THIS IS AN NJR - NOT JACKET BLURB, DO NOT USE IT THIS RAW FORM -This new and original work is the only recent monographic treatment of the Zimbabwean novel and its political implications. An earlier one by Veit-Wild (1992) has not been updated, and other, such as that by Zhuwarara (2001), are not easily available outside Zimbabwe. The author resided in Zimbabwe for almost a decade and has visited the country regularly in the last five years. She has published extensively on Zimbabwean literature, and brings to her work a deep contextual richness as well as theoretical sophistication. Thoroughly up-to-date, the book examines all the published novels of the recently-deceased Yvonne Vera (d. April 2005) as well as major novels of five other internationally-acclaimed Zimbabwean writers, including Tsitsi Dangarembga and Chenjerai Hove. It does so against a political backdrop which goes right up to the March 2005 parliamentary elections. The

book provides a modern and original historical account of post-independence Zimbabwean writing and its relationship to history and politics. The critical investigation focuses on fictional representations of space-time □ which links the book the tragically topical Zimbabwean issue of land. Dr Primorac employs a form of literary and cultural theory reminiscent of Bakhtinian analysis, but drawn at length from East European theoretical sources. She investigates what the novels have to say about the Zimbabwean condition, and makes a sophisticated link between ideas about space-time and novelistic ideologies. More than that, drawing a parallel with the experience of Eastern Europe, she shows how the novel itself breaks out of the confines of the quasi-Marxist analysis which still holds sway in Zimbabwe. As such, the Zimbabwean novel is itself a source of hope in that troubled land. Ranka Primorac has degrees from the universities of Zagreb, Zimbabwe and Nottingham Trent. She has taught Africa-related courses at several institutions of higher learning in Britain, including the University of Cambridge and New York University in London. She is interested in non-western writing and cultures, theoretical approaches to the novel and the narrative production of space-time. Her co-edited volume, *Versions of Zimbabwe: New Approaches*

to Literature and Culture was published in 2005 by Weaver Press in Harare. *Catalogue of the Central Lending Department, Ratcliff Place. New Ed. 1906* IGI Global *White Captives* offers a new perspective of Indian-white coexistence on the American frontier through analysis of historical, anthropological, political, and literary materials. --> Namias shows that visual, literary, and historical accounts of the capture of Euro-Americans by Indians are commentaries on the uncertain boundaries of gender, race, and culture during the colonial Indian Wars, the American Revolution, and the Civil War. She compares the experiences and representations of male and female captives over time and on successive frontiers and examines the narratives of captives Jane McCrea, Mary Jemison, and Sarah Wakefield.

Shawn Kennedy, the mad genius behind *Funny Cryptograms* and *Scratch and Play Mystery Word Puzzles*, is back with his wildest book of puzzles yet: *Pun Amok*. Solvers get a small handful of punny clues, like “Mug shot” for ESPRESSO, and a bunch of letter tiles. When the tiles bearing the letters of each clue answer are eliminated, the remaining tiles can be arranged to answer a bonus

clue. These demented puzzles with test your brain and tickle your funny bone!

A DOCTOR IN the Dutch East Indies torn between his medical duty to help and his own mixed emotions; a middle-aged maidservant whose devotion to her master leads her to commit a terrible act; a hotel waiter whose love for an unapproachable aristocratic beauty culminates in an almost lyrical death and a prisoner-of-war longing to be home again in Russia. In these four stories, Stefan Zweig shows his gift for the acute analysis of emotional dilemmas. His four tragic and moving cameos of the human condition are played out against cosmopolitan and colonial backgrounds in the first half of the twentieth century.

David J. Tietge examines the place and influence of scientific discourse in the popular consciousness of contemporary American society, offering critical strategies for recognizing, decoding, and understanding scientific language as it is used by both scientific and a-scientific agents and agencies.

Source Book of Family Law, Being a New Zealand Edition of Webb and Bevan UNC Press Books Science fiction movie audiences may sometimes wonder how fictitious the science in a film really is. Yet for many--call them the "Jurassic Park generation"--film and popular media can present a seemingly plausible melding of science and fiction that forms a distorted understanding of scientific facts and concepts. Recognizing that film is both the dominant entertainment medium and an effective tool for teaching, this book--featuring articles originally published in the magazine Scary Monsters--separates biological reality from fantasy in dozens of science fiction films, including *The Island of Lost Souls* (1933), *The Incredible Shrinking Man* (1957), *War of the Worlds* (1953), *A Clockwork Orange* (1971), *Scanners* (1980), *The Serpent and the Rainbow* (1987) and *Outbreak* (1995).

