FINN WINTERS

Mental Maths Year 2
Andrew Brodie
Publications
Contains more than
800 mental maths
questions specially
devised to boost
children's confidence
by providing plenty of
practice of all the key
aspects of the national
curriculum.

Mental Maths Every Day 6-7 Vikas

Publishing House
Mastering first grade
addition is fun and
exciting with this book
that combines problem
solving activities with
puzzles and humor to
reduce learning
anxiety and build
essential skills.
Understanding addition
is an important
building block for
future learning, and
Highlights(TM) brings

Fun with a Purpose® into this essential math activity for first graders. Our award-winning content blends math with puzzles and humor, which makes learning addition enjoyable while reducing math anxiety. With first grade addition strategies like counting on a number line and using ten frames, this book will help students grasp basic addition concepts and will build their confidence in the classroom.

Targeting Mental Maths
Yr 6 A&C Black

Mental maths skills are essential for all age groups and this series of six books provides lots and lots of practice of number facts to make sure children are really up to speed with their mental maths! Each page features four

columns of mental maths questions that children are challenged to complete in less than one minute.

Answers are provided, also arranged in columns for ease of marking. When used on a regular basis, improvements in accuracy and speed will soon begin to show.

First Mental

& Sims Limited

Mathemind series

consists of eight

workbooks to be used

alongside the existing

textbooks of

mathematics for

classes 1-8. The books

train the learners to do

rapid calculations to

acquire proficiency in

mathematics. These

books provide

opportunity to apply

various mathematical

skills to different

situations so as to make systematic thinking a way of life.

Mental Math in Junior High Crown

Contains more than 800 mental maths questions specially devised to boost children's confidence by providing plenty of practice of all the key aspects of the national curriculum.

Fast & Fun Mental Math Bloomsbury Publishing

A new series offering a bank of mental maths activities, designed to last between 5 and 10 minutes. Activities can be used as standalone oral and mental maths 'games'. A bank of photocopiable resources is provided to support children with the activities. Levelled mental maths tests are provided to check children's

progress against a range of Framework objectives and assessment outcomes.

Level: KS2 Subject:
Maths When it comes
to getting the best
results, practice really
does make perfect!
Matched to the
National Curriculum,
this Collins Maths Year
5 workbook is designed
to target every Maths

Year 5 topic in depth.

Using a repeated
practice method that is
proven to work, this
book improves
performance in tests
and assessments.

Questions for each
topic are organised
into three levels of
increasing difficulty
while progress tests
throughout check
pupil's understanding
along the way.

Children can record
their own results too,
supporting awareness
and boosting
confidence. A handy
pull-out answer section
is also included to
ensure every pupil is
prepared ahead of
their 2019 Maths Year
5 curriculum tests. For
the Year 6 Maths SATs,
we've got another
Collins KS2 Targeted
Practice Workbook
(9780008175498)
available as well.

Mentals Highlights Press

Gives unusual math ideas, do-it-yourself math activities and games. 9-12 yrs.

Mental Arithmetic New York : Sterling Pub. ; Winnipeg : Tamos Books

Mental Maths is the maths we do in our heads without the use of calculators and without writing down the calculation. Mental Maths strategies are the 'tricks' we use to do Maths in our heads. There are different ways of finding the answer to any Mental Maths problem, and such strategies are the focus of this series.

Excel Basic Skills: Mental Maths Strategies Year 2 contains: 32 units of work, with eight units of work for each school term. Each unit is broken up into 4

sets: A, B, C and D.

Each set is on a different topic. You will notice illustrations at the top of nearly every page. These characters are used to convey an important strategy or step in Mental Maths. Each page of Mental Maths has an extra practice section in the lower part which will give the student further practice in a concept. The illustrations help explain the concepts and strategies that could be used to answer the questions. Answers are provided in the middle of the book

A&C Black

This book is written to match the objectives of the new National Curriculum and features weekly tests that provide regular mental maths practice.

Think Mentals Student Book 6

Pascal Press

Mental Maths is the maths we do in our heads without the use of calculators and without writing down the calculation. Mental Maths strategies are the tricks we use to do Maths in our heads. There are different ways of finding the answer to any Mental Maths problem, and such strategies are the focus of this series. Even though calculators and computers play an enormous role in the modern world, we still need to go back to the basics as we do need to know how to check that the sales assistant at the counter is giving us the right change! Mental Maths has become more important than ever

and new primary Maths syllabuses in Australia are reflecting this. For example, NSW has placed an emphasis on Mental Maths in its primary syllabus, and even the Year 10 School Certificate examination has a compulsory non-calculator section. Features of this book include:- 32 double-page units of Mentals are included % 8 units for each school term each unit is divided into four sets (A,B,C and D) of 20 questions each each numbered question covers particular Maths topics throughout the book: for example, Question 1 always covers addition, while Question 20 always covers geometry a special 'Help' section, at the front of the book gives different

strategies and explanations to help students solve Mental problems. These are also numbered so they link to the question numbers in each Mental unit. A eFun Spot, unit, containing fun activities, and a eRevision, unit are included at the end of each 8 units extra practice, sections which reinforce particular strategies appear in the lower part of each page. Answers to all questions are in a lift-out section in the centre of the book.

Answers to all questions are in a lift-out section in the centre of the book *Mental Math Workout* Mental Arithmetic Gems Mental Maths and Workbook is the first series that combines exercises in Mental Maths with a Workbook section. The exercises are planned and graded to make the maths practice enjoyable to the learners. This series will help students to develop a habit of logical thinking, a scientific temper, reasoning ability and a positive attitude towards mathematics. *New Wave Mental*

Maths A&C Black

An experienced math teacher shares the 250 10-minute quizzes he developed that helped boost his students' mental math skills and their scores on standardized tests.

Topics covered include addition, subtraction, multiplication, division, numeration, patterns, percents, ratio, rounding, prime numbers, geometry and much more.

Includes ready-to-use, reproducible answer sheets. Geared to the NCTM standards. For use with Grades 4-8.

Mental Maths Every Day 5-6 Coordination Group Publication

50 lessons and answer key to practice mental math.

The Trachtenberg Speed System of Basic Mathematics

Coordination Group

Publication

The two new titles in the Mental Maths series, for children aged between 5 and 7, complement the four existing titles for children aged between 7 and 11. Each book features extensive practice for addition and subtraction; the second book progresses to multiplication and division. These books fill the gaps in our current very popular Mental Maths series, providing first-class educational materials for parents to use with their children at home. These books provide a clear approach to number work for parents to follow with their children.

Think Mentals Student Book 1 Scholastic Inc.

100 MENTAL MATHS STARTERS is a series of

six flexible teacher's handbooks designed to provide content for the mental and oral lesson-starter sessions (first 10 minutes) of 100 dedicated maths lessons ('numeracy hours'). Each year-specific book is based on the planning and content of the corresponding '100 Maths Lessons' book, and provide in full 100 of the starter activities only outlined in that series. *All the questions, answers and

essential information a teacher needs to deliver 100 10-minute starter sessions.
 *Systematic development of mental maths skills according to NNS objectives year-by-year. *Follows planning and activity outlines in '100 Maths Lessons and more'
 *Flexible photocopiable format for delivery by teacher or for children working together.
 *Essential resources provided as photocopiable pages.
