The French Film Musical

Monthly Bulletin

ANDREWS CAROLYN

Bulletin Rowman & Littlefield Publishers

Like many national cinemas, the French cinema has a rich tradition of film musicals beginning with the advent of sound to the present. This is the first book to chart the development of the French film musical. The French film musical is remarkable for its breadth and variety since the 1930s; although it flirts with the Hollywood musical in the 1930s and again in the 1950s, it has very distinctive forms rooted in the traditions of French chanson. Defining it broadly as films attracting audiences principally because of musical performances, often by well-known singers, Phil Powrie and Marie Cadalanu show how the genre absorbs two very different traditions with the advent of sound: European operetta and French chanson inflected by American jazz (1930-1950). As the genre matures, operetta develops into big-budget spectaculars with popular tenors, and revue films also showcase major singers in this period (1940-1960). Both sub-genres collapse with the advent of rock n roll, leading to a period of experimentation during the New Wave (1960-1990). The contemporary period since 1995 renews the genre, returning nostalgically both to the genre's origins in the 1930s, and to the musicals of Jacques Demy, but also hybridising with other genres, such as the biopic and the documentary.

Si certains considèrent La petite reine comme "une entreprise forte et audacieuse", le narrateur y voit plutôt le film "le plus impersonnel de l'itinéraire". Il se contente donc d'admirer "une composition de haut vol", tout en regrettant que Carine Vanderlinde "ne lui parle jamais" dans cette histoire où une championne cycliste laisse libre cours à ses pulsions sadiques lors d'une randonnée dans les Pyrénées. Le malheureux Jacques Villeret aura en particulier quelques raisons de se plaindre des initiatives dont il est l'objet.

Ce matin-là, le nez de la Reine est d'une couleur anormale. Son dévoué valet de chambre est bien décidé à ce que sa souveraine ne souffre pas de cette différence. De jour en jour, toutes les solutions seront envisagées pour qu'elle ne se rende compte de rien. Mais il n'est pas si simple de cacher la vérité, surtout quand elle se trouve en plein milieu du visage ! Et si la solution se trouvait ailleurs que dans la cachotterie ?

Les Grands Mots de la Petite Reine La petite reineLa petite reine" Je suis sur le Tour de France, là ? Tout est immense. Anonyme. Qu'est-ce que je suis censée faire maintenant ? Où est-ce qu'il faut que je m'asseye ? C'est ici que l'essentiel de mon travail va se situer au cours des trois prochains jours. Comment je vais faire pour me concentrer ? " A 28 ans, Catriona, journaliste pour le Guardian, va enfin réaliser son rêve en suivant le plus grand événement sportif de l'année, le Tour de France. Une aventure excitante qui devrait lui permettre d'obtenir un nouveau job, et surtout d'oublier son ancien copain. Pourtant, au dernier moment, Cat est terrassée par le doute. Et s'il revenait pendant qu'elle est en France ? Mais une fois sur place, les événements dégénèrent. Entre Luca Jones, le jeune cycliste anglo-italien au charme ravageur, l'égoцентриque et insatiable dragueur français Fabien Ducasse, ou encore Ben le séduisant médecin, Cat a beaucoup de mal à se concentrer...France, Fin de Siècle

Le passage du Tour de France est toujours un moment magique. A l'étape d'Hazebrouck, en ce mois de juillet 1939, tout le monde attend Vietto ou Bartoli. Dans la foule joyeuse, Céline Baert rêve d'autres triomphes, tout à sa passion pour le théâtre. Louis Verley, lui, héritier d'une entreprise familiale, ne rêve que cyclisme et machines de plus en plus perfectionnées. Elle est fille d'ouvriers divorcés et communistes. Chez lui, on est très riche et très conservateur. Dès lors, comment s'y prendre pour se rencontrer, se reconnaître, s'aimer et vivre ce grand amour alors que la guerre menace et s'appête à envahir l'Europe?

