"The Covid-19 pandemic disrupted the education of an estimated 90 percent of the world's school-aged children. [This report] is based on over 470 interviews with students, parents, and teachers in 60 countries between April 2020 and April 2021. It documents how Covid-related school closures did not affect all children equally, as governments failed to provide all children with the opportunity, tools, or access needed to keep learning during the pandemic. Students from groups already facing discrimination and exclusion from education even before the pandemic were disproportionately adversely affected. Governments' long-term failures to remedy discrimination and inequalities in their education systems, and often to ensure basic government services, such as affordable, reliable electricity in homes, or facilitate affordable internet access, meant schools entered the pandemic ill-prepared to deliver remote education to all students equally. Children from low-income families were more likely to be excluded from online learning because they did not have reliable electricity or sufficient access to the internet or devices. Historically under-resourced schools particularly struggled to reach their students."--Page 4 of cover.

Ek Kitab Ek Kahani - Apki Choti Ladki Macmillan + ORM

Hard-headed evidence on why the returns from investing in girls are so high that no nation or family can afford not to educate their girls. Gene Sperling, author of the seminal 2004 report published by the Council on Foreign Relations, and Rebecca Winthrop, director of the Center for Universal Education, have written this definitive book on the importance of girls' education. As Malala Yousafzai expresses in her foreword, the idea that any child could be denied an education due to poverty, custom, the law, or terrorist threats is just wrong and unimaginable. More than 1,000 studies have provided evidence that high-quality girls' education around the world leads to wide-ranging returns: Better outcomes in economic areas of growth and incomes Reduced rates of infant and maternal mortality Reduced rates of child marriage Reduced rates of the incidence of HIV/AIDS and malaria Increased agricultural productivity Increased resilience to natural disasters Women's empowerment What Works in Girls' Education is a compelling work for both concerned global citizens, and any academic, expert, nongovernmental organization (NGO) staff member, policymaker, or journalist seeking to dive into the evidence and policies on girls' education.

Jo B. Paoletti's journey through the history of children's clothing began when she posed the question, "When did we start dressing girls in pink and boys in blue?" To uncover the answer, she looks at advertising, catalogs, dolls, baby books, mommy blogs and discussion forums, and other popular media to examine the surprising shifts in attitudes toward color as a mark of gender in American children's clothing. She chronicles the decline of the white dress for both boys and girls, the introduction of rompers in the early 20th century, the gendering of pink and blue, the resurgence of unisex fashions, and the origins of today's highly gender-specific baby and toddler clothing.

"The 2012 report recognized that expanding women's agency - their ability to make decisions and take advantage of opportunities is key to improving their lives as well as the world. This report represents a major advance in global knowledge on this critical front. The vast data and thousands of surveys distilled in this report cast important light on the nature of constraints women and girls continue to face globally. This report identifies promising opportunities and entry points for lasting transformation, such as interventions that reach across sectors and include life-skills training, sexual and reproductive health education, conditional cash transfers, and mentoring. It finds that addressing what the World Health Organization has identified as

an epidemic of violence against women means sharply scaling up engagement with men and boys. The report also underlines the vital role information and communication technologies can play in amplifying women's voices, expanding their economic and learning opportunities, and broadening their views and aspirations. The World Bank Group's twin goals of ending extreme poverty and boosting shared prosperity demand no less than the full and equal participation of women and men, girls and boys, around the world." -- Publisher's description.

A NEW YORK TIMES NOTABLE BOOK OF THE YEAR When Peggy Orenstein's now-classic examination of young girls and self-esteem was first published, it set off a groundswell that continues to this day. Inspired by an American Association of University Women survey that showed a steep decline in confidence as girls reach adolescence, Orenstein set out to explore the obstacles girls face--in school, in the home, and in our culture. For this intimate, girls' eye view of the world, Orenstein spent months observing and interviewing eighth-graders from two ethnically disparate communities, seeking to discover what was causing girls to fall into traditional patterns of self-censorship and self-doubt. By taking us into the lives of real young women who are struggling with eating disorders, sexual harassment, and declining academic achievement, Orenstein brings the disturbing statistics to life with the skill and flair of an experienced journalist. Uncovering the adolescent roots of issues that remain important to American women throughout their lives, this groundbreaking book challenges us to change the way we raise and educate girls.

The nationwide lockdown in 2020 to curb the spread of Covid-19 left millions of migrant labourers without jobs, food and shelter. Desperate and helpless, most took to the road, embarking on the long, often fatal, journey home. Ritesh, Ashish, Ram Babu, Sonu, Krishna, Sandeep and Mukesh--migrants from Bihar--undertook a similar journey on their bicycles that lasted for seven days and seven nights. Their harrowing trip from Ghaziabad, Uttar Pradesh, to their hometown of Saharsa as they braved police lathis and insults, and battled hunger, exhaustion and fear, was documented by National Award-winning filmmaker Vinod Kapri. 1232 km is a story of the extraordinary courage of seven men in the face of tremendous odds.

In these delightfully candid musings about his life and his cinema, RGV reveals the man behind pioneering Telugu and Hindi films such as Shiva, Rangeela, Satya, Sarkar, Bhoot and Company. Discussing a wide range of subjects, from the influences and circumstances that drew him to films to his cinematic techniques, his successful and unsuccessful films, his Bollywood idols, his relations with the media and the controversies dogging him, Guns & Thighs is as much about RGV's life and philosophy of life as about his films and the Indian film world. Characteristically, he pulls no punches, whether he's talking about movies, women or the media. Even when it comes to his own films, he embraces his failures as much his successes and dissects them with rare honesty and humility. Refreshingly contrarian and politically incorrect, this book discloses a perspective as colourful and larger than life as Indian films. It is not for RGV fans alone but for all those passionate about cinema and the people associated with it.
