Basic Geometric Concepts Simon and Schuster  
Boston Globe-Horn Book Award Winner \* ALA Notable Book \* ALA Booklist Editors' Choice \* School Library Journal Best Book In the second book in the Tales of Dimwood Forest by Newbery Medal-winning author Avi, a tiny deer mouse named Poppy dares to stand up to a tyrannical owl. The story is accompanied by inviting illustrations from Caldecott Medal-winning artist Brian Floca. "This exciting story is richly visual. The underlying messages, to challenge unjust authority and to rely on logic and belief in oneself, are palatably blended with action and suspense." —

School Library Journal Poppy knew she was taking a risk following her beloved Ragweed to Bannock Hill, but a night of dancing with the handsome golden mouse was just too tempting. So when Ragweed is scooped up by the sinister owl, Mr. Ocax, who rules over Dimwood forest, she's devastated. Her whole life she was warned of Mr. Ocax's evil ways...how could she have been so foolish to put herself and Ragweed at risk? To make matters worse, when Poppy attempts to move with her family to a different part of the woods where the food supply is richer, Mr. Ocax refuses to let them go. Despite what she's been led to believe for years, Mr. Ocax is not as strong as he wants the mice to think he is. Armed with the bravery, gumption, and wit of a hero, Poppy embarks on a dangerous quest—joined by the irascible but lovable porcupine, Ereth—to defeat Mr. Ocax and

lead her family to a better home. A perennially popular story of courage and determination, Poppy is a fixture on state award lists and in classrooms across the country.

*Gaining Word Power* helps college students build and retain better vocabularies and become more effective strategic readers. Based on more than thirty years of the author's teaching experience, this comprehensive vocabulary book generates a basic college-level vocabulary quickly, effectively, and pleurably. It incorporates a number of proven vocabulary-building approaches that are grounded in sound learning theory. In each self-contained lesson, words are presented on graduated levels of difficulty, followed by challenging exercises and writing activities, then reinforced by immediate access to solutions. This enables students to progress at their own pace and evaluate their progress. Although this text has a distinct pedagogical structure, a variety of practices, crossword puzzles, writing exercises, analogy activities, and numerous cartoons throughout challenge students to learn using a variety of strategies while continuously emphasizing the reading-writing connection.

John Reynolds Gardiner's classic action-packed adventure story about a thrilling dogsled race has captivated readers for more than thirty years. Based on a Rocky Mountain legend, Stone Fox tells the story of Little Willy, who lives with his grandfather in Wyoming. When Grandfather falls ill, he is no longer able to work the farm, which is in danger of foreclosure. Little Willy is determined to win the National Dogsled Race—the prize money would save the farm and his grandfather. But he isn't the only one who desperately wants to win. Willy and his brave dog Searchlight must face off against experienced racers, including a Native American man named Stone Fox, who has never lost a race. Exciting and heartwarming, this novel has sold millions of copies and was named a New York Times Outstanding Children's Book.

**Being and Teaching Special Needs** Gary David Sills Book This book is autobiographical in nature, considerably more informal than a thesis or a research paper. My emotional handicaps struck the week before my senior year of high school. This was at a time when "Special Education" was not established. Mental illness was not a comfortable topic, especially in a Christian home. In this book, my method is to take the reader with me into my struggles, disappointments, and failures in higher education and how I overcame them. As I built skills with troubled teens, I added education from a Christian university that gave me more than adequate tools to teach some of the most difficult to manage students. Limitations in this kind of writing are describing how I dealt with challenges in my classroom without noting research-based methods or other sources. My memoirs here as a

handicapped student improperly diagnosed for many years will be of value to parents wrestling with similar problems. Included in the memoir are many scenarios from my classroom in which I modeled successful responses to situations and explained why; I also offered usable innovations that your teacher will find helpful.
