A partir de las fuentes  
documentales y  
arqueológicas, Gómez  
Espelosín nos ofrece una  
nueva mirada sobre la  
antigua Grecia frente a  
sus visiones

estereotipadas. "La Grecia  
antigua es la más bella  
invención de los tiempos  
modernos" declaró en su  
día Paul Valéry. La frase  
del poeta francés es una  
muestra inmejorable de la  
visión idealizada de la  
antigua Grecia que se  
forjó a partir del  
Renacimiento y, sobre  
todo, en el siglo XIX. F. J.  
Gómez Espelosín, uno de  
los mayores especialistas  
en la antigüedad helénica,

nos propone una nueva historia de la antigua Grecia, construida a partir de las fuentes arqueológicas y, y no de visiones estereotipadas. El libro es una síntesis inmejorable para conocer los grandes hitos en la historia de la antigua Grecia y a sus protagonistas, tanto célebres como anónimos. La imagen que de ella emerge es incluso más bella que la versión mitificada que hemos heredado, al ser más real, heterogénea y rica en matices. La colección

Historia Brevis reúne las mejores introducciones a los principales períodos y episodios de la historia, realizadas por reconocidos especialistas en cada materia.

### **The Oxford Handbook of Hellenic Studies**

Oxford University Press, USA

The Oxford Handbook of Hellenic Studies is a unique collection of some seventy articles which together explore the ways in which ancient Greece has been, is, and might be studied. It is intended to inform its readers, but

also, importantly, to inspire them, and to enable them to pursue their own research by introducing the primary resources and exploring the latest agenda for their study. The emphasis is on the breadth and potential of Hellenic Studies as a flourishing and exciting intellectual arena, and also upon its relevance to the way we think about ourselves today.

### **History of the World in 1000 Objects** W. W.

Norton & Company  
Ferro discusses how film reveals the conscious

values of its creators, the dominant ideology of the society in which the film was created, and also unconscious or subverted meanings and values. Marc Ferro argues that film is an "agent and source of history" and offers a comprehensive survey of the conceptual interrelations between cinema and history. In developing his arguments, he provides some dozen models, each focusing on a single film or set of films.

Historia de Grecia  
**Greek Fire, Poison Arrows, and Scorpion Bombs** BRILL  
El gran helenista Paul Cartledge nos ofrece en este libro una introducción magistral a la cultura y a la civilización de Grecia apartándose de los caminos más trillados. Mezclando sabiamente la narración biográfica con sus profundos conocimientos de la cultura de la época, el profesor Cartledge nos proporciona un relato

admirable del auge y declive de la Grecia clásica a través de las vidas de quince hombres y mujeres protagonistas de su historia: Homero, Safo, Clístenes, Artemisa, Pericles, Aspasia, Sócrates, Cinisca, Epaminondas, Diotima, Pasion, Neaera, Aristóteles, Olimpia y Alejandro Magno. Cada personaje, mediante su biografía, viene a representar su papel en el teatro del mundo heleno e incorpora, además, algún aspecto crucial que desempeñaron los

romanos en la difusión de la civilización griega. Esta obra nos invita a un inolvidable recorrido a lo largo de los años en que se formó la civilización occidental y se pusieron los cimientos en los que se apoya nuestra moderna concepción de la filosofía, la ciencia, la política y el arte. Y nos ayuda a comprender lo que hay de cierto en el famoso dicho de Shelley: «todos somos griegos».

**History of Greece** Grupo Planeta (GBS)  
Arnaldo Momigliano  
traces the growth of

ancient biography from the fifth century to the first century B.C. He asks new questions about the origins and development of Greek biography, and makes full use of new evidence uncovered in recent decades from papyri and other sources. By clarifying the social and intellectual implication of the fact that the Greeks kept biography and autobiography distinct from historiography, he contributes to an understanding of a basic dichotomy in the Western

tradition of historical writing. The Development of Greek Biography is fully annotated, and includes a bibliography designed to serve as an introduction to the study of biography in general.

