Founders of the phenomenally successful publishing company Lonely Planet, Tony and Maureen Wheeler have produced travel guides to just about every country across the globe. Lonely Planet Publications was born in 1973 when the Wheelers self-published a quirky travel guide, *Across Asia on the Cheap*. This was quickly followed by what soon became the backpackers' bible, *South-East Asia on a Shoestring*. Going boldly where no other travel publisher had ventured, their budget-conscious travellers guide provided knowledge long before the advent of mass tourism. *Once While Travelling: The Lonely Planet Story* is a unique mix of autobiography, corporate history and travel book. It traces Tony and Maureen Wheeler's personal story as well as the often bumpy evolution of their business into the world's largest independent travel publishing company. Above all, their memoir reveals the spirit of adventure that has made them, according to the *New York Daily News*, 'the specialists in guiding weird folks to weird places.'

A central theme running through the Bible, Exodus tells of the mass movement of people, including the Israelites' escape from slavery, the wanderings of Moses and his followers and the Ten Commandments given to Moses on Mount Sinai. The text is introduced by author David Grossman.

A Practical Treatise on Gas-light Lonely Planet

An in-depth and highly visual chronology charting the rise of one of the most formidable artists of all time - David Bowie - from his birth in London in 1947 to the height of his success in 1974 with the release of his album *Diamond Dogs* and his departure from the UK. Author Kevin Cann is an associate of Bowie and has acted as his archivist for nearly 20 years - allowing him unprecedented access to extremely rare photographs and memorabilia which are here combined with interviews with over 100 of Bowie's friends and associates.

Visit an extraordinary hill where the "little angels" are buried;

discover remarkable forgotten Art Deco buildings; see a plane taking off at really close range, leftovers from the 1908 and 1922 Universal Expositions, a beautiful private palace open to visitors once a month, modernist ceramics hidden on the 15th-floor terrace of a former government building, a remarkable secret staircase; experience little-known walks and views of the city; find an Amazonian talisman at Copacabana, vestiges of the Carioca river, a rare statue of the great-grandmother of Jesus, a taxi nightclub, a work of art in a favela, a disused airship hangar ... Far from the crowds and the usual beach and carnival clichés, Rio de Janeiro has countless treasures it reveals only to residents and travellers who wander off the beaten track. An indispensable guide for all those who thought they were familiar with Rio or would like to discover the other face of the city.

Older than both ceramics and metallurgy, textile production is a technology which reveals much about prehistoric social and economic development. This book examines the archaeological evidence for textile production in Italy from the transition between the Bronze Age and Early Iron Ages until the Roman expansion (1000-400 BCE), and sheds light on both the process of technological development and the emergence of large urban centres with specialised crafts. Margarita Gleba begins with an overview of the prehistoric Appennine peninsula, which featured cultures such as the Villanovans and the Etruscans, and was connected through colonisation and trade with the other parts of the Mediterranean. She then focuses on the textiles themselves: their appearance in written and iconographic sources, the fibres and dyes employed, how they were produced and what they were used for: we learn, for instance, of the linen used in sails and rigging on Etruscan ships, and of the complex looms needed to produce twill. Featuring a comprehensive analysis of textiles remains and textile tools from the period, the book recovers information about funerary ritual, the sexual differentiation of labour (the spinners and weavers were usually women) and the important role the exchange of luxury textiles played in the emergence of an elite. Textile production played a part in ancient Italian society's change from an egalitarian to an aristocratic social structure, and in the emergence of complex urban communities.

Un guide pour découvrir la ville, quartier par quartier (colline du Château, mont Gellért, Taban, Obuda, île Marguerite, etc.), avec des détails sur l'histoire des principaux monuments et des adresses pour se restaurer, prendre un verre et sortir. Un chapitre est consacré aux environs de Budapest : Szentendre, le château royal de Gödöllő, Martonvasar, Veszprém et le lac Balaton, etc. *Budapest* Editions Jonglez First Published in 2000. This text provides a survey of the peoples who speak Finno-Ugric languages and have titular republics or autonomous regions within the post-Soviet Russian federation. Their languages have set them apart from their Turkic and Russian neighbours and helped to preserve their distinct identity, including their animist religious practices. Previous works on this subject were written before the demise of the USSR so that information on the subject was screened by Soviet censors. In particular, this book explores the principal threats now facing these peoples - as much environmental as political. Although communism has gone, the exploitation of natural resources threatens the region's ecology, while the new rulers in the Kremlin seem set to continue their predecessors' oppressive policies towards the Finno-Ugrians. The book is written with commitment to the threatened human and political rights of these endangered peoples.
