"Two novellas on the theme of the relationship of fathers to daughters. The first is about a daughter lost in a mountain climbing accident. The second is about a daughter saved." --

As today's spark-ignition and diesel engines have to fulfil constantly increasing demands with regard to CO2 reduction, emissions, weight and lifetime, detailed

knowledge of the components of an internal combustion engine is absolutely essential. Automotive engineers can no longer survive without such expertise, regardless of whether they are involved in design, development, testing or maintenance. This text book provides answers to questions relating to the design, production and machining of cylinder components in a comprehensive technical analysis.

The make-take-waste paradigm of fast fashion explains much of the producer and consumer behavior patterns towards fast fashion. The evolution from a two-season

fashion calendar to fast fashion, characterized by rapid product cycles from retailers and impulse buying by consumers, presents new challenges to the environment, workplace and labour practices. This book provides a comprehensive overview of new insights into consumer behaviour mechanisms in order to shift practices toward sustainable fashion and to minimize the negative impacts of fast fashion on the environment and society. Concepts and techniques are presented that could overcome the formidable economic drivers of fast fashion and lead toward a future of sustainable fashion. While the need for change in the fashion industry post-Rana

Plaza could not be more obvious, alternative and more sustainable consumption models have been under-investigated. The paucity of such research extends to highly consumptive consumer behaviours regarding fast fashion (i.e. impulse buying and throwaways) and the related impediments these behaviours pose for sustainable fashion. Written by leading researchers in the field of sustainable fashion and supported by the Textile Institute, this book evaluates fashion trends, what factors have led to new trends and how the factors supporting fast fashion differ from those of the past. It explores the economic drivers of fast fashion and what social, environmental and political factors should be maintained, and business approaches adopted, in order for fast fashion to be a sustainable model. In particular, it provides consumer behaviour concepts that can be utilized at the retail level to support sustainable fashion.

What are the movies? What effect do they have on us? Why do we love them so much? *Blutch* addresses all these questions in a series of interlocking short comics that move between scholarly history, romantic theory and ribald vignettes, featuring a motley cast of actors and topics including Burt Lancaster, Jean-Luc Godard, Claudia Cardinale,

Tarzan, and Michel Piccoli. As much a visual essay as it is graphic novel, a daydream and a fantastic meditation on the other art of telling stories with images, *So Long, SilverScreen* is a new height for an uncontested master.

Im Gegensatz zur Schriftkultur, die in den letzten zwei Jahrzehnten zum Thema zahlreicher Arbeiten geworden ist, hat die Erforschung der sekundären Mündlichkeit bislang noch kaum begonnen, geschweige denn von einem interdisziplinären Ansatz, wie ihn der vorliegende Band präsentiert, profitieren können. In einer Zeit, in der sich die 'Schrift' als Leitmedium der Gesellschaft etabliert, bekunden Dichter und Denker eine Erfahrung des Verlustes an Nähe und Unmittelbarkeit (Präsenz). Gegen Orientierungs- und Bindungsverlust

sowie Einsamkeitserfahrungen werden kompensatorisch die Stimme (Reden, Vorlesen und Hören) und die gesellige Kommunikation unter Anwesenden beschworen. Mit der Durchsetzung der elektronischen Funkmedien im späten 19. Jahrhundert (Telefon, Radio) und im späten 20. Jahrhundert dem Internet verändert sich die Situation jeweils ein weiteres Mal.