*A Companion to the  
Classical Greek World*

Penguin

Political activity and political thinking began in the cities and other states of ancient Greece, and terms such as tyranny, aristocracy, oligarchy, democracy and politics itself are Greek words for concepts first discussed in Greece. Rhodes presents in translation a selection of texts illustrating the formal mechanisms and

informal workings of the Greek states in all their variety. From the states described by Homer out of which the classical Greeks believed their states had developed, through the archaic period which saw the rise and fall of tyrants and the gradual broadening of citizen bodies, to the classical period of the fifth and fourth centuries, Rhodes also looks beyond that to the Hellenistic and Roman periods in which the Greeks tried to preserve their way of life in a world of great powers. For this

second edition the book has been thoroughly revised and three new chapters added. *Fonaments matemàtics per a psicologia (259)* Ediciones de la Torre "A comprehensive look at WMD's antecedents, from flamethrowers of the Peloponnesian War to plague-bearing booby traps.... Rich and entertaining." -Newsweek Featuring a new introduction by the author. Flamethrowers, poison gases, incendiary bombs, the large-scale spreading of disease... are

these terrifying agents and implements of warfare modern inventions? Not by a long shot. Weapons of biological and chemical warfare have been in use for thousands of years, and Greek Fire, Poison Arrows & Scorpion Bombs, Adrienne Mayor's fascinating exploration of the origins of biological and unethical warfare draws extraordinary connections between the mythical worlds of Hercules and the Trojan War, the accounts of Herodotus and

Thucydides, and modern methods of war and terrorism. Greek Fire, Poison Arrows & Scorpion Bombs will catapult readers into the dark and fascinating realm of ancient war and mythic treachery-and their devastating consequences. The Poetics of Eros in Ancient Greece Historia de Grecia¿Qu? conoce sobre la historia de Grecia? Los antiguos griegos ocupan un lugar destacado en las leyendas y los relatos. En los mitos antiguos, nombres como

Hércules, Aquiles y Prometeo nos gritan desde el pasado primordial. ¿Quiénes son estos extraños y misteriosos personajes? Y lo que es más importante, ¿quiénes eran para los griegos? La mitología griega proporciona una clave de la propia cultura griega. Los griegos siempre valoraron las virtudes nobles, como el valor y la fuerza, lo que se reflejó en sus antiguas mitologías. Y estos mismos rasgos de carácter pueden verse entrelazados a lo largo de

la propia historia griega. Incluso en los momentos más difíciles, los griegos se mantuvieron firmes frente a obstáculos insuperables. Los griegos lucharon contra persas, macedonios, romanos y otomanos, y aunque no siempre ganaron las guerras en el campo de batalla, casi siempre conquistaron los corazones y las mentes de los conquistados y los conquistadores. La cultura griega era tan fuerte que se transmitía por todo el mundo como un bien preciado por quienquiera

que entrara en contacto con ella. El arte, la filosofía, la ciencia y el discurso político griegos fueron un verdadero regalo para el mundo. En este libro se exploran los antiguos griegos, el Imperio bizantino, la guerra de Independencia griega, la Idea Megalítica, la junta militar y el gobierno moderno: este libro abarca la historia griega de principio a fin. En este libro, aprenderás sobre: La mitología de la antigua Grecia El surgimiento de las ciudades-estado griegas y

la democracia La guerra en la Grecia antigua Alejandro Magno y el Imperio helenístico La cultura grecorromana El Imperio bizantino Grecia bajo el dominio otomano La independencia de Grecia La Grecia del siglo XX La Grecia moderna ¡Y mucho más! ¡Obtenga este libro ahora para aprender más sobre la historia de Grecia! Compendio de la historia de Grecia, precedido de un breve resumen de la historia antigua, con una carta geográfica de la Grecia y

