Lance Hewson's book on
translation criticism sets

out to examine ways in which a literary text may be explored as a translation, not primarily to judge it, but to understand where the text stands in relation to its original by examining the interpretative potential that results from the translational choices that have been made. After considering theoretical aspects of translation criticism, Hewson sets out a method of analysing originals and their translations on three different levels. Tools are provided to describe translational choices and their potential effects, and applied to two corpora: Flaubert's *Madame Bovary* and six of the English translations, and Austen's *Emma*, with three of the French translations. The results of the analyses are used to construct a hypothesis about each translation, which is classified according to two scales of measurement, one distinguishing between "just" and "false" interpretations, and the other between "divergent similarity", "relative divergence", "radical divergence" and "adaptation".

Sex in Development examines how development projects around the world intended to promote population management, disease prevention, and maternal and child health intentionally and unintentionally shape ideas about what constitutes "normal" sexual practices and identities. From sex education in Uganda to aids prevention in India to family planning in Greece, various sites of development work related to sex, sexuality, and reproduction are examined in the rich, ethnographically grounded essays in this volume. These essays demonstrate that ideas related to morality are repeatedly enacted in ostensibly value-neutral efforts to put into practice a "global" agenda reflecting the latest medical science. *Sex in Development* combines the cultural analysis of sexuality, critiques of global development, and science and technology studies. Whether considering the resistance encountered by representatives of an American pharmaceutical company attempting to teach Russian doctors a "value free" way to offer

patients birth control or the tension between Tibetan Buddhist ideas of fertility and the modernization schemes of the Chinese government, these essays show that attempts to make sex a universal moral object to be managed and controlled leave a host of moral ambiguities in their wake as they are engaged, resisted, and reinvented in different ways throughout the world.  First Published in 1995. As feminists reflect on the impact of the 'second wave' of feminism, and assess the gains of the last thirty years, invariably they have questioned whether claims that women have achieved equality are justified. In the late 1980s, there was a proliferation of popular imagery of 'new' men and 'post-feminist' women, with the concept of 'post-feminism' reinforcing and emphasizing the differences between independent, upwardly-

mobile, career orientated women, and those women who 'choose' the more 'natural' role of wife and mother. The Illusions of 'Post-Feminism': New Women, Old Myths maintains that 'post-feminism' is a myth. Through in-depth interviews with women about four major areas of their lives: education, work, the media and the family, the authors challenge and expose the myths implicit in the concept of 'post-feminism'. The research illustrates that women's discontent continues, despite the assumption that gender equality would result from equal opportunities legislation. The chapters highlight the ineffective nature of liberal reformism and demonstrate how power relations still lie at the root of the oppression of women. With its provoking and challenging analysis, this revealing book breaks the silence of women's real experiences by showing the actuality of women's lives today.

Hotbeds of Licentiousness is the first substantial critical engagement with British pornography on film across the 1970s, including the "Summer of Love," the rise and fall of the Permissive Society, the arrival of Margaret Thatcher, and beyond. By focusing on a series of colorful filmmakers whose work, while omnipresent during the 1970s, now remains critically ignored, author Benjamin Halligan discusses pornography in terms of lifestyle aspirations and opportunities which point to radical changes in British society. In this way, pornography is approached as a crucial optic with which to consider recent cultural and social history.

Described as 'an interesting and thought provoking book' this autobiography by Keith A. Elliott MBE shares his

career in the Metropolitan Police over 38 years from the late 1950's to the late 1990's uniquely in London's West End dealing with many of the daily incidents and criminal acts as a front line police officer and where he was introduced to many elevated and influential members of society. On leaving the police he also uniquely set up and ran a consultancy to the film industry making a contribution to over 75 films including the 'Harry Potter' series, 'V' for Vendetta' using his knowledge and persuasive ability to obtain agreements on behalf of the film companies and at the same time ensuring that film directors and assistant directors and crew abided by the agreements negotiated with the authorities in London and the Counties. This process enabled the author to witness from the public perspective point of view the changing the changing role and performance of the police leading to the present day. Coming from a humble background and childhood beset with poverty, deprivation and bullying he entered into a career in the police where he worked to make a

difference for over 38 years and beyond. *Comprehensive Calendar of Bicentennial Events, September 1976* Little, Brown Books for Young Readers

