The purpose of this study is to identify the propositions of the principal Midrash-compilations of formative Judaism. Continuing with the theme of volume Seven, devoted to Sifra, Jacob Neusner proceeds to Sifré to Numbers and Sifré to Deuteronomy. It is, further, to place these propositions, where established, into a relationship with those that characterize the canon as a whole. This volume presents both what is in common to the animating theology of Rabbinic Judaism in all its documentary components and what is unique to Sifré to Numbers and Sifré to

Deuteronomy, respectively.

What is a homeland and when does it become a national territory? Why have so many people been willing to die for such places throughout the twentieth century? What is the essence of the Promised Land? Following the acclaimed and controversial *The Invention of the Jewish People*, Shlomo Sand examines the mysterious sacred land that has become the site of the longest-running national struggle of the twentieth and twenty-first centuries. *The Invention of the Land of Israel* deconstructs the age-old legends surrounding the Holy Land and the prejudices that continue to suffocate it. Sand's account dissects the concept of "historical right" and tracks the creation of the modern concept of the "Land of Israel" by nineteenth-century Evangelical

Protestants and Jewish Zionists. This invention, he argues, not only facilitated the colonization of the Middle East and the establishment of the State of Israel; it is also threatening the existence of the Jewish state today.

An Introduction to Judaism BRILL

www.TorahismBook.com - Are Christians required to keep the Law of Moses? How about the Ten Commandments? Was Jesus divine? Join R. L. Solberg in his new book, TORAHISM, where he confronts a modern heresy and dives into these and other critical questions related to the Jewish roots of the Christian faith. "It all began with a series of Facebook posts that an old friend posted just after Thanksgiving. He was aggressively taking Christians to task for celebrating the 'pagan' holiday of Christmas. This struck me as odd because I'd always known he and his wife to be strong Christians. And while I've debated with plenty of atheists over the alleged pagan roots of Christmas, I'd never heard this charge leveled by a fellow Christian. So I decided to chime in on his posts and soon discovered that I had stepped into a mystery of, well, biblical proportions..." ENDORSEMENTS: "Over a decade ago, I came to know Rob Solberg. He impressed me back then with his searching heart, scholarly mind, and passion for apologetics. He has now offered a masterful work, well researched and very well-argued. Were I still a seminary professor, I would require my students to write reviews on this volume." Dr. Stephen Drake, Former Professor of Ministry at Southern Baptist Theological Seminary "Impressively written and researched! Aberrant theologies have existed throughout time, requiring trusted biblical guides to bring much-needed reproof. Rob Solberg does this superbly in his book, Torahism. And, he accomplishes this

task with much 'gentleness and respect' (1 Peter 3:15). Even if you are not immediately confronted with this heresy, a careful reading of Rob's book will deepen your understanding of the gospel of Jesus Christ." Ed Smith, Ph.D., President, Williamson College "Engaging and well-developed content on a tough topic. Rob addresses lofty theological issues with incredible accessibility and application. He reminds us to not just stay in our heads and win arguments but to love people well as we fight for what is true." Derek Bareman, Lead Pastor, Church of the City Spring Hill "This is an excellent, balanced, scholarly refutation of the heretical teaching of Torahism. Solberg does so with a wide array of Scripture, great Christian writers across the centuries, and impeccable logic. Not only does it address and answer the challenge of this new heresy, it serves as an apologetic in the best tradition of Christian scholarship. Exceptional work. I have reviewed thousands of books in 30 years. This book deserves to be read!" Reverend David "Doc" Kirby (retired), Host of the On The Bookshelf podcast FROM THE FORWARD BY PAUL WILKINSON, Ph.D. - "The best conversations are those that happen spontaneously amongst sincere, passionate seekers wanting to learn, mature, and progress in their faith and life. R. L. Solberg has blessed us by inviting us into just such a conversation . . . This book is a read that flows because it originates in genuine conversations between friends and passionate believers. It is reminiscent of the ancient dialogues with questions, points, and counterpoints. But be sure to catch this truth: Solberg's work is not about how to do the least work for the most grace, nor is it about how to avoid obligations, duties, and work. No, much more than that, Solberg's question is

about how we who claim to be children of God best glorify, worship, and obey him . . . Solberg wants to know what it means to be "godly" and "righteous" in light of the crucifixion and resurrection of Jesus. I invite you into Rob and his friends' conversation. I was challenged, encouraged, and taught by the insights he brings to the fore. I pray that you heed his call to take seriously what it means for the Christian to live the godly life; to be like Jesus."

