and, most of all, the leaves and mysterious organisms living there. Meg set out to climb up and investigate the rain forest tree canopies — and to be the first scientist to do so. But she encountered challenge after challenge. Male teachers would not let her into their classrooms, the high canopy was difficult to get to, and worst of all, people were logging and clearing the forests. Meg never gave up or gave in. She studied, invented, and persevered, not only creating a future for herself as a scientist, but making sure that the rainforests had a future as well. Working closely with Meg Lowman, author Heather Lang and artist Jana Christy beautifully capture Meg's world in the treetops.

The Leaf Detective A&C Black

Learn all about the ecosystem of the rainforest, Earth's oldest living ecosystem. Understand the characteristics of a rainforest, where they are located and how old some of them are. Examine the plant and animal life in a rainforest, and determine why they are important. What are the threats to the rainforest and how can you help? Start reading today.

Little Explorers: Under the Sea Penguin

Let's explore! Discover the wonders of the rain forests from dazzling blue morpho butterflies in the Amazon Basin to fruit bats high in the emergent layer in this unique guide featuring five amazing 3-D pop-up scenes. The rain forests are bursting with life! Covering just 6 percent of the Earth's surface, rain forests are home to more than 60 percent of all known animal species. From the riverbed to the treetops, kids can explore the many fascinating layers of the rain forest in 3-D Explorer: Rain Forest. This amazing book gives kids a close-up view of the plants and animals that inhabit the dense jungles. Filled with engaging facts and spectacular photography, this book also features five dramatic 3-D pop-up scenes with transparent layers that reveal the secrets of each rain forest zone.

Exploring Rain Forests Speedy Publishing LLC

Introducing the next book in the LITTLE EXPLORERS series, an interactive nonfiction series for curious youngsters. With more than 30 flaps, UNDER THE SEA provides little ones with hands-on fun! UNDER THE SEA is a lively introduction to all types of sea creatures, where children can lift the flaps to learn about all types of amazing animals and the environment they live in. Young readers will be amazed as they find out all about the coral reef, open ocean, endangered animals, shipwrecks, and much much more! This book features over 30 sturdy flaps to lift, along with charming, kid-friendly artwork that introduces new concepts and vocabulary in a simple and accessible way.
