ASIA LIU

HowExpert Guide to Birdwatching Simon and Schuster
In this bracing book, Beatriz Sarlo offers a remarkably clear, forthright, and forceful statement of what precisely cultural criticism is and might be in our age of manic consumption, commercialization, popularization, and mass marketing.
National Geographic Kids Bird Guide of North America Taylor & Francis
Get to know all about the best and brightest—and smelliest!—birds in Leslie Bulion's award-winning collection of avian science poetry. You won't even need binoculars! Ever

wonder which bird has the loudest voice? Which one builds the biggest nest or has the most feathers? Get to know all about the best and brightest—and smelliest!—denizens of the bird world with this collection of nonfiction science verses. Award-winning science poetry author Leslie Bulion dedicates a variety of verse to these impressive birds and includes a science glossary, notes on poetic forms, and resources for more information in the back of the book. Witty drawings by Robert Meganck add another layer of fun to this humorous and informative gallery of the world's most accomplished birds. Ideal for cross-curricular learning, including units on animals, birds, nature, and poetry.

Look Up! Candlewick Press

A detailed insider's guide to the best places to find birds in all seasons

Bird Watch U of Minnesota Press

A conversational, humorous introduction to bird-watching featuring quirky full-color illustrations portray dozens of birds chatting about their distinctive characteristics, including color, shape, plumage, and beak and foot types.

Britain's Birds McGill-Queen's Press - MQUP

Finding ways to organize your classroom instruction for knowledge building and literacy learning can be challenging. How can you incorporate more nonfiction and informational text in your content area curriculum while expanding and deepening representation with diverse texts? What can motivate student learning while providing equity and access for different learning styles and needs? Text sets are the answer! In *Text Sets in Action: Pathways Through Content Area Literacy*, authors Erika Thulin Dawes and Mary Ann Cappiello demonstrate how text sets offer students the opportunity to build critical thinking skills and informational literacy while generating interest and engagement across the content areas. Put your students in the center of the meaning-making in your classroom with multimodal multi-genre text sets in action. In *Text Sets in Action*, the authors: Model how text sets build foundational skills and metacognitive strategies as students experience a carefully scaffolded and sequenced exploration of ideas, academic, and content vocabulary Explain how text sets encourage classroom discussion by having students ask questions about what they read, debate different perspectives, and relate the texts to their own personal experiences and the changes they would like to see in the world Show how children's literature and multimodal, multi-genre texts can serve as mentor texts for student writing and inspire

creativity and advocacy Demonstrate how to curate text sets that can introduce diverse and underrepresented voices into the classroom, fostering appreciation for different points of view and generate deeper critical thinking Provide resources and suggestions for designing text sets a multimodal, multi-genre text set can include children's literature of all genres, as well as digital texts, YouTube videos, news articles, podcasts, and more Text Sets in Action will help you create a collection of text sets that can be added to or edited over the years to align with your lesson plan goals. Teachers who have adopted this approach saw greater student reading comprehension and critical thinking skills. By introducing a multitude of text, teachers will ignite a spirit of inquiry and engagement for lifelong learning.

Seventy Years of Birdwatching Disney Electronic Content

Hummingbirds are fascinating little creatures that have captured the imagination of people for thousands of years. Since they are only found in the Americas, the myths and legends about this tiny bird originated from the peoples of North and South America. These native cultures wrote stories to offer explanations for the behavior and physical characteristics of this graceful species: Why does the hummingbird drink nectar? What accounts for its amazing flying abilities? Why is the hummingbird attracted to the color red? Jeannette Larson and Adrienne Yorinks have compiled facts and folklore about these intriguing fliers that will answer these questions and many more. Readers will also get a glimpse into the different cultures that have been transfixed for centuries by this bird, as well as learn many interesting scientific facts discovered by modern-day ornithologists. Adrienne's bold and unique mixed-media quilts illustrate the hummingbird in nature

and the mystery of these birds in ancient folklore. Substantial back matter includes an index, a glossary of terms, suggested further reading and websites, a bibliography, sources, resources, and a list of hummingbird sanctuaries.

