JAMARI CLARK

Moody's Manual of Investments: American and Foreign Cambridge University Press

The world's most comprehensive, well documented, and well illustrated book on this subject. With extensive subject and geographical index. 378 photographs and illustrations - mostly color. Free of charge in digital PDF format on Google Books.

Lossing's New History of the United States A History of the Georgian People

This book provides an up-to-date discussion of the effect of crises on European identities in the post-Soviet states. In doing so, the book presents an original study on dynamics of European identities during four crises in Georgia and Ukraine. More specifically, it considers the comparative impact of two colour revolutions and wars involving Russia on European identity constructions in Georgian and Ukrainian public identity discourses, studied through national mass media. It compares outcomes of change and continuity during such "big bang" events in identity discourses and establishes scope conditions that allow or inhibit change. The major finding of the study is that the selected events can indeed instigate sudden shifts in European identity discourses but only when the elite power structure also changes in such hybrid regimes, as Ukraine and Georgia. These changes include shifts in elite groups and in the relative power they hold in the overall power structure.

Valor and Courage University of Alabama Press

The NIV Application Commentary helps you communicate and apply biblical text effectively in today's context. To bring the ancient messages of the Bible into today's world, each passage is treated in three sections: Original Meaning. Concise exegesis to help readers understand the original meaning of the biblical text in its historical, literary, and cultural context. Bridging Contexts. A bridge between the world of the Bible and the world of today, built by discerning what is timeless in the timely pages of the Bible. Contemporary Significance. This section identifies comparable situations to those faced in the Bible and explores relevant application of the biblical messages. The author alerts the readers of problems they may encounter when seeking to apply the passage and helps them think through the issues involved. This unique, award-winning commentary is the ideal resource for today's preachers, teachers, and serious students of the Bible, giving them the tools, ideas, and insights they need to communicate God's Word with the same powerful impact it had when it was first written.

The Routledge History of Genocide takes an interdisciplinary yet historically focused look at history from the Iron Age to the recent past to examine episodes of extreme violence that could be interpreted as genocidal. Approaching the subject in a sensitive, inclusive and respectful way, each chapter is a newly commissioned piece covering a range of opinions and perspectives. The topics discussed are broad in variety and include: genocide and the end of the Ottoman Empire Stalin and the Soviet Union Iron Age warfare genocide and religion Japanese military brutality during the Second World War heritage and how we remember the past. The volume is global in scope,

something of increasing importance in the study of genocide. Presenting genocide as an extremely diverse phenomenon, this book is a wide-ranging and in-depth view of the field that will be valuable for all those interested in the historical context of genocide.

A Family History of the United States Zondervan Academic

This is the final volume in a four-part series covering the development of the university in Europe (east and west) from its origins to the present day, focusing on a number of major themes viewed from a European perspective. The originality of the series lies in its comparative, interdisciplinary, collaborative and transnational nature. It deals also with the content of what was taught at the universities, but its main purpose is an appreciation of the role and structures of the universities as seen against a backdrop of changing conditions, ideas and values. This volume deals with the reconstruction and epoch-making expansion of higher education after 1945, which led to the triumph of modern science. It traces the development of the relationship between universities and national states, teachers and students, their ambitions and political activities. Special attention is paid to fundamental changes in the content of teaching at the universities.

America, History and Life Harvard University Press

A Telegraph, Spectator, Prospect, and Times Best Book of the Year "This is a story not just about Pétain but about war and resistance, the moral compromises of leadership, and the meaning of France itself."—Margaret MacMillan "This is a finely tuned history...Those who enjoy tales of the sparring among excellent lawyers arguing an important case will find this book riveting. And for those who want to understand contemporary France and its intricate politics, France on Trial provides...a vibrant analysis of a trial and verdict that remain contentious almost eight decades later."—Ronald C. Rosbottom, Wall Street Journal "Shows Jackson at his best—precise in detail, vivid in imagery, alert to irony, firm in judgment—and carefully disentangles the questions surrounding the Vichy regime that continue to vex French society." —Robert O. Paxton, Harper's In the terrible month of October 1940, few things were more shocking than the sight of Marshal Philippe Pétain—supremely decorated hero of the First World War, now head of the French government—shaking hands with Hitler. Pétain announced that France would henceforth collaborate with Germany. "This is my policy," he intoned. "My ministers are responsible to me. It is I alone who will be judged by History." Five years later, Pétain was put on trial for his conduct during the war. He stood accused of treason, charged with heading a conspiracy to destroy France's democratic government and collaborating with Nazi Germany. Award-winning author Julian Jackson uses Pétain's three-week trial as a lens through which to examine one of history's great moral dilemmas. Was the policy of collaboration "four years to erase from our history," as the prosecution claimed? Or was it, as conservative politicians insist to this day, a sacrifice that placed pragmatism above moral purity? As head of the Vichy regime, Pétain became the lightning rod for collective guilt and retribution. But he has also been an icon of the nationalist right ever since. In France on Trial, Jackson blends courtroom drama, political intrigue, and brilliant narrative history to highlight the hard choices and moral compromises leaders make in times of war.

Moody's Manual of Investments Springer Nature

Showcases a number of themes through which the common story of Georgia, its people, and its quilting legacy can be told in a comprehensive record of the diversity of quilting materials, methods, and patterns used in the state. Simultaneous.

The History of Wapello County, Iowa Routledge

Georgia emerged from the fall of the Soviet empire in 1991 with the promise of swift economic and democratic reform. But that promise remains unfulfilled. Economic collapse, secessionist challenges, civil war and the failure to escape the legacy of Soviet rule - culminating in the 2008 war with Russia - characterise a two-decade struggle to establish democratic institutions and consolidate statehood. Here, Stephen Jones critically analyses Georgia's recent political and economic development, illustrating what its 'transition' has meant, not just for the state, but for its citizens as well. An authoritative and commanding exploration of Georgia since independence, this is essential for those interested in the post-Soviet world.

Palmer's Index to the Times Newspaper Zondervan Academic

A History of the Georgian People (1971) begins with an account of the early history and ethnographic background of Georgia, and goes on to cover the country's political history from 1000 to 1800 and Russian conquest. There are chapters on the social history of the country, with much

interesting information on the feudal system, religion, justice and the slave trade. The final, illustrated section, discusses the art and literature of the Georgians.
