 Environment, problems and policies attempts to rectify the lacunae of an absence of any comprehensive book on "Management of Agricultural Inputs". This is despite the fact that three-fourth of India's population is rural whose main occupation and profession is agriculture and allied activities. In the present

context of economy and situation, it is a challenge for the agriculturists/ farmers to continue with their profession. This book provides an in-depth analysis of the environment, the problems associated with agri-inputs management and marketing. The book elaborately covers market information on agri-inputs and government policies to support the farming community. This book offers an interesting reading for academicians, students, agripreneurs and agri-input manufacturers to know about the vibrant dynamics of agri-input market in India.
