Go ahead and secure a copy today!

Little Explorers Activity Book Courier Corporation

NOW IN PAPERBACK: On an island nation in the Indian Ocean, the explorers venture through a vast underwater world and take part in a friendly robotics competition. But the tides of good fortune change quickly. Suddenly, Team Cousteau jumps into action to rescue a faculty member from the brink of disaster. Meanwhile, the team follows Cruz's mother's clues to a magnificent tomb and center of spirituality precariously perched on the side of a cliff. There, Cruz is confronted by a familiar foe who's determined to stop him from completing his most important mission of all: retrieving the final pieces of his mother's cipher. In this life-and-death showdown, Cruz witnesses the ultimate sacrifice and uncovers a hidden message that makes him question his own mortality. The paperback edition includes the same great content and back matter as the original hardcover. And don't forget to check out the other books in the series: *Explorer Academy: The Nebula Secret* (1) *Explorer Academy: The Falcon's Feather* (2) *Explorer Academy: The Double Helix* (3) *Explorer Academy: The Star Dunes* (4) *Explorer Academy: The Dragon's Blood* (6) *Explorer Academy Future Tech Explorer Academy Field Journal Explorer Academy Ultimate Activity Challenge Explorer Academy Codebreaking Activity Adventure* Praise for the series: "This exciting, fast-paced, far-flung story is full of science facts and James Bond-like gadgets, accompanied by colored illustrations. The ending is guaranteed to keep readers eager for the next series installment." - Booklist "...a fully packed high-tech adventure that offers both cool, educational facts about the planet and a diverse cast of fun characters." -Kirkus Reviews "A fun, exciting, and action-packed ride that kids will love." -J.J. Abrams "I promise: Once you enter

Explorer Academy, you'll never want to leave." -Valerie Tripp

The LEGO BOOST Activity Book Scribble Books

The best-selling Backpack Explorer series has become a favorite of nature-curious kids and families. Now available in one value-packed bundle, the Backpack Explorer 5-Book Set with Nature Collection Box includes five books in the series: *On the Nature Trail*; *Bird Watch*; *Bug Hunt*; *Discovering Trees*; and *Rock Hunt*. Packed with prompts, activities, interactive field guides, and sensory scavenger hunts, each Backpack Explorer book gets kids outside and exploring the world around them. Colorful, lightweight, and durable, these books are designed to be popped in a backpack and taken along on nature walks--turning any outdoor adventure into an opportunity for nature science learning! In addition to the hands-on activities, each book includes a real magnifying glass for outdoor and on-the-page observing, three sheets of sticker patches for keeping track of nature finds, and a log for recording naturalist notes. The five books in the gift set are packaged in a keepsake nature collection box with sturdy dividers and label stickers for storing and identifying rocks, feathers, leaves, and other nature treasures that kids pick up along the trail. Bursting with hundreds of activities for screen-free fun and nature learning, this collection will make a special gift for junior naturalists ages 4-7.

Twelve-year-old Cruz Coronado leaves his home in Hawaii to study and travel with other young people invited to attend the elite Explorer Academy in Washington, D.C., but a family connection to the organization could jeopardize his future.

The African Explorers Activity Book OUP Oxford

A heart-pounding final showdown changes the life of Cruz Coronado forever in the seventh and final book in this thrilling fact-based fiction series. Amid assignments that take the Explorer Academy recruits from the iceberg-filled waters of Antarctica to the bone-dry deserts of Argentina, Cruz Coronado is scrambling to complete the last piece of the cipher. With Nebula agents and the elusive explorer spy still out there, his opportunity to recover his mother's world-changing formula is slipping away. But as Cruz has learned from his time aboard Orion, true explorers must never give up. Even after completing dozens of high-risk missions and traveling to all seven continents, Cruz could never prepare himself for one ultimate surprise.

