This splendid reference is the result of the author's ten years spent researching in archives, photographing artifacts, and conducting interviews with elders and artists, excerpts of which are interspersed throughout the information-packed text. Jewelry, beadwork, and ceremonial regalia are presented in 1,200-plus illustrations (about 820 in color), including three eight-page gatefolds; diagrams of jewelry techniques and regional maps are also included. Though it makes no claim to be comprehensive, the scope is expansive, extending from the Arctic Circle to northern Mexico and from the Atlantic to the Pacific, and including a full spectrum of ornamental artwork. The author's previous work *The History of Beads* is well regarded; and this authoritative and beautiful reference will no doubt stand equal to it. Beading doesn't get more elegant than this, with such gleaming gems as amethyst, quartz, and lapis lazuli. Valorie MacCarthy--whose work graces the pages of high fashion magazines around the world--has created a magnificent collection of sophisticated, unique jewelry. The 30 projects include bracelets, earrings, necklaces and rings, and they tend to the playful and colorful. In addition, an entire section is dedicated to the different stones and their properties, including their spiritual and healing aspects. But what will really entice intermediate jewelers, beaders, and other general crafters are the pieces themselves: a balloon ring, festooned with seed pearls; chandelier earrings with sparkling, dangling stones; and a fireworks necklace of citrine, peridot, and apatite. Introductory chapters present all the gems, tools, and techniques used in the pieces. A Selection of the Crafter's Choice Book Club.
