"Love The Wheel of Time? This is about to become your new favorite series." --B&N SF & Fantasy Blog  
 A young man with forbidden magic finds himself drawn into an ancient war against a dangerous enemy in book one of the Licanus Trilogy, the series that fans are heralding as the next Wheel of Time. As destiny calls, a journey begins. It has been twenty years since the godlike Augurs were overthrown and killed. Now, those who once served them -- the Gifted -- are spared only because they have accepted the rebellion's Four Tenets, vastly limiting their powers. As a Gifted, Davian suffers the consequences of a war lost before he was even born. He and others like him are despised. But when Davian discovers he wields the forbidden power of the Augurs, he and his friends WIRR and Asha set into motion a chain of events that will change everything. To the west, a young man whose fate is intertwined with Davian's wakes up in the forest, covered in

blood and with no memory of who he is... And in the far north, an ancient enemy long thought defeated begins to stir. The Licanus Trilogy is a series readers will have a hard time putting down--a relentless coming-of-age epic from the very first page.

'Madgermanes' is what the Mozambican workers once contracted out to East Germany are called today. At the end of the 1970s, some 20,000 of them were sent from the People's Republic of Mozambique to the GDR to labour for their socialist sister country. After the Berlin Wall fell, almost all of them lost their residency status. Decades later, they are still waiting for most of their wages to be paid. Birgit Weyhe depicts their search for belonging and a place to call home, caught between two cultures and two states that no longer exist. Based on extensive interviews, she creates three fictitious narrators and transforms their stories into a visual language that skilfully interweaves African and European narrative traditions. Winner of the Berthold Leibinger Foundation Comic Book Prize and the Max and Moritz Prize for Best German Comic 'The book is a great document and a monument to the injustice that befell me and other contract workers in East Germany.' Emiliano Chaimite, Dresden 'Birgit Weyhe traces emotions and situations, translating them into overwhelming images by entering into an artistic dialogue between European and African culture.' While imported Chinese porcelain had become a valuable commodity in Europe in the seventeenth century, local attempts to produce porcelain long remained unsuccessful. At last the secret of hard-paste porcelain was uncovered, and in 1710 the first European porcelain was manufactured in Saxony. Meissen porcelain, still manufactured today, soon ranked in value with silver and gold. This thorough and lavishly illustrated volume explores the early years of Meissen porcelain and how the princes of Saxony came to use highly prized porcelain pieces as diplomatic gifts for presentation to foreign courts. An eminent team of international contributors examines the trade of Meissen with other nations, from England to Russia. They also investigate the cultural ambience of the Dresden Court, varying tastes of the markets, the wide range of porcelain objects, and their designers and makers. Individual chapters are devoted to gifts to Denmark, other German courts, the Holy Roman Empire, Italy, France, and other nations. For every Meissen collector or enthusiast, this book will be not only a treasured handbook but also a source of visual delight.

The result of research PRODUCTORA initiated as winners of the Mies Crown Hall Americas Prize for Emerging Practice at Illinois Institute of Technology, *Being the Mountain* examines the relationship between architecture and the ground it occupies, an interaction so obvious-a building must touch the ground-that it often remains underexplored. Richly illustrated contributions by Carlos Bedoya, Frank Escher, Wonne Ickx, Véronique Patteuw, and Jesús Vassallo revisit significant moments in architectural history that cast new light on the techniques and legacies of modernism, especially in settings like Mexico and California, where architects such as Ricardo Legorreta and John Lautner incorporated dramatic natural topography in their agendas. Additional essays investigate the role of the ground in the thought of Kenneth Frampton in the 1980s and Luis Moreno

Mansilla in the 1990s, as well as point to important parallels between premodern land practices, twentieth-century art, and today's architecture.

At once radical, controversial and revered, Marina Abramovic is the progenitor of contemporary performance art At once radical, controversial and revered, Marina Abramovic is one of the most discussed artists today. Famous for her groundbreaking performance works, she continues to expand the boundaries of art. This publication, accompanying her first major retrospective in Europe, gives an extensive overview of her work from the earliest years until today: film, photography, paintings and objects, installations and archival material. Since the early 1970s Abramovic has explored the intersection between performing and visual art in her work and, though rarely overtly political, posed questions of power and hierarchy. In addressing fundamental issues of our existence and seeking the core of such notions as loss, memory, pain endurance and trust, she both provokes and moves.

Provocative and often shocking, *Sex in the Future* examines how advances in reproductive technology will change human behavior. In-vitro fertilization and surrogate motherhood could mean the end not only of infertility but also of the need for men and women to form relationships or for women to interrupt careers for pregnancy. Sperm and egg storage mean people can literally shop for genes, while cloning, egg-egg fertilization, and other techniques will lead to fertility on demand in a *Reproduction Restaurant*. What will all our choices be, and how far down this road do we want to travel?