Explorer Academy features: Gripping fact-based fiction plot that inspires curiosity with new technology and innovations; amazing inventions and gadgets; a cast of diverse, relatable characters; secret clues, codes, and ciphers to track down within the text; vibrant illustrations; elements of STEAM; National Geographic explorer profiles in the "Truth Behind" section. Complete your collection with: *The Nebula Secret* (1) *The Falcon's Feather* (2) *The Double Helix* (3) *The Star Dunes* (4) *The Tiger's Nest* (5) *The Dragon's Blood* (6) *Explorer Academy Codebreaking Activity Adventure Explorer Academy Ultimate Activity Challenge Explorer Academy Field Journal Explorer Academy Future Tech The Puzzle Activity Book* National Geographic Books

At last, fans of the LEGO BOOST robot building kit have the learning resource they've been missing! Enter *The LEGO BOOST Activity Book*: a full-color guide that will help readers learn how to build and code LEGO creations that move, explore their environment, grab and lift objects, and more. The LEGO BOOST kit lets younger builders create fun, multifunctional robots by combining bricks with code, but it doesn't come with a manual. With the help of this complete guide to the LEGO BOOST set, you'll be on your way to building and programming BOOST robots in no time. You'll begin your exploration by building a basic rover robot called MARIO to help you learn the fundamentals of the BOOST programming environment. Next, you'll add features to your rover to control its movement and make it repeat actions and react to colors and sounds. Once you've learned some programming basics, you'll learn how to program your robot to do things like follow lines on the ground, scan its environment to decide where to go, and even play darts. As final projects, you'll create two complete robots: BrickPecker to help you organize your bricks and CYBOT, a robot that talks, shoots objects, and executes voice commands. As you advance through the book, optional lessons aim to deepen your understanding of basic robotics concepts. Brain BOOSTer sections let you dig into the math and engineering behind your builds while a host of experiments seek to test your skills and encourage you to do more with your robots. With countless illustrations, extensive explanations, and a wealth of coding examples to guide you, *The LEGO BOOST Activity Book* is sure to take you from beginning builder to robotics whiz and give your robot-building brain that needed boost!

Young Explorers: Level 2: Class Book Mark Twain Media

Keep your little piggies busy for days with Peppa's Very Busy Activity Book starring Peppa Pig! Boys and girls ages 3 to 7 will love to join Peppa Pig, George, and all their friends in this full-color super activity book packed with spot the difference games, jigsaw sticker puzzles, maze games, and more than 50 stickers! Peppa Pig is a loveable little piggy who lives with her younger brother, George; Mummy Pig; and Daddy Pig. Peppa loves playing games, dressing up, visiting exciting places, and making new friends--but her absolute favorite thing is jumping up and down in muddy puddles! Peppa Pig airs daily on Nick Jr. and focuses on strong brand values that parents and kids identify with: family, friendship, trust, humor, and life experiences.

National Geographic Books

In recent decades, increased specialization has sharply separated music theory from historical musicology. Music Theory and the Exploration of the Past brings together a group of essays—written by theorists and musicologists—that seek to bridge this gap. This collection shows that music theory can join forces with historical musicology to produce a more humanistic form of musical scholarship. In nineteen essays dealing with musical theories from the twelfth to the twentieth century, two recurring themes emerge. One is the need to understand the historical circumstances of the writing and reception of theory, a humanistic approach that gives theory a place within social and intellectual history. The other is the advantages of applying contemporaneous theory to the music of a given period, thus linking theory to the history of musical styles and structures. The periods given principal attention in these essays are the Renaissance, the years around 1800, and the twentieth century. Abundantly illustrated with

musical examples, Music Theory and the Exploration of the Past offers models of new practical applications of theory to the analysis of music. At the same time, it raises the broader question of how historical knowledge can deepen the understanding of an art and of systematic writings about that art.

Learn English with Dora the Explorer: Level 2: Activity Book A Shari Reynolds An NCSS Notable Social Studies Trade Book for Young People Christopher Columbus is one of the most famous people in world history, yet few know the full story of the amazing, resourceful, and tragic Italian explorer. Christopher Columbus and the Age of Exploration for Kids portrays the "Admiral of the Ocean Seas" neither as hero nor heel but as a flawed and complex man whose significance is undeniably monumental. Kids will gain a fuller picture of the seafarer's life, his impact, and the dangers and thrills of exploration as they learn about all four of Columbus's voyages to the New World, not just his first, as well as the year that Columbus spent stranded on the island of Jamaica without hope of rescue. Students, parents, and teachers will appreciate the in-depth discussions of the indigenous peoples of the New World and of the consequences of Columbus's voyages—the exchange of diseases, ideas, crops, and populations between the New World and the Old. Fun hands-on activities illuminate both the nautical concepts introduced and the times in which Columbus lived. Kids can: Tie nautical knots Conduct a blanket (silent) trade Make a compass Simulate a hurricane Take nautical measurements And much more