Superlative Birds National Geographic Books

This is a story of a college kid who joins his alcoholic novelist-wannabe father Mole Molineux and his cast of oddball friends Suitcase, Beans, and Josh Keenanas they embark on a booze- and drug-filled bird-watching expedition through Pennsylvania and New Jersey. They jam to Creedence, ride a pony, find a pig in a blanket, preach the gospel to turkeys, and teach an Asian Brothel the wonders of Old Yeller as they head to the World Series of Birding. An offbeat coming-of-age tale about drinking, birding, and finding your place in the world.

The Sibley Guide to Bird Life & Behavior Holiday House

From the author of the acclaimed Tap the Magic Tree! Search for hidden birds and count them, too, in this seek-and-find picture book with a satisfying surprise. Delicate artwork, a focus on counting, and an engaging treasure hunt will entice fans of Janell Cannon's *Stellaluna* and Steve Light's *Have You Seen My Dragon?* There are treasures hiding in the trees! Can you find them? From the author of the acclaimed and bestselling Tap the Magic Tree, this stunning picture book merges basic math concepts with elements of a treasure hunt. With different species of birds and other forest animals hiding in the trees and bushes, there is something new to discover on every page. Patience is rewarded as readers learn to count backward from ten, meet new birds, and learn about the diverse ecosystem of the forest. Beautiful watercolor-and-collage art, a playful counting text, and a search-

and-find theme will inspire children and parents to return to Bird Watch again and again. And for curious young birders, a page of information about bird-watching and the different birds that appear in the book is included.

Look at That Bird! A&C Black

What words from our Christian vocabulary would you miss if you could no longer use them? If you pronounced them and no one understood? If you spoke and people gave them a meaning at odds with your conviction? What words do you fear are falling into misuse? If you could save some word or phrase from disuse or misuse what would it be? *Saving Words* is a collection of personal, provocative essays by lay people, clergy, poets, theologians, musicians, and scholars on words they want to preserve and proclaim, urgent and important reflections on the language we need for the facing of these days. Open this volume and find saving words that matter.

The Life of the Skies Amila Jay

Pete Dunne has taught birding to beginners for years, but he has never found the right book to help them get started. Now the popular birding author identifies the skills and tools available to people with any amount of interest, great or small, in bird watching. Beginning with backyard birding and moving through a quick but comprehensive survey of tools of the trade, Dunne outlines ten basic, simple steps in bird identification that can make a birder out of the most casual of observers. He goes on to show beginning birders how to use their skills to explore new horizons through birding by ear, birding by telescope, and finding and identifying rare or difficult birds. Written in the lively, authoritative style that has made Dunne one of the most popular

writers in this field today, Pete Dunne on Bird Watching will inspire in readers both a growing passion for birding and a lifelong respect for the natural world and its inhabitants.

The Magic Rabbit Alfred a Knopf Incorporated

Illustrated with 30-40 photographs and artwork and a map, this book helps you discover where the birds are whether in Mexico and southern Europe or in the distant, mythic Galapagos, Korea, and Antarctica.

Birdwatching in New Hampshire Rockridge Press

Whether as sources of joy and pleasure to be fed, counted, and watched, as objects of sport to be hunted and killed, or as food to be harvested, wild birds evoke strong feelings. Sean Nixon traces the transformation of these human passions for wild birds from the early twentieth century through the 1970s, detailing humans' close encounters with wild birds in Britain and the wider North Atlantic world. Drawing on a rich range of written sources, *Passions for Birds* reveals how emotional, subjective, and material attachments to wild birds were forged through a period of pronounced social and cultural change. Nixon demonstrates how, for all their differences, new traditions in birdwatching and conservation, field sports, and bird harvesting mobilized remarkably similar feelings towards birds. Striking similarities also emerged in the material forms that each of these practices used to bring birds closer to people – hides and traps, nets and ropes, and binoculars. Wide ranging in scope, *Passions for Birds* sheds new light on the ways in which wild birds helped shape humans throughout the twentieth century, as well as how birds themselves became burdened with multiple cultural meanings and social anxieties over time.

