Self-Congruity provides a comprehensive understanding of the self-concept, integrating the many references to it in the psychological literature.

Using his previous findings, the author considers cognitive-versus-affective phenomena, and intrapersonal, interpersonal, situational, and analytic modes. He then applies his integrated theory to the problem of change in self-concept and behavior.

In Sach Kahun Toh, actor Neena Gupta chronicles her extraordinary personal and professional journey-from her childhood days in Delhi's Karol Bagh, through her time at the National School of Drama, to moving to Bombay in the 1980s and dealing with the struggles to find work. It details the big milestones in her life, her unconventional pregnancy and single parenthood, and a successful second innings in Bollywood. A candid, self-deprecating portrait of the person behind the persona, it talks about her life's many choices, battling stereotypes, then and now, and how she may not be as unconventional as people think her to be.

One of the most enduring divas of Hindi cinema, a producer and director for films and television, dancer and choreographer par excellence, magazine editor, an active member of Parliament and now a singer, Hema Malini wears many hats with admirable ease. No other industry name comes close to matching the breadth of her achievements. In an industry where the male star has traditionally driven the commercial success of films, Hema was an exception, with her name alone sufficing to ensure a film's box-office glory. She was, arguably, India's first female superstar. Apart from starring in mainstream super-hits like Johnny Mera Naam, Jugnu, Andaz, Seeta Aur Geeta, Sholay and, more recently, Baghban, she received critical acclaim for her performances in Lal Patthar, Khushboo, Kinara, Meera, Ek Chadar Maili Si and Razia Sultan. But there is much more to her than just her Bollywood journey. From her efforts at reviving and sustaining classical dance to her graceful handling of her personal life and the controversies that have plagued her in her political avatar, from her relationships to her religious beliefs and her recent tryst with singing, Hema Malini: Beyond the Dream Girl covers it all. With detailed interviews and exclusive anecdotes from her family, friends and co-actors, this is an inside look at the remarkable life of one of our greatest cinema icons, someone who has truly lived life on her own terms.

Where women are created for the pleasure of men, beauty is the first duty of every girl. In Louise O'Neill's world of *Only Every Yours* women are no longer born naturally, girls (called "eves") are raised in Schools and trained in the arts of pleasing men until they come of age. Freida and Isabel are best friends. Now, aged sixteen and in their final year, they expect to be selected as companions--wives to powerful men. All they have to do is ensure they stay in the top ten beautiful girls in their year. The alternatives--life as a concubine, or a chastity (teaching endless generations of girls)--are too horrible to contemplate. But as the intensity of final year takes hold, the pressure to be perfect mounts. Isabel starts to self-destruct, putting her beauty--her only asset--in peril. And then into this sealed female environment, the boys arrive, eager to choose a bride. Freida must fight for her future--even if it means betraying the only friend, the only love, she has ever known.

'We need to create a home to return to. And when I say home, I'm not talking about a physical place or somewhere where pants are optional. I'm talking about a set of beliefs after a day full of, well, anything. We need to dig a foundation so deep that it will exist and thrive even if our surface-level efforts fail.' Ever wondered what the point of all those school maths lessons about triangles was? Youtuber and comedian Lilly Singh has finally discovered the answer: triangles are the perfect model for building your self-esteem and getting to know your own values. Triangles have a strong base, they're hard to knock-over and always retain their own shape, even when they grow. With her incomparable sense of humour and fun, Lilly explains how she has put the ethos of the triangle to work in her own life, and shows how you can do the same. Complete with playful illustrations and inspiring ideas, this book is like a best friend cheering you on as you find your purpose and get to know yourself.

Be A Triangle: How I Went From Being Lost to Getting My Life into Shape World Bank Publications

"The Covid-19 pandemic disrupted the education of an estimated 90 percent of the world's school-aged children. [This report] is based on over 470 interviews with students, parents, and teachers in 60 countries between April 2020 and April 2021. It documents how Covid-related school closures did not affect all children equally, as governments failed to provide all children with the opportunity, tools, or access needed to keep learning during the pandemic. Students from groups already facing discrimination and exclusion from education even before the pandemic were disproportionately adversely affected. Governments' long-term failures to remedy discrimination and inequalities in their education systems, and often to ensure basic government services, such as affordable, reliable electricity in homes, or facilitate affordable internet access, meant schools entered the pandemic ill-prepared to deliver remote education to all students equally. Children from low-income families were more likely to be excluded from online learning because they did not have reliable electricity or sufficient access to the internet or devices. Historically under-resourced schools particularly struggled to reach their students."--Page 4 of cover.

The Art of Being Normal Hawakal Publishers

Kabir was a great iconoclastic-mystic poet of fifteenth-century North India; his poems were composed orally, written down by others in manuscripts and books, and transmitted through song. Scholars and translators usually attend to written collections, but these present only a partial picture of the Kabir who has remained vibrantly alive through the centuries mostly in oral forms. Entering the worlds of singers and listeners in rural Madhya Pradesh, *Bodies of Song* combines ethnographic and textual study in exploring how oral transmission and performance shape the content and interpretation of vernacular poetry in North India. The book investigates textual scholars' study of oral-performative traditions in a milieu where texts move simultaneously via oral, written, audio/video-recorded, and electronic pathways. As texts and performances are always socially embedded, Linda Hess brings readers into the lives of those who sing, hear, celebrate, revere, and dispute about Kabir. *Bodies of Song* is rich in stories of individuals and families, villages and towns, religious and secular organizations, castes and communities. Dialogue between religious/spiritual Kabir and social/political Kabir is a continuous theme throughout the book: ambiguously located between Hindu and Muslim cultures, Kabir rejected religious identities, pretensions, and hypocrisies. But even while satirizing the religious, he composed stunning poetry of religious experience and psychological insight. A weaver by trade, Kabir also criticized caste and other inequalities and today serves as an icon for Dalits and all who strive to remove caste prejudice and oppression.

"The 2012 report recognized that expanding women's agency - their ability to make decisions and take advantage of opportunities is key to improving their lives as well as the world. This report represents a major advance in global knowledge on this critical front. The vast data and thousands of surveys distilled in this report cast important light on the nature of constraints women and girls continue to face globally. This report identifies promising opportunities and entry points for lasting transformation, such as interventions that reach across sectors and include life-skills training, sexual and reproductive health education, conditional cash transfers, and mentoring. It finds that addressing what the World Health Organization has identified as an epidemic of violence against women means sharply scaling up engagement with men and boys. The report also underlines the vital role information and communication technologies can play in amplifying women's voices, expanding their economic and learning opportunities, and broadening their views and aspirations. The World Bank Group's twin goals of ending extreme poverty and boosting shared prosperity demand no less than the full and equal participation of women and men, girls and boys, around the world." -- Publisher's description.