French Prose in 2000 stems in some important measure from work presented in September 1998 at the International Colloquium on French and Francophone Literature in the 1990's held at Dalhousie University. A good number of papers given at that time, and since revisited in the light of exchanges, join here certain others specifically written for the purposes of this book. Together they constitute a wide-ranging and modally varied interrogation of the current state of French and francophone prose writing, its multifaceted manners, its richly divergent fascinations, its many

theoretical or philosophical groundings. The book thus ceaselessly moves its attention from fictional biography to the roman noir, from the writing of Glissant and Chamoiseau to that of the étonnants voyageurs, from the powerful discourse of women such as Chawaf or Condé, Ernaux or Germain, Sallenave or Kristeva, to that of writers as diverse in their modes as Le Clézio and Quignard, Duras and Renaud Camus. All chapters focus, however, in near-exclusive measure, on the prose production of the last ten or twelve years.

Managing Urban Logistics provides new insights based on the most recent research, theories, and developments in technological and ICT solutions, contemporary corporate trends, the re-evaluation of the role of authorities, and much more. The book shows how to manage these complex urban logistics issues using a long term, systemic perspective where urban freight distribution is an integral part of the entire urban mobility system. It examines the convergence points between mass and customized deliveries, thus modeling the decision processes, trade-offs and tolerances behind these processes to enable a more fluid sharing of urban space. Users will find an approach that tackles these issues from an empirical viewpoint that is based on analysis from a wide set of cases in urban environments around the world. A fresh and unique multidisciplinary approach that is based on solid theoretical background and a pragmatic management standpoint makes this book a must have for those involved in urban logistics. Blends theory with real-world cases to create viable solutions Uses an interdisciplinary approach to city logistics in a structured and organized way that is useful for all stakeholders Shows how to identify logistics profiles and build a logistical map of the city Examines the technological solutions that can be used to support different business models, adopting a rational, innovative, problem-solving approach to the movement of urban goods

Synthesis of Freight Research in Urban Transportation Planning BRILL

This book explores leisure-related voluntary associations in France during the nineteenth century as practical expressions of the Revolutionary concept of fraternité. Using a mass of unpublished sources in provincial and national archives, it analyses the history, geography and cultural significance of amateur musical societies and sports clubs in eleven départements of France between 1848 and 1914. It demonstrates that, although these voluntary associations drew upon and extended the traditional concept of cooperation and community, and the Revolutionary concept of fraternity, they also incorporated the fundamental characteristics of competition and conflict. Although intended to produce social harmony, in practice they reflected the ideological hostilities and cultural tensions that permeated French society in the nineteenth century.

"TRB's National Cooperative Freight Research Program (NCFRP) Report 23: Synthesis of Freight Research in Urban Transportation Planning explores policies and practices for managing freight activity in metropolitan areas. The primary focus of the report is on "last-mile/first-mile" strategies, but it also addresses strategies affecting environmental issues and trading hubs or nodes. The research used to develop the report looked beyond the United States--mostly, but not exclusively' in Europe and the European BESTUFS (Best Urban Freight Solutions) program--for potentially relevant policies and practices that could be used in the United States"

Cinema has been long associated with France, dating back to 1895, when Louis and Auguste Lumi_re screened their works, the first public viewing of films anywhere. Early silent pioneers Georges MZli_s, Alice Guy BlachZ and others followed in the footsteps of the Lumi_re brothers and the tradition of important filmmaking continued throughout the 20th century and beyond. In Encyclopedia of French Film Directors, Philippe Rège identifies every French director who has made at least one feature film since 1895. From undisputed masters to obscure one-timers, nearly 3,000 directors are cited here, including at least 200 filmmakers not mentioned in similar books published in France. Each director's entry contains a brief biographical summary, including dates and places of birth and death; information on the individual's education and professional training; and other pertinent details, such as real names (when the filmmaker uses a pseudonym). The entries also provide complete filmographies, including credits for feature films, shorts, documentaries, and television work. Some of the most important names in the history of film can be found in this encyclopedia, from masters of the Golden Age_Jean Renoir and RenZ Clair_to French New Wave artists such as Fran_ois Truffaut and Jean-Luc Godard.