From one of the most admired critics of our time, brilliant insights into the act of watching movies and an enlightening discussion about how to derive more from any film experience. Since first publishing his landmark Biographical Dictionary of Film in 1975 (now in its sixth edition), David Thomson has been one of the most trusted authorities on all things cinema. Now, he offers his most inventive exploration of the medium yet: guiding us through each element of the viewing experience, considering the significance of everything from what we see and hear on screen - actors, shots, cuts, dialogue, music - to the specifics of how, where, and with whom we do the viewing. With customary candour and wit, Thomson delivers keen analyses of a range of films from classics such

as Psycho and Citizen Kane to contemporary fare such as 12 Years a Slave and All Is Lost, revealing how to more deeply appreciate both the artistry and manipulation of film, and how watching movies approaches something like watching life itself. Discerning, funny and utterly unique, How to Watch a Movie is a welcome twist on the classic proverb: Give a movie fan a film, she'll be entertained for an hour or two; teach a movie fan to watch, her experience will be enriched forever.

The author, Samuel Abraham, was fascinated by the study of the Scriptures as his spiritual mentor helped him see that the Bible gives a more satisfying understanding of the origins of life, human civilization and language than philosophical materialism. Along the way, he discovered the uncanny nature of Bible prophecy and how God, through His prophets, predicted human history,

provided a way for human redemption, and laid out a positive outcome for humankind. The author's sometimes-novel explanations of Scripture and science will leave the reader thinking. The book is his gift of love to others who may be troubled with the same concerns so they will recognize the veracity of the Bible, God's Holy Word.

Press of Kentucky Fiftieth anniversary reissue of the founding media studies book that helped establish media art as a cultural category. First published in 1970, Gene Youngblood's influential *Expanded Cinema* was the first serious treatment of video, computers, and holography as cinematic technologies. Long considered the bible for media artists, Youngblood's insider account of 1960s counterculture and the birth of cybernetics remains a mainstay reference in today's hypermediated digital world. This fiftieth anniversary edition includes a new Introduction by the author that offers conceptual tools for understanding the sociocultural and sociopolitical realities of our present world. A unique eyewitness account of burgeoning experimental film and the birth of video art in the late 1960s, this far-ranging study traces the evolution of cinematic language to the end of fiction, drama, and realism. Vast in scope, its prescient formulations include "the paleocybernetic age," "intermedia," the "artist

as design scientist," the "artist as ecologist," "synaesthetics and kinesthetics," and "the technosphere: man/machine symbiosis." Outstanding works are analyzed in detail. Methods of production are meticulously described, including interviews with artists and technologists of the period, such as Nam June Paik, Jordan Belson, Andy Warhol, Stan Brakhage, Carolee Schneemann, Stan VanDerBeek, Les Levine, and Frank Gillette. An inspiring Introduction by the celebrated polymath and designer R. Buckminster Fuller—a perfectly cut gem of countercultural thinking in itself—places Youngblood's radical observations in comprehensive perspective. Providing an unparalleled historical documentation, *Expanded Cinema* clarifies a chapter of countercultural history that is still not fully represented in the arthistorical record half a century later. The book will also inspire the current generation of artists working in ever-newer expansions of the cinematic environment and will prove invaluable to all who are concerned with the technologies that