Jewish Theology for a Postmodern Age Routledge

Through a critical study of the writings of Rav Shagar and Tamar Ross, Miriam Feldmann Kaye asks how Jewish theology can survive the tide of postmodernism and its refutation of a single, objective, and ultimate truth, and suggests how aspects of postmodernism might be conceived of as a potential resource for rejuvenating religion.

A Theological Commentary to the Midrash Routledge

Nearly all religious traditions have reserved a special place for sacred music. Whether it is music accompanying a ritual or purely for devotional purposes, music composed for entire congregations or for the trained soloist, or music set to holy words or purely instrumental, in some form or another, music is present. In fact, in some traditions the relation between the music and the ritual is so intimate that to distinguish between them would be inaccurate. The A to Z of Sacred Music covers the most important aspects of the sacred music of Buddhism, Christianity, Confucianism, Hinduism, Islam, Judaism, and other smaller religious groups. It provides useful information on all the significant traditions of this music through the use of a chronology, an introductory essay, a bibliography, appendixes,

and hundreds of cross-referenced dictionary entries on major types of music, composers, key religious figures, specialized positions, genres of composition, technical terms, instruments, fundamental documents and sources, significant places, and important musical compositions.

Many people focus on the similarities between Judaism and Christianity, but the religions are quite different and its not just because one accepts Jesus as the messiah and the other does not. The rise of Christians calling themselves messianic Jews, the successes of Christian missionaries, Jews ingratiating themselves to Evangelical Christians because of their support for the State of Israel, the overuse of the term Judeo-Christian, and the increasing use of Jewish rituals in Christian churches, blur the lines between Judaism and Christianity. Develop a better understanding of the irreconcilable differences between Judaism and Christianity, and where the two faiths hold mutually exclusive beliefs. You'll learn how Their views differ regarding God, humanity, the devil, faith versus the law, the Messiah, and more; Both faiths read the same Biblical verses but understand them so differently; and Missionary Christians use this blurring of the lines between the two faiths, and other techniques, to convert Jews to Christianity. Real interfaith dialogue begins when those engaging in it not only speak of how they are similar, but also where they differ. Real understanding begins when the topics discussed are in areas of disagreement. Judaism and Christianity: A Contrast will help you understand the Jewish view of these disagreements.

Paul the Jewish Theologian reveals Saul of Tarsus as a man who, though rejected in the synagogue, never truly left Judaism.

Author Young disagrees with long held notions that Hellenism was the context which most influenced Paul's communication of

the Gospel. This skewed notion has led to widely divergent interpretations of Paul's writings. Only in rightly aligning Paul as rooted in his Jewishness and training as a Pharisee can he be correctly interpreted. Young asserts that Paul's view of the Torah was always positive, and he separates Jesus' mission among the Jews from Paul's call to the Gentiles.

Experiences of hearing the voice of God (or angels, demons, or other spiritual beings) have generally been understood either as religious experiences or else as a feature of mental illness. Some critics of traditional religious faith have dismissed the visions and voices attributed to biblical characters and saints as evidence of mental disorder. However, it is now known that many ordinary people, with no other evidence of mental disorder, also hear voices and that these voices not infrequently include spiritual or religious content. Psychological and interdisciplinary research has shed a revealing light on these experiences in recent years, so that we now know much more about the phenomenon of "hearing voices" than ever before. The present work considers biblical, historical, and scientific accounts of spiritual and mystical experiences of voice hearing in the Christian tradition in order to explore how some voices may be understood theologically as revelatory. It is proposed that in the incarnation, Christian faith finds both an understanding of what it is to be fully human (a theological anthropology), and God's perfect self-disclosure (revelation). Within such an understanding,

revelatory voices represent a key point of interpersonal encounter between human beings and God.

