Build on the techniques of
the great abstract artists
to create their own
innovative new work.
Clear, comprehensible
sections let artists focus
quickly on their specific
areas of interest. The first
section, on Traditional
Painterly Abstraction,
using brush and easel,
looks at pictorial space,
brushwork, paint quality,
and collage. The second
section, on Post-Painterly
Modern Abstraction,
considers options ranging
from the pour-and-splatter
techniques of Jackson
Pollock to the staining,
scraping, and abrading of
modern acrylic artists.
Step-by-step recipes for
key approaches show
artists how to get the best
aesthetic results.

The Little Prince and (French: *Le Petit Prince*) is a novella by French aristocrat, writer, and aviator Antoine de Saint-Exupéry. It was first published in English and French in the US by Reynal and Hitchcock in April 1943, and posthumously in France following the liberation of France as Saint-Exupéry's works had been banned by the Vichy Regime. The story follows a young prince who visits various planets in space, including Earth, and addresses themes of loneliness, friendship, love, and loss. Despite its style as a children's book, *The Little Prince* makes observations about life, adults and human nature. *The Little Prince* became Saint-Exupéry's most successful work, selling an estimated 140 million copies worldwide, which makes it one of the best-selling and most translated books ever published. It has been translated into 301 languages and dialects. *The Little Prince*

and has been adapted to numerous art forms and media, including audio recordings, radio plays, live stage, film, television, ballet, and opera. *Dictionnaire critique de la langue française* BoD - Books on Demand On October 14-19, 1990, the 6th International Conference on the Conservation of Earthen Architecture was held in Las Cruces, New Mexico. Sponsored by the GCI, the Museum of New Mexico State Monuments, ICCROM, CRATerre-EAG, and the National Park Service, under the aegis of US/ICOMOS, the event was organized to promote the exchange of ideas, techniques, and research findings on the conservation of earthen architecture. Presentations at the conference covered a diversity of subjects, including the historic traditions of earthen architecture, conservation and restoration, site preservation, studies in consolidation and seismic mitigation, and examinations of moisture problems, clay chemistry, and microstructures. In discussions that focused on the future, the application of modern technologies and

materials to site conservation was urged, as was using scientific knowledge of existing structures in the creation of new, low-cost, earthen architecture housing. *Anthropos* Getty Publications Genre studies and genre approaches to literacy instruction continue to develop in many regions and from a widening variety of approaches. Genre has provided a key to understanding the varying literacy cultures of regions, disciplines, professions, and educational settings. *GENRE IN A CHANGING WORLD* provides a wide-ranging sampler of the remarkable variety of current work. The twenty-four chapters in this volume, reflecting the work of scholars in Europe, Australasia, and North and South America, were selected from the over 400 presentations at SIGET IV (the Fourth International Symposium on Genre Studies) held on the campus of UNISUL in Tubarão, Santa Catarina, Brazil in August 2007—the largest gathering on genre to that date. The chapters also represent a wide variety of approaches, including rhetoric, Systemic Functional Linguistics,

media and critical cultural studies, sociology, phenomenology, enunciation theory, the Geneva school of educational sequences, cognitive psychology, relevance theory, sociocultural psychology, activity theory, Gestalt psychology, and schema theory. Sections are devoted to theoretical issues, studies of genres in the professions, studies of genre and media, teaching and learning genre, and writing across the curriculum. The broad selection of material in this volume displays the full range of contemporary genre studies and sets the ground for a next generation of work.