Brian Lumley is an international horror phenomenon, with books published in thirteen countries, including China, the Czech Republic, Germany, Japan, Russia, and Spain. More than two million books have been sold in his Necroscope series alone, but that barely taps the potential of this wildly imaginative author. Lumley's horror often crosses the dividing lines between fantasy and horror or between science fiction and horror. The Psychomech trilogy, of which Psychamok is the conclusion, is a perfect blend of science fiction, adventure, and horror, combining in a fast-paced whirlwind of a story that leaves the reader doubting the evidence of his or her own senses. Richard Garrison was once a corporal in the British Military Police, until a terrorist's bomb destroyed his eyesight and his career. Repaying Garrison for saving his wife and child from the blast, millionaire industrialist Thomas Schroeder introduced him to the Psychomech, an amazing machine that could either gift its users with astonishing mental powers-or destroy them utterly. Having successfully harnessed the Psychomech, Garrison discovered the Psychosphere, a strange plane of existence where mental abilities were all. Thought became intent, word became deed, and Garrison became like unto a god. Two decades later, Garrison is utilizing his unique powers to explore the universe. On Earth, his son, Richard Stone, is happily in love, until his beloved falls victim to "The Gibbering," a plague of madness that destroys men and women by destroying their minds. There is no obvious cause. There is no cure. There are no survivors. When Richard Stone himself is infected by the Gibbering, the mental powers he inherited from his father enable him to defeat the madness, at least for a while. Then, to his horror, Stone discovers that the Psychomech has run amok and that the Gibbering is the result! Even though the insanity it creates batters his struggling mind, Stone realizes he is the only man with the knowledge and power capable of destroying the berserker mind-machine. The son of Garrison is at war with Psychomech. Who will survive the final battle, man or machine? Although a bustling city, Kuala Lumpur still contains pockets of old-world charm that have remained almost untouched since the city was first founded back in the nineteenth century. One of the best ways of exploring these different areas and really getting a flavour of their culture is on foot. This series of walking routes lets readers explore the city’s rich and multi-faceted architectural heritage—from stately colonial-era bungalows to modern skyscrapers, accompanied by charming architectural sketches. About the Authors Audrey Southgate and Gregory Byrne Bracken are brother and sister and come from County Kildare in Ireland. Gregory is author and illustrator of the six other titles in the Walking Tour series (Singapore, Bangkok, Hong Kong, Shanghai, London and Paris). This is Audrey’s first collaboration with her brother. Gregory is an architect and inveterate walker, both occupations he has pursued across the globe - from London, Paris and Berlin to Bangkok, Singapore and Hong Kong. He lectures in architecture at the Technical University of Delft in the Netherlands where he received his Ph.D. Audrey graduated with honours in Classics & English Literature from the National University of Ireland, Galway. She had previously worked in New York and now lives in Ireland

In the pantheon of air power spokesmen, Giulio Douhet holds center stage. His writings, more often cited than perhaps actually read, appear as excerpts and aphorisms in the writings of numerous other air power spokesmen, advocates-and critics. Though a highly controversial figure, the very controversy that surrounds him offers to us a testimonial of the value and depth of his work, and the need for airmen today to become familiar with his thought. The progressive development of air power to the point where, today, it is more correct to refer to aerospace power has not outdated the notions of Douhet in the slightest In fact, in many ways, the kinds of technological capabilities that we enjoy as a global air power provider attest to the breadth of his vision. Douhet, together with Hugh “Boom” Trenchard of Great Britain and William “Billy” Mitchell of the United States, is justly recognized as one of the three great spokesmen of the early air power era. This reprint is offered in the spirit of continuing the dialogue that Douhet himself so perceptively began with the first edition of this book, published in 1921. Readers may well find much that they disagree with in this book, but also much that is of enduring value. The vital necessity of Douhet’s central vision-that command of the air is all important in modern warfare-has been proven throughout the history of wars in this century, from the fighting over the Somme to the air war over Kuwait and Iraq.

**Command Of The Air** Thomas Nelson

This book is the first general social analysis that seriously considers the daily experience of information disruption and software failure within contemporary Western society. Through an investigation of informationalism, defined as a contemporary form of capitalism, it describes the social processes producing informational disorder. While most social theory sees disorder as secondary, pathological or uninteresting, this book takes disordering processes as central to social life. The book engages with theories of information society which privilege information order, offering a strong counterpoint centred on "disinformation." Disorder and the Disinformation Society offers a practical agenda, arguing that difficulties in producing software are both inherent to the process of developing software and in the social dynamics of informationalism. It outlines the dynamics of software failure as they impinge on of information workers and on daily life, explores why computerized finance has become inherently self-disruptive, asks how digital enclosure and intellectual property create conflicts over cultural creativity and disrupt informational accuracy and scholarship, and reveals how social media can extend, but also distort, the development of social movements.

