*The Medical and Surgical  
Reporter* Simon and  
Schuster  
Compassion draws  
physicians into medicine,  
but then they believe they  
must jettison that  
compassion to survive.  
Paradoxically, science has  
now shown that losing  
that compassion not only  
harms the patient, it also  
harms the doctor. *How  
Doctors Care: The Science  
of Compassionate and  
Balanced Caring in  
Medicine* explains what  
physicians and other  
clinicians can do to  
provide balanced and  
compassionate caring for  
patients without  
becoming emotionally  
detached or  
overwhelmed. The text  
provides a research-  
informed and non-  
sentimental description of  
physician/clinician  
compassion. Bringing  
together cutting-edge  
scientific research for  
practicing physicians and  
those in training, *How  
Doctors Care* provides the  
first full articulation of  
what constitutes optimal  
compassionate mental

performance in the  
practice of medicine. It  
argues how maintaining  
this internal state is the  
key to physician resilience  
and fulfillment in a  
dysfunctional healthcare  
system. Rather than  
blaming clinicians for  
burnout, *How Doctors  
Care* argues that  
healthcare organizations  
must provide  
organizational protection  
and support to clinicians  
so that they are able to  
maintain the  
compassionate internal  
state they desire so much  
and that benefits patients  
the most. Dominic O.  
Vachon, M.Div., Ph.D., is  
the John G. Sheedy M.D.  
Director of the Ruth M.  
Hillebrand Center for  
Compassionate Care in  
Medicine in the College of  
Science at the University  
of Notre Dame. He is also  
a professor of practice in  
the Preprofessional  
Studies Department,  
where he teaches courses  
in compassionate care in  
medicine, medical  
counseling skills, and  
spiritualities of caring in  
the helping professions.  
Dr. Vachon does research  
on the internal mental  
and emotional process of  
the clinician compassion  
mindset in patient care,

clinician communication  
skills, and innovations in  
medical training applying  
the science of  
compassion. Dr. Vachon  
has devoted the last 25  
years of his professional  
career to supporting and  
training physicians,  
residents, medical  
students, premedical  
students, and other  
clinicians in patient  
communication skills as  
well as dealing with  
burnout and the recovery  
of compassionate care in  
the inner lives of  
clinicians. As a medical  
psychologist who has  
spent most of his life  
training new physicians as  
well as conducting his  
own clinical practice,  
Vachon has been uniquely  
positioned to hear how  
physicians suffer in  
clinical practice and to  
bring to bear the insights  
of the science of  
compassionate caring to  
help them restore their  
compassionate ideals and  
thereby, to improve  
patient care.

This thoroughly revised  
and greatly expanded  
third edition of a classic  
reference, now three  
volumes, constitutes an

invaluable resource for practitioners who in a managed care era need to focus their testing not on the general goals of personality assessment, symptom identification, and diagnosis so often presented to them as students and trainees, but on specific questions: What course of treatment should this person receive? How is it going? Was it effective?

Two romantic DDLG and ABDL themed love stories for the age play fetishist. Please note: These stories contain heavy sexually explicit content, Age Play, DDLG, MDLG and ABDL themes. It features diaper changes (wet), forced regression, humiliation, Dominants and a submissive. The characters in this book are consenting adults engaged in a variety of kinky, fun activities and this novel is intended for adult readers only. Daddy Doctor To The Rescue: "Well, I have some good news for you, although you may not see it as such at first. There is a rehab facility that specializes in troubled young women, such as yourself. Their technique is highly experimental,

but it has yielded promising results. Rather than another fruitless stint in jail, I sentence you to thirty days of treatment at the Franken Institute for Young Women," he said. Rehab?! I was astounded. I wasn't a junkie. I just liked to have a good time, get a little loose, and forget my troubles for a bit. I did not need rehab. When Molly was sent to Franken Institute for Young Women, she never imagined they would have her powdered, diapered, and sent to bed early in a frilly nightie. What is more, she never imagined that she would like it... Connor's Little One: "Keep reading, baby girl," Connor whispered. I only hummed in response, turning back to the list. Some of the rules were repeats of the things I'd checked in the contract, such as enforced outfits when Connor and I were together, and I went into Little Space. My bedtime would be ten p.m. I wasn't allowed to swear. That one made me giggle, but that was cut off as Connor began moving his finger in small, circular motions and it was hard not to moan. "Yes, I agree to the rules. All of them," I gasped. Biting down on my lower lip. If you are looking for a loving DDLG

An Irish Doctor's Odyssey, Dr Colbert's first book of memoirs, is about middle-class Catholic Ireland in the 1940s and tells the true story of a country boy born in Waterford, sent off at nine years of age to board with the Dominicans in Newbridge and graduating as a doctor in UCD in 1957 while still holding onto the

dream of working with the poor. Turning down the prospect of a glittering career he went instead to work in Africa and the Caribbean with his young wife, Doreen, driven by a long-nurtured desire to serve as a missionary doctor. His adventures bring you to the heart of Africa, the sands of the Sahara, the lush islands of the Caribbean and the world of Islam in Saudi Arabia. Throughout the book, Dr Colbert shares stories of medical dilemmas, mistakes and triumphs; of the people he worked with; and of the people he served, bringing the reader with him as he describes incidents that are sometimes happy, sometimes sad, but always fascinating. But this is more than a travel book. Love, faith and understanding shine through the pages. An Irish Doctor's Odyssey will make you weep and laugh and, above all, show that dreams can come true. It is certainly easy to read but definitely not easy to put down. Book jacket.

When Dr. Darren Drake catches his Certified Nurse Assistant smoking behind the clinic and gushing on the phone about him, he decides she requires punishment: an embarrassing examination including anal play. Playing around with an employee opens him up for sexual harassment charges or getting kicked out of his practice, but when Chloe asks for more, he just can't resist. Despite working in an OB/Gyn clinic, Chloe hates doctors. Their know-it-all God-playing rubs her the wrong way—until the man she refers to as Dr. Dreamy shows her giving up control might fulfill fantasies of submission she never knew she had. He seems to enjoy torturing her in the most delicious ways, but he also reduces her to stammers and blushes, which makes it hard to get to know one another. Can he use his dominance to remove all semblance of control, leaving her with no option but to obey and show her true heart?

The Reluctant Dom

Paul Dombey is a cold, unbending, pompous merchant, and a widower with two children - Paul and Florence. His chief ambition is to perpetuate the firm-name. He dreams

of passing his business on to his son. Dombey dotes on his son, and neglects and mistreats his daughter. The "son" in the title of the book is incapable of ever joining the firm. A sickly and odd child, Paul dies at the age of six. Dombey pours his resentment and anger out on his daughter, whom he pushes away despite her efforts to earn her father's love. Eventually Dombey remarries, after literally acquiring his new wife

from her father in a commercial transaction. Dombey is as bad a husband as he is a father and his marriage is loveless. His new bride hates Dombey and eventually runs off with Carker, his business manager. Dombey characteristically blames Florence for this reversal, and strikes her, causing Florence to run away as well. Abandoned by everyone, Dombey loses

his business and goes half insane, living in his decaying house. Dombey is eventually reconciled to his daughter, who always a doormat forgives her father.....