are reshaping the nature of human communication. *Queens Reigns Supreme* Random House India "Spanning virtually the entire twentieth century and as timely as the outbreak of the 2011 'January Revolution,' this work has much to say about where Egypt has been, who Egyptians are and, ultimately, where they may take their country." --Joel Gordon, author of *Nasser: Hero of the Arab Nation* "A truly extraordinary accomplishment that is thought provoking, creative, and inspiring. Belli is the first in Middle Eastern studies to examine the cultural history of twentieth-century Egypt through the interactions between education and remembrance. Her revised theoretical approach is applicable not only to Middle Eastern societies and cultures, but to others worldwide." --Israel Gershoni, Tel Aviv University "An interesting history of memory that is diverse, dynamic, and disparate. Makes an outstanding contribution to our understandings of Egyptian national identity and memory." --Nancy L. Stockdale, University of North Texas Examining history not as it was

recorded, but as it is remembered, *An Incurable Past* contextualizes the classist and deeply disappointing post-Nasserist period that has inspired today's Egyptian revolutionaries. Public performances, songs, stories, oral histories, and everyday speech reveal not just the history of mid-twentieth-century Egypt, but also the ways in which ordinary people experience and remember the past. Constructing a ground-breaking theoretical framework, Mériam Belli demonstrates the fragility of the "collectivity" and the urgent need to replace the current method for studying collective memory with a new approach she defines as "historical utterances." Contextual and relational, these links between intimate and public historical narratives are an integral part of a society's dialogue about its past, present, and future. Three major vernacular expressions constitute the historical utterances that illuminate the Nasserite experience and its present. The first is universal schooling and education. The second is anti-colonial struggle, as exemplified by Port Said's

effigy burning festival. The third is the public's responses to the "miraculous millenarian" apparition of the Virgin Mary. Using an extensive array of sources, ranging from official archives and press reportage to fiction, public rituals, and oral interviews, Belli's findings penetrate issues of class, religion, and social and political activism. She shows that personal testimonies and public representations allow us a deep understanding of Egypt's construction of the modern in its many sociocultural layers. Mériam N. Belli is associate professor of history at the University of Iowa.

The book provides a detailed introduction to the essential themes,

style, and aesthetics of Pedro Almodovar's films, put in the context of Spain's profound cultural transitions since 1980. With precise and close analysis, the book covers the major concerns of the most successful of all Spanish film directors and makes direct, clear connections to the logic of Almodovar's aesthetic and stylistic choices. By spanning the entirety of Pedro Almodovar's feature making career, the book emphasizes the director's sensibility to make the outrageous believable and to always give a unique spin to the issues Spanish history, culture and identity. A detailed and comprehensive approach to all of Pedro Almodovar's feature films from the outrageous 1980 'Pepi, Luci, Bom and Other Girls on the Heap' to the sophisticated 2004 'Bad Education', this book provides more than an introduction an intimate look at the topics, style, aesthetics and cultural sensibilities of Spain's most distinguished and celebrated film director since Luis Bunuel. By focusing on a film-by-film, and often scene-by-scene analysis, this book offers a meticulous interpretation of characters, situations, allusions and cultural

intersections, as well as emphasizing the meaning and weight of cultural, historical and social contexts. The book traces the evolution of Almodovar's career, from the perspective of aesthetic, narrative and stylistic concerns and places those changes in the logical context of Spain's historical trajectory from the end of Franco's dictatorship to the transition to democracy, exploring Almodovar's interest on issues of identity, sexuality, and nationalism.

In this novel 'She Fell in Love....' the writer has done full justice to the stylistic mixing of fact and fiction and made it a delightful reading. He is a miniature painter at some places, giving details in an ample degree and thus creating an artistic whole. He has the knack of observing the contours of a female body that exudes charm and oomph. Sometimes he is too explicit in his reference to the vital assets of bubbling beauties though his intention is never in doubt. Like Geoffrey Chaucer, he can make

comments with tongue in cheek. This method reveals a scintillating mind and cheerful attitude to life. He is with John Keats when he says –“She unclasped her warm jewels one by one.” The characters in this work flit across the screen of existence enchantingly, leaving behind indelible impressions of the chiaroscuro of life. There is no twist in the tail but

the tale ends on a happy note.