Backpack Explorer: Bird Watch National Geographic Books

A new, improved and thoroughly updated edition of the bestselling photographic guide—the only one to cover every bird, in every plumage, ever recorded in Britain and Ireland A bestselling guide since it was first published, Britain's Birds has quickly established itself as the go-to photographic identification guide to the birds of Great Britain and Ireland—the most comprehensive, up-to-date, practical and user-friendly book of its kind. seen during only part of the year

How to Find a Bird Farrar, Straus and Giroux

Your Bird-Watching Companion for Idaho, Oregon, and Washington Peaceful, relaxing, and inspiring—birding can yield a lifetime of satisfaction. For some, simple observation of birds is enough to fill them with joy. Others prefer to make it more interactive, striving to see a variety of species and learning to identify them. If you're among the latter, the Pacific Northwest Birding Companion is just for you. Written by award-winning author, naturalist, and wildlife photographer Stan Tekiela (known throughout the region for his best-selling bird identification guides), the Pacific Northwest Birding Companion is part how-to book, part field guide, and part journal. Read Stan's tips for identifying birds, and learn about everything from reporting a rare bird to dealing with injured birds. The field guide section organizes 145 species by color. When you see a yellow bird, go to the yellow section to discover what it is. There, you can also find range maps, as well as such information as nest descriptions, migration habits, and tips for attracting the species to your feeder. At the bottom of every page, there's room to log information about when and where you saw that species. You can also keep track of your birding life list on the book's closing pages—so you'll always have a running total of the different birds you've seen. Use your birding companion on its own, or pair it with Stan's bird identification guides. It will enhance your birding experience and bring even more enjoyment to the hobby that you love.

The Sibley Guide to Birds Adventure Publications

The third book in the Backpack Explorer series from the Editors of

Storey Publishing invites budding naturalists to head outside for a walk — in the woods, a park, or right in their backyard — to spot feathered friends. Backpack Explorer: Bird Watch leads kids aged 4 and up through the basics of birding, from identifying common birds to learning about habitat and migration and listening for bird songs. The pages are packed with prompts and activities, including 12 interactive field guides (for common birds, nests, eggs, tracks, and more), sensory scavenger hunts, activities such as building a bird nest, matching games, and simple discovery zone pages about food chains and the life cycle of birds.

Equipped with a real magnifying glass, stickers, and a birding log for recording sightings and encounters, this book is the perfect take-along for any nature adventure. Also available in this series: Backpack Explorer: Beach Walk and Backpack Explorer: On the Nature Trail.

Look Up! UPNE

This is a book about birdwatching, birdwatchers and, above all, birds. It is, in some measure, also a history of the development of modern ornithology in Britain - although the author's birdwatching extended over parts of three continents, Europe, India and North America. Seventy Years of Birdwatching is not truly an autobiography, there is too little about the author in it, though the personality of this exceptional, shy and gentle man comes through. H. G. Alexander began birdwatching in earnest in 1898 and has never stopped. He has met or corresponded with most of the leading ornithologists of this century; his first article in British Birds appeared in 1909, and it may surprise many to discover how much of practical ornithology that is deliberated today was debated and practised so many years ago. During

more than seventy years the author has witnessed important changes in resident and migrant bird populations in Britain. Dungeness, for example, was almost as uninhabited as the moon when he first knew it and Kentish Plovers bred there by the score, but Carrion Crows were a rarity. Over the years he saw the gradual decline of the Red-backed Shrike, Corncrake and Wryneck but he was instrumental in bringing one bird to Britain, the hitherto 'undiscovered' Willow Tit which he, with others, helped to identify. Fifty years ago H. G. Alexander had already covered scores of six-inch Ordnance Survey maps with his mapping records and these, together with his notebooks and correspondence with contemporaries, supply an absorbing glimpse of a birdwatching era that was fascinatingly like and yet unlike our own. Perhaps this is why today's birdwatcher has only to turn the pages to be enthralled.