Distinguished historian of Judaism Jacob Neusner here ventures for the first time into constructive theology. Taking the everyday life of contemporary Judaism as his beginning, Neusner asks when in the life of the living faith of the Torah does Israel, the holy community, meet God? Where does the meeting take place? What is the medium of the encounter? In his attempt to answer these questions, Neusner sets forth the character and the form of the Torah as sung theology. Israel, the holy community, meets God in the synagogue, while at prayer, and in the yeshiva, when studying the Torah—at the moment in each setting when the Torah is received. In both circumstances people do not read but sing out its words. With the written part of the Torah sung in the synagogue, and the oral part declaimed in centers of sacred learning, music provides the medium for Judaism's theological voice. Neusner identifies a reciprocal exchange between the holy community Israel and God: Israel sings to God when the Torah is studied, and God sings to Israel when the Torah is declaimed. Through the metaphor of music, Neusner offers an account of how he believes those faithful to the Torah meet God in the Torah, and how they should listen to the melody of God's self-revelation. The result is an original theological reflection that will interest all students of Judaism.

This theological commentary to the Rabbinic Midrash explores a simple proposition, in three parts: I. The reading of Scripture by principal parts of the Rabbinic Midrash is formed by compositions and composites that are animated by a cogent theological system. II. These primary components of the Midrash-compilations, further, are in part aimed at systematic demonstrations of theorems of a theological character. III. While forming a principal part of a large theological structure and system, each document is unique.

"An introductory textbook that examines how Jews are a culture, ethnicity, nation, nationality, race, and religion. With each

chapter revolving around a single theme--Narratives, Sinais, Zions, Messiahs, Laws, Mysticisms, Cultures, Movements, Genocides, Powers, Borders, and Futures--this introductory textbook interrogates readers' understanding of the Jewish community. Written for a new mode of teaching--one that recognizes the core role that identity formation plays in our lives--this book weaves together alternative, marginalized voices to illustrate how Jews have always been in the process of reshaping their customs, practices, and beliefs. *Judaisms* is the first book to assess and summarize Jewish history from the time of the Hebrew Bible through today using multiple perspectives"--Provided by publisher.

Alongside the formal development of Judaism from the eleventh through the sixteenth centuries, a robust Jewish folk religion flourished—ideas and practices that never met with wholehearted approval by religious leaders yet enjoyed such wide popularity that they could not be altogether excluded from the religion. According to Joshua Trachtenberg, it is not possible truly to understand the experience and history of the Jewish people without attempting to recover their folklife and beliefs from centuries past. *Jewish Magic and Superstition* is a masterful and utterly fascinating exploration of religious forms that have all but disappeared yet persist in the imagination. The volume begins with legends of Jewish sorcery and proceeds to discuss beliefs about the evil eye, spirits of the dead, powers of good, the famous legend of the golem, procedures for casting spells, the use of gems and amulets, how to battle spirits, the ritual of

circumcision, herbal folk remedies, fortune telling, astrology, and the interpretation of dreams. First published more than sixty years ago, Trachtenberg's study remains the foundational scholarship on magical practices in the Jewish world and offers an understanding of folk beliefs that expressed most eloquently the everyday religion of the Jewish people.

