Utopia is a work of fiction and socio-political satire by Thomas More published in 1516 in Latin. The book is a frame narrative primarily depicting a fictional island society and its religious, social and political customs. Many aspects of More's description of Utopia are reminiscent of life in monasteries.

In *31 Days*, acclaimed historian Barry Werth takes readers inside the White House during the tumultuous days of August 1974, following Richard Nixon's resignation and the swearing-in of America's "accidental president," Gerald Ford. The Watergate scandal had torn the country apart. In a dramatic, day-by-day account of the new administration's inner workings, Werth shows how Ford, caught between political expedience, the country's demands for justice, and his own moral compass, struggled valiantly to restore the nation's tarnished faith in its leadership. With deft and refreshing

analysis Werth illuminates how this unprecedented political upheaval produced new fissures and battle lines, as well as new opportunities for political advancement for ambitious young men such as Donald Rumsfeld, who had been Nixon's ambassador to NATO, and Dick Cheney, already coolly efficient as Rumsfeld's former deputy. A superbly crafted presidential history with all of the twists and turns of a thriller, *31 Days* sheds new light on the key players and political dilemmas that reverberate in today's headlines.

"Sexy and tender, *Wound Tight* had me smiling and squirming. Watching these two men open up and fight for their love is a must for any romance fan." - USA Today bestselling author Megan Erickson When CEO Renner Bastion walks into a room, everyone keeps their distance. Well, almost everyone. The exception is a sarcastic, tattooed, Boston-bred security guard whose presence has kept Renner in New Jersey longer than intended. As if the unwanted attraction isn't unsettling enough, Renner finds out his protector isn't as unavailable as he thought. Milo Bautista just came out to his wealthy, ultra-confident boss—a man he secretly respects and admires—in more ways than he'll admit. Worldly, experienced Renner would never look in his direction, let alone share some of that confidence he wears like a cloak, so Milo has set his sights on someone else to be his first. That is until Renner offers him private lessons in seduction. Now distance is the last thing either of them wants... Each book in the Made in Jersey series is

This book marks twenty years since the publication of Professor Ronald Hutton's *The Triumph of the Moon*, a major contribution to the historical study of Wicca. Building on and celebrating Hutton's pioneering work, the chapters in this volume explore a range of modern magical, occult, and Pagan groups active in Western nations. Each contributor is a specialist in the study of modern Paganism and occultism, although differ in their embrace of historical, anthropological, and psychological perspectives. Chapters examine not only the history of Wicca, the largest and best-known form of modern Paganism, but also modern Pagan environmentalist and anti-nuclear activism, the Pagan interpretation of fairy folklore, and the contemporary 'Traditional Witchcraft' phenomenon.

Dark, moving and original, a story of family, survival, and getting on with life... Flynn Sinclair understands pack loyalty – for years as his Alpha father's enforcer, he has done things in the name of duty that he can't ever forget. But the vast expanse of Alaska offers him a peace he's never known.

Alone, removed from pack life, he can focus on his research and try to forget his life before. But duty has a way of inviting itself in, and Flynn finds himself doing two reckless things in one week: leaving the safety of Alaska to save his brother Connor's life, and unwittingly falling in love with Evie Thompson, a woman who doesn't deserve to be drawn into his terrifying world. Connor carries news of their father's descent into madness, and it looks like neither geography nor Flynn's attempts at disengagement will put off a confrontation. Flynn had finally begun to believe that he might deserve something good in his life – something like Evie – but to move forward in the light, he must first reconcile with the dark.

Penelope Shuttle's latest collection, "*Redgrove's Wife*", is a book of lament and celebration. Its focus is the life and death of her husband, the poet Peter Redgrove, coupled with the loss of her father. Here, grief, depression and ageing are confronted with painful directness, but transformed into life-affirming and redemptive poetry. Other poems written over the same five-year period are inspired by a wide variety of subjects, from Cornish history and landscape to time, weather, spiders and postal regulations. Some draw on myth and dream to reinvent reality, while others take surprising liberties with language itself. *Redgrove's Wife* offers an extraordinary range of different kinds of poetry: both sensuous and ceremonial, elegiac and erotic, visionary and playful. Penelope Shuttle writes: 'Despite Peter's worsening health, many of the poems take as their task the search for a renewal of life during difficult circumstances. How to go on loving the world, which is what a poet is for, when it deals you severe blows, forcing you to give up much of what gives life its energy and delight. My years as a carer for Peter and the sadness of witnessing his decline into frailty due to a combination of Parkinson's, arthritis and diabetes, were a time when I fought off depression and anger, not always successfully, but turned to poetry as channel for and transformer of such emotions. After Peter died, it was poetry that provided me with "the proper consolations of human loneliness".'