Asia Menor Nociones de historia de Grecia Introduction to Ancient History Erich von Däniken's monumental Chariots of the Gods changed the way generations have looked at mythology, ancient history, and the possibility of advanced beings from other worlds visiting Earth. Now he tackles the history of Greece and again challenges our beliefs about how our civilization arose. Using painstaking archaeological research and evidence from the

writings of Plato and Aristotle, he suggests that the Greek "myths" were, in fact, very much a reality, that the Greek "gods" were actually extraterrestrial beings who arrived on Earth many thousands of years ago. Many of you may find von Däniken's conclusions astounding, but they are argued with such vigor and clarity that you'll be forced to consider the implications of his findings for mankind. Odyssey of the Gods includes new, eye-opening information about: A revolutionary

interpretation of the sites and legends of ancient Greece The conflict between "alien" gods and humans The true origin of centaurs, the Cyclops, and other "mythical" creatures A startling new explanation of the Atlantis legend  
The Development of Greek Biography Harvard University Press  
 Our translation is made especially for students who have not yet acquired facility in German. It departs from Professor Bengtson's text mainly in that the general

bibliographical appendix has been reorganized to conform with the plan of the Cambridge Ancient History and also has been revised with the English-reading student in mind. *La antigua Grecia* Shackleton Books  
How should we study the democracy of classical Athens? Attitudes to Athenian democracy have always been affected by the circumstances of those studying it. This text examines the different approaches to its study and argues that objectivity should be

strived for. *Historia Universal 1* Red Wheel/Weiser  
La gran civilización griega es la cuna de Occidente hasta el punto de que todavía bebemos de su sabiduría arcaica y la bases de nuestras ciencias y letras se encuentran allí. Con este libro se da a conocer la visión más íntegra de la sociedad griega, su economía, política, religión, costumbres y vida cotidiana. *Cinema and History* Editorial Limusa  
Traces the history,

politics, culture, and influence of Greece from 4,000 B.C. to 1964. *Ancient Democracy and Modern Ideology* Penguin  
Herodotus' Histories can be read in many ways. Their literary qualities, never in dispute, can be more fully appreciated in the light of recent developments in the study of pragmatics, narratology, and orality. Their intellectual status has been radically reassessed: no longer regarded as naïve and 'archaic', the Histories are now seen as very much a

product of the intellectual climate of their own day - not only subject to contemporary literary, religious, moral and social influences, but actively contributing to the great debates of their time. Their reliability as historical and ethnographic accounts, a matter of controversy even in antiquity, is being debated with renewed vigour and increasing sophistication. This Companion offers an up-to-date and in-depth overview of all these current approaches to

Herodotus' remarkable work.  
Grecia moderna Grupo Planeta Spain  
 Thoroughly updated and revised, the second edition of this successful and widely praised textbook offers an account of the 'classical' period of Greek history, from the aftermath of the Persian Wars in 478 BC to the death of Alexander the Great in 323 BC. Two important new chapters have been added, covering life and culture in the classical Greek world Features new

pedagogical tools, including textboxes, and a comprehensive chronological table of the West, mainland Greece, and the Aegean Enlarged and additional maps and illustrative material Covers the history of an important period, including: the flourishing of democracy in Athens; the Peloponnesian war, and the conquests of Alexander the Great Focuses on the evidence for the period, and how the evidence is to be interpreted  
*The Greeks; a Great*

*Adventure* OUP Oxford  
 This Companion provides scholarly yet accessible new interpretations of Greek history of the Classical period, from the aftermath of the Persian Wars in 478 B.C. to the death of Alexander the Great in 323 B.C. Topics covered range from the political and institutional structures of Greek

society, to literature, art, economics, society, warfare, geography and the environment  
 Discusses the problems of interpreting the various sources for the period  
 Guides the reader towards a broadly-based understanding of the history of the Classical Age

*Origen, progresos y estado actual de toda la literatura* Pearson  
 A Political, Social, and Cultural History is a comprehensive and balanced history, covering the political, military, social, cultural, and economic history of ancient Greece from the Bronze Age to the Hellenistic Era.