Do people with mental retardation have a special prophetic role? In the field of developmental disabilities, Wolf Wolfensberger is famous for his seminal book *Normalization*. But Wolfensberger is also a theologian, and the two strands of his thought are inextricable. *The Theological Voice of Wolf Wolfensberger* showcases his theories on the spiritual meaning of mental retardation and other disabilities. Up until now, Wolfensberger's work has been available only in small, hard-to-find publications, mostly in the field of human services. Thus his theological perspectives have not yet been heard in many religious circles. *The Theological Voice of Wolf Wolfensberger* brings together his essays and presentations from the past thirty years, giving the reader a unique pathway into his pioneering ideas on the spiritual implications of developmental disabilities. In addition, the volume includes critiques of his thought by several noted scholars and practitioners, along with Wolfensberger's response to those critiques. *The Theological Voice of Wolf Wolfensberger* expresses

powerful opinions, some outrageous, all courageous. You will find yourself intently engaged with his provocative theories, including: why installing wheelchair access ramps may actually block full participation of the handicapped in the life of the church how the “deathmaking” culture of the modern world prevents Christians from understanding the meaning of suffering why people with mental retardation are the prophets of our times why most Christians ignore the powerful Biblical call to communality which special gifts of grace people with mental retardation may possess how handicapped and societally devalued patients can be protected from the neglect (or worse) of hospital staff The Theological Voice of Wolf Wolfensberger is challenging, inspiring, and sometimes infuriating. It is bound to stir up controversy among health care professionals, disability advocates, and anyone concerned with spiritual matters. You may not agree with Wolfensberger, as some of the contributors to this volume do not, but he will make you think . . . hard.

Because My Soul Longs for You State University of New York Press

This collection constitutes the first extended discussion of the relationship between Judaism and process thought. In the last half century the philosophies of Alfred North Whitehead and Charles Hartshorne have become important sources for contemporary theological reflection. Recently, a number of Jewish thinkers have examined process thought as a potentially valuable resource for postmodern Jewish theology. This book brings together many Jewish thinkers who have pioneered this discussion. Jewish thinkers who have found process thought to be a useful framework for contemporary Jewish thought discuss

issues that are primarily theological, such as God's transcendence and immanence, the problem of evil, the idea of revelation. Also included is a dialogue between Jewish and Christian thinkers on the appropriateness of process thought for their religious traditions. Critical reflection on the continuities and discontinuities between Judaism and the process model is also covered.

A renowned political speechwriter rediscovers Judaism, finding timeless wisdom and spiritual connection in its age-old practices and traditions. “Sarah Hurwitz was Michelle Obama’s head speechwriter, and with this book she becomes Judaism’s speechwriter.”—Adam Grant, New York Times bestselling author of Give and Take, Originals, and co-author of Option B After a decade as a political speechwriter—serving as head speechwriter for First Lady Michelle Obama, a senior speechwriter for President Barack Obama, and chief speechwriter for Hillary Clinton on her 2008 presidential campaign—Sarah Hurwitz decided to apply her skills as a communicator to writing a book . . . about Judaism. And no one is more surprised than she is. Hurwitz was the quintessential lapsed Jew—until, at age thirty-six, after a tough breakup, she happened upon an advertisement for an introductory class on Judaism. She attended on a whim, but was blown away by what she found: beautiful rituals, helpful guidance on living an ethical life, conceptions of God beyond the judgy bearded man in the sky—none of which she had learned in Hebrew school or during the two synagogue services she grudgingly attended each year. That class led to a years-long

journey during which Hurwitz visited the offices of rabbis, attended Jewish meditation retreats, sat at the Shabbat tables of Orthodox families, and read hundreds of books about Judaism—all in dogged pursuit of answers to her biggest questions. What she found transformed her life, and she wondered: How could there be such a gap between the richness of what Judaism offers and the way so many Jews like her understand and experience it? Sarah Hurwitz is on a mission to close this gap by sharing the profound insights she discovered on everything from Jewish holidays, ethics, and prayer to Jewish conceptions of God, death, and social justice. In this entertaining

and accessible book, she shows us why Judaism matters and how its message is more relevant than ever, and she inspires Jews to do the learning, questioning, and debating required to make this religion their own. “Searching for meaning in the ancient scripture and traditions of Judaism, Sarah Hurwitz takes us along on an enriching journey of discovery. In *Here All Along*, she explores her birthright as a Jew and finds timeless and valuable life lessons.”—David Axelrod, director of the University of Chicago Institute of Politics and former senior advisor to President Barack Obama
