Dream Jobs in Coaching Wheatmark, Inc.

Kentucky's charismatic coach shares the secrets of creating one of the premiere programs in college basketball, revealing how he transforms a group of former high school superstars into selfless, cohesive teams—including a remarkable squad last year that fell just one game short of a perfect season. Kentucky basketball coach John Calipari is known for his unparalleled ability to recruit the nation's best young players, some of whom will spend just one year with him before going to the NBA, and convincing them to commit to the team without sacrificing their personal goals. It is a promise he makes to them: "Fully invest in the present—and each other—and I guarantee it will serve your future." Here, for the first time, he distills his team-building methods in ways that apply to CEOs, business owners, coaches, teachers and leaders of all kinds—lessons for anyone seeking to inspire talented individuals to reach for their best selves and contribute to a greater good. A basketball team is an intimate workplace, in which blend is everything and character matters. As such, it is a window into the nature of successful leadership. Calipari views each new team like a startup business—one composed of new players, new relationships, and new challenges. Each season is a series of discoveries as he learns how to unleash the extreme talent in each of his players and mold them into championship material as college basketball comes to a crescendo every spring. While

he can't control everything, he is responsible for everything—just like a CEO. An enlightening look at leadership, management, and team building, *Success Is the Only Option* offers the keys to winning, on and off the court.

Basketball was originally designed to be a team game, but today's players are growing up in a culture that focuses on the individual. In *Teamwork*, Mike Huff calls coaches and athletes to return to basketball's essence, by focusing on *The 7 Essentials of Teamwork*: communication, leadership, humility, roles, team spirit, a winning attitude, and collective responsibility. The lessons in this book will enable coaches to teach life lessons that help players become winners on and off the court.

Bill Ciancio details many of his mountain top experiences during his five decades coaching. He hopes that the details of these experiences help motivate the reader to unlock the fantastic coach hiding inside you. Bill could have titled this book becoming your own coach, or developing your own coaching philosophy. But he felt the choice of Coaching Basketball: Unboxed Wisdom covered and goes beyond what both titles indicate. Wisdom denotes in-depth experiences over time. But his experiences are too numerous to capture in one book. And knowing that coaches like reading things

as much as they like driving to the dentist on a crowded, backed-up freeway, he relates only the essentials of coaching. His intentions are to give the reader a few mountain top experiences churned with years of reflection and evaluation. Therefore, the word wisdom is part of the title.

A Coaching Journey - 'it's in the File Cabinet Atlantic Books

I started coaching in the 1960's that is a long time ago. I have lived in a lot of places, 17 to be exact. I have done a lot of things and seen a lot of things in the basketball and sports world. I have loved every stop along the journey. I have had coaching and experiences at many levels: high school, junior college, NCAA Division 1 and 2 and internationally as a head club coach and National Team head coach. During a coaching career of nearly six decades, self-learning has always been JOB ONE. A "Spin-off" from the goal of developing players and winning games; I collected a large "File Cabinet" jammed with all things coaching. The collection includes information from every conceivable source: clinic notes, magazines, newspapers, scrapes of paper, billboards, marketing slogans, podcasts, video, speeches, collaborating with fellow coaches throughout the decades. The more I dug into this collection of information. It became apparent there were lots of great things in this over-stuffed "Cabinet" that would help coaches in all sports with their teams, their players and help win more games. As a result this coaching book, chronicles information from many coaches and levels of play to help coaches, coach better. This book addresses: 1. Pre and post games speeches. 2. Coaches banquet "Ice breakers." 3. Coaching stories to inspire players and coaches. 4. "Winning and Losing" in coaches own words. 5. Getting to "YES" in the recruiting game. 6. The learning techniques and strategies of successful coaches. 7. Team and player motivation ideas. 8. Statistical tools that separate facts from perception. 9. The World needs more "Grinders." 10. And much more...
