Drawing on his extensive practical experience as an international civil servant in a number of organizations, Davies writes in a lively and readable manner about all aspects of administrative policy and its related implications. Divided into two parts, the first - Top down - will enable policy makers in government, academia and elsewhere who have an interest in the proper governance and management of international institutions to gain fresh insight into the topic. The second part - Bottom up - provides a substantial body of knowledge of administrations, including case studies of best and worse practice. The book includes analysis of: -The UN system -International Financial Institutions -Co-ordinated Organizations -Regional European Institutions -The Consultative Group for International Agricultural Research This is a work that fills a well-defined gap in organizational knowledge in a rigorous, but accessible way. It is essential reading for both practitioners and academics involved with international organizations.

This book on HRD is a product of many years of my teaching and learning experience at different UG and PG Govt. colleges in the state of Haryana. There is no such book of Human Resource Development available in the market where students of B.A. Economics (Hons.) & M.A. can find the whole syllabus for the preparation of final examinations. Students have to consult a number of books, papers, articles, journals etc. to cover the entire course of study of Human Resource Development for B. A. Economics (Hons.) Semester-VI. This necessitated the publication of this book entitled-'Fundamentals of Human Resource Development' so that students can have entire course of study at one place. Students from rural areas will find it very comfortable as language used in this book is very simple and clear. The contribution of some eminent scholars like- Nadler, Swanson, Monika Lee, T. V. Rao and M. N. Khan has immensely influenced my understanding and interest in the subject of HRD. The book describes traditional as well as modern developments in HRD. I am sure this book will be highly valuable to the teachers, students and HRD practitioners.

This book explains the functional scope, the data model, the solution architecture, the underlying engineering concepts, and the programming model of SAP S/4HANA as the most well-known enterprise resource planning (ERP) system. The approach is to start with general concepts and then to proceed step-by-step to concrete implementations in SAP S/4HANA. In the first part the reader learns about the market view of ERP solutions and vendors. The second part deals with the business processes for sales, marketing, finance, supply chain, manufacturing, services, procurement, and human resources which are covered with SAP S/4HANA. In the third part the underlying concepts of SAP S/4HANA are described, for example in-memory storage, analytics and search, artificial intelligence, process and data integration, security and compliance, lifecycle management, performance and scalability, configuration and implementation. The book is concluded with a final chapter explaining how to deploy an appliance to explore SAP S/4HANA. The target audience for the book are managers and business analysts who want to understand the market situation and future ERP trends, end users and process experts who need to comprehend the business processes and the according solution capabilities provided with SAP S/4HANA, architects and developers who have to learn the technical concepts and frameworks for enhancing SAP S/4HANA functionality, and consultants and partners who require to adopt and configure SAP S/4HANA.
