E. Howard Hunt, who sued this author for writing about his involvement in the JFK assassination or "The Big Event" confessed to being part of the crew and named Frank Fiorini Sturgis as one of principals; *Coup D'Etat in America* was the book that inspired Congressman Henry Gonzalez to introduce a bill in Congress that led to the formation of House Select Committee on Assassinations. This is a longer updated version. It is based on the theory that the three tramps who were picked up about an hour after the Kennedy Assassination (not to be confused with the three real bums who were picked up right after the big event - Oliver Buck Revell of FBI Dallas FO floated this story to discredit the tramp theory) were E. Howard Hunt, CIA official who was instrumental in the overthrow of Arbenz of Guatemala and was deeply involved in the Bay of Pigs fiasco, Frank Fiorini Sturgis, a leader of Operation 40 which involved assassinating all the Communists and their families in Cuba after Castro was deposed, and David Lemar Christ, who was locked up and tortured by Castro for bugging the ChiCom wire service and released in April 1963 in a prisoner exchange. It also documents the part that James Angleton played in Oswald's defection to the Soviet Union and Oswald's role in sabotaging an upcoming USSR USA Summit conference. *Coup* is based on years and years of research at NARA, Federal Court houses, personal

interviews and the information I bought from Gerry Patrick Hemming, the man who brought Oswald into the mix and had him believing that he was running a counter-intelligence operation against the Cubans by trying to visit Cuba, by forming the Fair Play for Cuba Committee and other of Oswald's shenanigans. Hemming offered Oswald twice the cost of his rifle and told him to bring it to the TSBD on November 22, 1963. Oswald didn't have a clue that the big event was going down. Hemming tried to set me up for a fall to work off a beef. He said he knew of a lab where the Yippies could construct an atomic IED. Just taking a step in that direction is conspiracy. I told him my name was no Oswald. *Coup* also documents Jack Ruby's part in the conspiracy as the CIA and the Mafia had worked together to assassinate Fidel Castro. But Jack's flunkie Tippet messed up because Oswald had realized he was a patsy in the big event by this time and took Tippet out before Tippet could take him out as Ruby had ordered. Oswald had heard Hemming talk about scenarios where patsy's get blown away and suddenly realize that his old Marine buddy had set him up. This book is constantly being updated.

This classic play by Plautus tells the story of a cunning slave who tries to help his young master win back his lover from the man who has stolen her. It is a tale of love, betrayal and mistaken identities, with plenty of humor and wordplay along the way. Jacob's translation of the play into German is widely regarded as one of the best ever made. This book will appeal to lovers of classic literature and drama. This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. Nature of Roman Comedy OUP Oxford
REVISED EDITION: Oswald's address

book proved to be one key to the Kennedy assassination. He was suspicious of his associates and stegnographically encoded in their names in his address book as an insurance policy. To decode the entries I obtained color photos from NARA and scanned them using high resolution. The names I discovered: Gerry Hemming, Oswald's Marine buddy and the name of his anti-Castro group INTERPEN. Orlando Bosch, pediatrician turned terrorist, Cuban exile Nazi Party leaders the Novo Brothers, Watergate burglar Frank Fiorini Sturgis, Pedro Diaz Lanz, former head of Castro's air-force, all named by Marita Lorenz as being in a caravan headed from Miami to Dallas. E. Howard Hunt (who confessed on his deathbed to being involved in the "Big Event"), Operation MOONGOOSE which Hunt headed, David Lemar Christ, a former prisoner of Castro and CIA Technical Services officer, Sam Kail, CIA agent who discovered that the Soviets had nuke missiles in Cuba, a floor plan of Gen. Walker's home who Oswald shot at, the words "gun 22," David Atlee Phillips who was seen with Oswald by Antonio Veciana, James Angleton, CI/SIG his Deputy Ann Egerter who opened Oswald's 201 file, Jane Roman, CI Liaison also handled Oswald pre-Nov 22 file, words re U-2 dump (Oswald gave Sovs info to shoot down U-2 to sabotage upcoming Summit) "new height special" "tail span" Bernardo De Torres, former Bay of Pigs POW and head of BOP brigade, Carlos Bringuier and time, place Oswald was to confront him so that Oswald could get some ink for his bogus anti-Castro activities to be used as bona fides, Orestes Pena who said he saw Oswald with FBI Agent Warren C. DeBrueys whose name was also found. Spas Raiken who met Oswald when Oswald re-defected. There were the

names of CIA agents working in the USSR, Ukrainian nationalist leaders, the initials MVD. Book contains photos I had the NARA develop from a roll of Minox film found among Oswald's possessions. One was a photo of Oswald another showed Hemming with a Huk in a garrote at Subic Bay. Hemming me that him and Oswald went Huk hunting together. The book document's Ruth Paine, who babysat Oswald in Dallas connection to James Angleton. The book also refutes the FBI's lies that the mystery tramps who were picked up after the Big Event had been ID'd as there were two sets of three tramps picked up that day. I only wish Senator Richard Schweiker and Congressman Henry Gonzalez, both of whom employed me to study the Kennedy assassination, were alive to see this book. Oswald played down the importance of the address book after the Big Event. I can see why....this address book is like Oswald being resurrected and pointing at the men who set him up as the patsy is a Coup D'Etat in America! Book has introduction by Mary Wilson of the CIA who admits this author is able to uncover CIA operations by putting divergent puzzle pieces together. This book contains the only new evidence developed in decades because prior to this book one had to get special permission from the Archives to view the address book which this author did when he worked for Frontline. Also contains enhanced versions of tramp shots, the death squad in heavy disguise that pulled off the Big Event, the Crime of the Century, the Kennedy Assassination which caused America to take a turn to the right and go into Vietnam, a move that caused unbelievable domestic and international turmoil. Book has been revised with new info January 2018 so it

contains 2017 doc release that makes reference to a photo of Oswald at Alpha-66 meeting in Dallas. Weberman was the only researcher to be sued by death squad member Hunt and was able to depose everyone involved in the Big Event such as Angleton who tried to break his hand when they shook hands. Hunt dropped lawsuit one day before it was to come to trial. Weberman hung out in Hemming's private investigator office in Little Havana and took surreptitious photos w/minox camera. Put pie contracts out on Hunt and Sturgis.