In early modern English medicine, the balance of fluids in the body was seen as key to health. Menstruation was widely believed to regulate blood levels in the body and so was extensively discussed in medical texts. Sara Read examines all forms of literature, from plays and poems, to life-writing,

and compares these texts with the medical theories.

A surgeon must bring a dead family back to life in this fabulist debut novel set in rural India, called "otherworldly" and "a haunting contemplation of life, death, the liminal space in between, and the dogged search for resurrection" (Kirkus Reviews, starred). Fleeing scandal in the city, a surgeon accepts a job at a village clinic. He buys antibiotics out of pocket, squashes roaches, and chafes at the interventions of the corrupt officer who oversees his work. But his outlook on life changes one night when a teacher, his pregnant wife, and their young son appear. Killed in a violent robbery, they tell the surgeon that they have been offered a second chance at living if the surgeon can mend their wounds before sunrise. So begins a night of quiet work, "as if the crickets had been bribed," during which the surgeon realizes his future is tied more closely to that of the dead family than he could have imagined. By dawn, he and his assistant have gained knowledge no mortal should have. In this inventive novel charged with philosophical gravity and sly humor, Vikram Paralkar takes on the practice of medicine in a time when the right to health care is frequently challenged. Engaging earthly injustice and imaginaries of the afterlife, he asks how we might navigate corrupt institutions to find a moral center. Encompassing social criticism and magically unreal drama, *Night Theater* is a first novel as satisfying for its existential inquiry as for its enthralling story of a skeptical physician who arrives at a greater understanding of life's miracles.

We all know the basics of punctuation. Or do we? A look at most neighborhood signage tells a different story. Through sloppy usage and low standards on the internet, in email, and now text messages, we have made proper punctuation an endangered species. In *Eats, Shoots & Leaves*, former editor Lynne Truss dares to say, in her delightfully urbane, witty, and very English way, that it is time to look at our commas and semicolons and see them as the wonderful and necessary things they are. This is a book for people who love punctuation and get upset when it is mishandled. From the invention of the question mark in the time of Charlemagne to George Orwell shunning the semicolon, this lively history makes a powerful case for the preservation of a system of printing conventions that is much too subtle to be mucked about with.

The new edition of a prize-winning memoir-in-poems, a meditation on life as a queer Indigenous man—available for the first time in the United States “i am one of those hopeless romantics who wants every blowjob to be transformative.” Billy-Ray Belcourt’s debut poetry collection, *This Wound Is a World*, is “a prayer against breaking,” writes trans Anishinaabe and Métis poet Gwen Benaway. “By way of an expansive poetic grace, Belcourt merges a soft beauty with the hardness of colonization to shape a love song that dances Indigenous bodies back into being. This book is what we’ve been waiting for.” Part manifesto, part memoir, *This Wound Is a World* is an invitation to “cut a hole in the sky / to world inside.” Belcourt issues a call to turn to love and sex to understand how Indigenous peoples shoulder their sadness and pain without giving up on the future. His poems upset genre and play with form, scavenging for a decolonial kind of heaven where “everyone is at least a little gay.” Presented here with several additional

poems, this prize-winning collection pursues fresh directions for queer and decolonial theory as it opens uncharted paths for Indigenous poetry in North America. It is theory that sings, poetry that marshals experience in the service of a larger critique of the coloniality of the present and the tyranny of sexual and racial norms.

Boulley's debut novel, *Firekeeper's Daughter*, is a groundbreaking YA thriller about a Native teen who must root out the corruption in her community, perfect for readers of Angie Thomas and Tommy Orange. Eighteen-year-old Daunis Fontaine has never quite fit in, both in her hometown and on the nearby Ojibwe reservation. She dreams of a fresh start at college, but when family tragedy strikes, Daunis puts her future on hold to look after her fragile mother. The only bright spot is meeting Jamie, the charming new recruit on her brother Levi's hockey team. Yet even as Daunis falls for Jamie, she senses the dashing hockey star is hiding something. Everything comes to light when Daunis witnesses a shocking murder, thrusting her into an FBI investigation of a lethal new drug. Reluctantly, Daunis agrees to go undercover, drawing on her knowledge of chemistry and Ojibwe traditional medicine to track down the source. But the search for truth is more complicated than Daunis imagined, exposing secrets and old scars. At the same time, she grows concerned with an investigation that seems more focused on punishing the offenders than protecting the victims. Now, as the deceptions—and deaths—keep growing, Daunis must learn what it means to be a strong Anishinaabe kwe (Ojibwe woman) and how far she'll go for her community, even if it tears apart the only world she's ever known.
