A fresh examination of teacher activism during the civil rights movement Southern Black educators were central contributors and activists in the civil rights movement. They contributed to the movement through their classrooms, schools, universities, and

communities. Drawing on oral history interviews and archival research, *Schooling the Movement* examines the pedagogical activism and vital contributions of Black teachers throughout the Black freedom struggle. By illuminating teachers' activism during the long civil rights movement, the editors and contributors connect the past with the present, contextualizing teachers' longstanding role as advocates for social justice. *Schooling the Movement* moves beyond the prevailing understanding that activism was defined solely by litigation and direct-action forms of protest. The contributors broaden our conceptions of what it

meant to actively take part in or contribute to the civil rights movement.

Christ's Subversive Body offers a fascinating exploration of six historical examples of politically or culturally subversive usages of the body of Christ. Shining a light on the enabling potential of religious rhetoric, Solovieva examines how in moments of crisis or transition throughout Western history the body of Christ has been deployed in a variety of discourses, including recent neo- and theoconservative movements in the United States.

Solovieva's survey includes the iconoclastic polemics of Epiphanius at the moment of struggles for supremacy between the Roman state and the Christian church, the mystical theologico-political alchemy of an anonymous treatise circulated at the Council of Constance, Lavater's counter-Enlightenment visions of the afterlife expressed through physiognomy, Dostoevsky's refashioning of ethical communities, Pier Paolo Pasolini's attempts to provoke the "scandal" of Jesus's mission once more in the modern world, and the elaboration of a political

theology subordinating democratic dissent to the higher unity of a corporately conceived "unitary executive" in early twenty-first-century America. Solovieva presents her findings not as an entry into theological or Christological debates but rather as a study in comparative discourse analysis. She demonstrates how these uses of Christ's body are triggered by moments of epistemological, political, and representational crisis in the history of Western civilization.