This book is the first comprehensive treatment of the phonological system of Basque available in English. Basque is a morphologically rich and fairly regular language with a number of active phonological rules that are limited to certain morphological environments. In addition, it has a high degree of dialectical fragmentation. These characteristics of Basque make this language a good test ground to investigate the interaction of phonological rules both with each other and with morphological processes, which the author does within the Lexical Phonology framework. The effects of rule interaction on feature geometry are a major concern - how phonological operations modify underlying structures and how the structures created by one phonological rule can serve as input to other rules. These effects are examined in a study of the rather peculiar behaviour of Basque affricates. Another area which requires particular attention, and in which Basque dialects differ

widely, is prosody. Along with stress-accent systems of different types, Basque also possesses pitch-accent or restricted tonal systems in some of its western dialects. This book should be of interest to advanced students and teachers of linguistics, especially Romance linguistics and lexical phonology.

A Companion to Old Norse-Icelandic Literature and Culture BRILL

«The less prepared the body of good men within the land are to act as mediators, the longer, more violent and less reconcilable will be the conflicts through which the land is plagued.» The prefatory sagas of the Sturlunga compilation develop this principle by incremental repetition of themes, of disintegration, of mediation and its collapse, of flawed reconciliation; the central work of the compilation, Sturla Thordarson's «Islendinga saga», provides the proof. The compilation as an entity is an «exemplum» calling on the leaders of 14th-Century Iceland to settle their differences amicably and avoid a return to Sturlung Age chaos.

This book is a study of the Basque variety spoken in Lekeitio (Vizcaya). As such we have intended to make a direct contribution to Basque dialectology, aiming at setting certain standards for research in this area. In addition, we believe that some of the materials assembled in this work will be of interest to a larger audience beyond Basque specialists. It is for this reason that we decided to write the present book in English. In our opinion, certain linguistic aspects are treated in more detail here than in any previous work on any other Basque variety. A case in point would be accentuation, both at the lexical level and in its relation to the syntactic process of focalization.

Hrafn saga Sveinbjarnarsonar is a prime source of information about people and affairs in Iceland from the 1180s to 1217, the beginning of the Sturlung Age, and the great period of creativity in Icelandic saga-writing. The first critical edition based on all the manuscripts currently available, the saga offers insightful information about daily life, seafaring, law, feud, medicine, superstition, and "sacramental" and "secular" attitudes. The volume is furnished with full textual notes, a detailed introduction, and a substantial commentary that clarifies points of content, language, and style.

This volume is a collection of 30 papers on the broad subject of the Scandinavian expansion westwards to Britain, Ireland and the North Atlantic, with a particular emphasis on settlement. The volume has been prepared in tribute to the work of Barbara E. Crawford on this subject, and to celebrate the twentieth anniversary of the publication of her seminal book, *Scandinavian Scotland*. Reflecting Dr Crawford's interests, the papers cover a range of disciplines, and are arranged into four main sections: History and Cultural Contacts; The Church and the Cult of Saints; Archaeology, Material Culture and Settlement; Place-Names and Language. The combination provides a variety of new perspectives both on the Viking expansion and on Scandinavia's continued contacts across the North Sea in the post-Viking period. Contributors include: Lesley Abrams, Haki Antonsson, Beverley Ballin Smith, James Barrett, Paul Bibire, Nicholas Brooks, Dauvit Broun, Margaret Cormac, Neil Curtis, Clare Downham, Gillian Fellows-Jensen, Ian Fisher, Katherine Forsyth, Peder Gammeltoft, Sarah Jane Gibbon, Mark Hall, Hans Emil Liden, Christopher Lowe, Joanne

Skaldic Verse and the Poetics of Saga Narrative is a study of the varying relationships between verse and prose in a series of Old Norse-Icelandic saga narratives. It shows how the interplay of skaldic verse, with its metrical intricacy and cryptic diction, and saga prose, with its habitual spare clarity, can be used to achieve a wide variety of sophisticated stylistic and psychological effects. In sagas, there is a fundamental distinction between verses which are ostensibly quoted to corroborate what is stated in the narrative, and verses which are presented as the speech of characters in the saga. Corroborative verses are typical of—but not confined to—historical writings, the verses acting as a footnote to the narrative. Dialogue verses, with their illusion that saga characters break into verse at crucial points in the story, belong to the realm of fiction. This study, which focuses on historical writings such as *Ágrip* and *Heimskringla*, and three of the major family sagas, *Eyrbyggja saga*, *Gisla saga* and *Grettis saga*, shows that a close reading of the prosimetrum in the narrative can be used to chart the complex and delicate boundaries between history and fiction in the sagas. When skaldic stanzas are presented as the dialogue of saga characters, the characteristic naturalism of these narratives is breached. But some saga authors, as this book shows, extend still further the expressiveness of saga narrative, presenting skaldic stanzas as the soliloquies of saga characters. This technique enables the direct articulation

of emotion, and hence dramatic focalization of the narrative and the creation of psychological climaxes. As an epilogue, Heather O'Donoghue considers the absence of such effects in Hrafnkels saga—a highly literary narrative without verses.