Now expanded and updated, this authorized compendium to Kurt Vonnegut’s novels, stories, essays, and plays is the most comprehensive and definitive edition to date. Over the course of five decades, Kurt Vonnegut created a complex and interconnected web of characters, settings, and concepts. The Vonnegut Encyclopedia is an exhaustive guide to this beloved author’s world, organized in a handy A-to-Z format. The first edition of this book covered Vonnegut’s work through 1991. This new and updated edition encompasses his writing through his death in 2007. Marc Leeds, co-founder and founding president of the Kurt Vonnegut Society and a longtime personal friend of the author’s, has devoted more than twenty-five years of his life to cataloging the Vonnegut cosmos—from the birthplace of Kilgore Trout (Vonnegut’s sci-fi writing alter ego) to the municipal landmarks of Midland City (the midwestern metropolis that is the setting for Vonnegut’s 1973 masterpiece *Breakfast of Champions*). The Vonnegut Encyclopedia identifies every major and minor Vonnegut character from Celia Aamons to Zog, as well as recurring images and relevant themes from all of Vonnegut’s works, including lesser-known gems like his revisionist libretto for Stravinsky’s opera *L’Histoire du soldat* and his 1980 children’s book *Sun Moon Star*. Leeds provides expert notes explaining the significance of many items, but relies primarily on extended quotations from Vonnegut himself. A work of impressive scholarship in an eminently browsable package, this encyclopedia reveals countless connections readers may never have thought of on their own. A rarity among authors of serious fiction, Kurt Vonnegut has always inspired something like obsession in his most dedicated fans. The Vonnegut Encyclopedia is an invaluable resource for readers wishing to revisit his fictional universe—and those about to explore it for the first time. Praise for *The Vonnegut Encyclopedia* “An essential collection for fans of the singular satirist.”—San Francisco Chronicle “Indispensable.”—Publishers Weekly “If you’re somebody who has read one Kurt Vonnegut book then there’s a chance you’ve read them all. For the devout reader of Vonnegut there’s a voracious sense of completism. And, Marc Leeds and his new [The Vonnegut] Encyclopedia are here to guide you through it all. Just don’t blame him if you become unstuck in time while you’re reading.”—Inverse “Vonnegut enthusiasts will be delighted with Leeds’s exhaustive, almost obsessive, treatment of the characters, places, events, and tantalizingly mysterious references for which Vonnegut’s five-decade writing career is celebrated. . . . A wonderful and beautifully designed reference source.”—Booklist (starred review) “Leeds’s scholarship and genuine love for his subject matter render this encyclopedia a treasure trove for Vonnegut readers.”—The Nameless Zine

From the recent shootings at Virginia Tech University to the tragedies at Columbine and Oklahoma City, certain common traits can be traced through all of these events. In *Guys and Guns Amok*, media and cultural critic Douglas Kellner provides a fascinating diagnostic reading of these acts of domestic terrorism. Skillfully connecting each case with the current environment for male socialization and the search for identity in an American culture obsessed with guns and militarism, Kellner's work is a sobering reflection on these tragedies and the pervasive power of media and popular culture as well as a wake-up call for the future.

The New York Times bestselling author of *The Origins of Political Order* offers a provocative examination of modern identity politics: its origins, its effects, and what it means for domestic and international affairs of state In 2014, Francis Fukuyama wrote that American institutions were in decay, as the state was progressively captured by powerful interest groups. Two years later, his predictions were borne out by the rise to power of a series of political outsiders whose economic

nationalism and authoritarian tendencies threatened to destabilize the entire international order. These populist nationalists seek direct charismatic connection to "the people," who are usually defined in narrow identity terms that offer an irresistible call to an in-group and exclude large parts of the population as a whole. Demand for recognition of one's identity is a master concept that unifies much of what is going on in world politics today. The universal recognition on which liberal democracy is based has been increasingly challenged by narrower forms of recognition based on nation, religion, sect, race, ethnicity, or gender, which have resulted in anti-immigrant populism, the upsurge of politicized Islam, the fractious "identity liberalism" of college campuses, and the emergence of white nationalism. Populist nationalism, said to be rooted in economic motivation, actually springs from the demand for recognition and therefore cannot simply be satisfied by economic means. The demand for identity cannot be transcended; we must begin to shape identity in a way that supports rather than undermines democracy. Identity is an urgent and necessary book—a sharp warning that unless we forge a universal understanding of human dignity, we will

doom ourselves to continuing conflict.

Subtitled "A Compendium of Phycho-Physiological Investigation," what you get in the Amok Journal's SENSURROUND EDITION is a collection of reports, articles and general research on autoerotic fatalities, trepanation, Gualtiero Jacopetti, cargo cults, Neue Slowenische Kunst, self-mutilation and amputee fetishism, infrasound and a collection of true emergency room reports called "Psych-Out." All of the material presented here is true. Some of it seems unbelievable but all the reports here are covering behaviors that these people were engaging in willingly (even some of the fatal ones) for the purpose of having some sort of heightened sensory experience. Nearly all of this behavior does NOT involve drugs, focusing more on altered experience through altered body state. Not for the easily squeamish. Despite the extreme subject matter, this volume is highly intelligent and an amazing psychological peek into the fringes of human experiences.