Pacific Northwest Birding Companion Princeton University Press

From the editor of the nation's premier birding magazine, a no-nonsense, no-fluff quick guide to the birds you see every day. Of all the classic American pastimes, perhaps none is as widely accessible as watching birds. Our unusually vast, diverse environmental landscape supports fascinating species and variations exclusive to each region of the country. But while birders often spend their efforts in search of the rarest creatures, some of the most beautiful and intriguing birds are the ones that frequent our backyards (or nearby) daily. For that reason, where other, larger volumes focus on bird types that the casual observer is never likely to encounter, *Northeastern Birds* concisely celebrates those species living under our very noses.

Written by Bill Thompson III, the editor and co-publisher of *Bird Watcher's Digest*, this portable 5"x8" book contains the same variety of entertaining and informative entries that make *Bird Watcher's Digest* the nation's most popular birding magazine. Inside, you'll find profiles of the 55 most common birds in the Northeast, complete with large color photos, gender-specific physical descriptions, nesting and feeding information, bird call particulars, and interesting stories about each species. Thompson also introduces the reader to the basics of bird watching: essential gear, bird-friendly food and plantings, housing tips, and observational techniques. This guide covers New York, Rhode Island, Connecticut, Massachusetts, Vermont, New Hampshire, and Maine. Look for our other backyard bird guides covering the Mid-Atlantic, Midwest, South, and West regions of the United States.

Scenes from Postmodern Life Greenwillow Books

Kids will love learning more about birds they spot in the outdoors--in their backyards and beyond--with this fun fact-filled full-color guidebook of over 50 common Pacific Northwest birds. Filled with fun and interesting kid-friendly facts and full-color photographs of over 50 birds that Northwesterners are most likely to see every day, this book encourages curious kids and their adults to go outside and learn more about nature. Kids will learn basic information about what makes a bird a bird, and specific information about each bird species, all of which can be used to help identify birds. Look at *That Bird!* also includes projects kids can do to attract birds to their backyards.

Bird Watching for Dummies Charlesbridge

You don't have to travel around the world or spend a ton of

money to enjoy the wonders of nature. Look Up! Birds and Other Natural Wonders Just Outside Your Window is a series of well-researched nature essays that will inspire readers to experience the outdoors in an affordable, accessible and joyful way. The essays encourage backyard and local bird watching, native plant landscaping and restoration, practical energy conservation and land conservation. They also explore how we can derive psychological benefits from these activities--how nature can help us live happier, more fulfilled and rewarding lives.

The Gift of the Magi Turtleback Books

A BIRDING JOURNEY AT HOME AND BEYOND It began with a flutter of yellow feathers flitting through the trees, casting beams of sunshine and promise that burst through her kitchen window. This was her sign to look up. As a licensed therapist, Tammah Watts knew that she needed to seek and accept hope, love, and

support to overcome her chronic pain and cultivate resilience. But she could not predict that the little yellow bird would put her on the path to healing by fostering a powerful connection with birds and the experience of birding. Tammah shares her emotional journey of finding comfort and inspiration from her feathered friends, while providing practical tips and tools to help you: Explore the practice of birdwatching from the comfort of your own home and community Increase your self-awareness, mindfulness, and concentration Find acceptance and alignment with the spirit and beauty of birds Right outside your door flies just what you've been looking for to help ease symptoms of stress, pain, depression, and anxiety. All you have to do is look up, take notice, and open your heart and mind. No matter where you are, what you look like, or what you're going through, you can create sacred space and connection with birds and begin to heal.