Go Nagai's groundbreaking horror classic that inspired the genre for decades. Hordes of demons, once thought entombed forever in the underworld, have now returned to Earth. Evil and corruption begin to seep into our world, as demons seize human hosts. Mankind's only hope for salvation is to use the demons' power against them--and only a pure-hearted man like Fudo Akira can do so without losing his humanity. Once little more than a crybaby, Akira now wields the terrible power of a devil, yet holds the innocent soul of a man--Devilman!

The electrifying diaries that are essential reading for anyone moved and fascinated by the life and work of one of America's most acclaimed poets. Sylvia Plath began keeping a diary as a young child. By the time she was at Smith College, when this book begins, she had settled into a nearly daily routine with her journal, which was also a sourcebook for her writing. Plath once called her journal her "Sargasso," her repository of imagination, "a litany of dreams, directives, and imperatives," and in fact these pages contain the germs of most of her work. Plath's ambitions as a writer were urgent and ultimately all-consuming, requiring of her a heat, a fantastic chaos, even a violence that burned straight through her. The intensity of this struggle is

rendered in her journal with an unsparing clarity, revealing both the frequent desperation of her situation and the bravery with which she faced down her demons.

Surviving the weekend depends on whether you can keep a secret . . . Lindsey hasn't spoken to Rachel in twenty years, not since her brother's eighteenth birthday party at their parents' remote country house. A night that shattered so many friendships - and left Rachel's father dead. Now Thornbury Hall is up for sale, and the old gang are back there, together again. A weekend to say goodbye to the old place, to talk about the past. But twenty years of secrets aren't given up lightly. Some won't speak about what happened that night. While others want to ensure that no one ever does. \*One of Red Magazine's Top Ten Crime Reads for Autumn\* Praise for Karen Perry 'Keeps us guessing until the very last page' Liz Nugent 'Intense psychological thrillers that explore emotional danger with relentless, surgical accuracy' Tana French 'Like *Gone Girl* . . . From the preeminent writer of Taiwanese nativist fiction and the leading translator of Chinese literature come these poignant accounts of everyday life in rural and small-town Taiwan. Huang is frequently cited as one of the most original and gifted storytellers in the Chinese language, and these selections reveal his genius. In "The Two Sign Painters," TV reporters ambush two young workers from the country taking a break atop a twenty-four-story building. "His Son's Big Doll" introduces the tortured soul inside a walking advertisement, and in "Xiaoqi's Cap" a dissatisfied pressure-cooker salesman is fascinated by a young schoolgirl. Huang's characters—generally the uneducated and disadvantaged who must cope with assaults on their traditionalism, hostility from their urban brethren and, of course, the debilitating effects of poverty—come to life in all their human uniqueness, free from idealization.

Famed pulp writer Don Wandrei wrote what we could call the first "Mythos" novel among H.P. Lovecraft's associates, although it wasn't published until years later, as "The Web of Easter Island," from Arkham House. This volume is the original form of that novel, accompanied by Wandrei's mainstream novel, never published during his lifetime. It's a remarkably "modern" novel, which wouldn't pass the censorial attitudes of the 1930s when it was written. Illustrated by Wandrei's friend Rodger Gerberding. With an introduction and notes on the text by S.T. Joshi. With cover art by Jon Arfstrom

**Blinded by the Lights** Taylor & Francis

In the vein of the well-known drug writings of De Quincey and Baudelaire from a century earlier and those of his contemporaries Walter Benjamin and Jean Cocteau - and foreshadowing the later writings of Aldous Huxley and Carlos Castaneda on psychoactive drugs - Witkacy composed *Narcotics* in 1930 to discuss and document not only his own experimentation with different substances but the nature of addiction itself and the prevailing social attitude toward drugs, particularly those that were considered "acceptable." As life became increasingly mechanized, Witkacy felt that a sense of the metaphysical could only be achieved by artificial means, and like Henri Michaux, he produced an extensive oeuvre of singular visual art while under the influence of a variety of substances. Meandering, acerbic, and burlesque, rife with neologisms and expressions from German, French, English, and Russian, Witkacy dissects Polish society and the art world as well as himself via the hypocrisy surrounding drug use. Since it was first published in the 1930s, *Narcotics* has achieved a cult status in Poland where it is considered both a modernist classic and a paragon of Witkiewiczian madness. This edition, the first complete translation in English, includes a second appendix written later, passages from the novel *Farewell to Autumn*, and 34 color reproductions of a cross section of portraits to show how various substances impacted Witkacy's art.
