Scarpetta Penguin

#1 bestselling author Patricia Cornwell returns to the world of gutsy medical examiner Kay Scarpetta in the seventh suspenseful novel in the forensic thriller series. On a quiet day, away from the hustle of Richmond, in a small cottage on the Virginia coast, Dr. Kay Scarpetta receives a disturbing phone call from the Chesapeake police. Thirty feet deep in the

murky waters of Virginia's Elizabeth River, a scuba diver's body is discovered near the Inactive Naval Shipyard. As the police begin searching for clues, the wallet of investigative reporter Ted Eddings is found. Unnerved by the possible identity of the victim, Scarpetta orders the crime scene roped off and left alone until she arrives. What was he doing there, searching for Civil War relics as the officer suggested, or was there a bigger story? As she rifles through the multitude of clues, a second murder hits much closer to home. This new development puts Scarpetta and

her colleagues hot on the trail of a military conspiracy.

Red Mist Penguin

In Scarpetta, Patricia Cornwell has a character as strong as any in popular fiction" —Wall Street Journal New York Times bestselling author Patricia Cornwell delivers the newest engrossing thriller in her high-stakes series starring medical examiner Dr. Kay Scarpetta. Depraved Heart: "Void of social duty and fatally bent on mischief." —Mayes v. People, 806 Ill. 306 (1883) Dr. Kay Scarpetta is working a suspicious death scene in Cambridge,

Massachusetts when an emergency alert sounds on her phone. A video link lands in her text messages and seems to be from her computer genius niece Lucy. But how can it be? It's clearly a surveillance film of Lucy taken almost twenty years ago. As Scarpetta watches she begins to learn frightening secrets about her niece, whom she has loved and raised like a daughter. That film clip and then others sent soon after raise dangerous legal implications that increasingly isolate Scarpetta and leave her confused, worried, and not knowing where to turn. She doesn't know whom she can tell—not her FBI husband Benton Wesley or her investigative partner Pete Marino. Not even Lucy. In this new novel, Cornwell launches these unforgettable characters on an intensely psychological odyssey that includes the mysterious death of a Hollywood mogul's daughter, aircraft wreckage on the bottom of the sea in the Bermuda Triangle, a grisly gift left in the back of a crime scene truck, and videos from the past that threaten to destroy Scarpetta's entire world and everyone she loves. The diabolical presence behind what unfolds seems obvious—but strangely, not to the

FBI. Certainly that's the message they send when they raid Lucy's estate and begin building a case that could send her to prison for the rest of her life. In the latest novel in her bestselling series featuring chief medical examiner Dr. Kay Scarpetta, Cornwell will captivate readers with the shocking twists, high-wire tension, and cutting-edge forensic detail that she is famous for, proving yet again why she's the world's #1 bestselling crime writer.

Depraved Heart Smithmark Pub

With high-tension suspense and cutting-edge technology, Patricia Cornwell—the world's #1 bestselling crime writer—once again proves her exceptional ability to entertain and enthrall in this remarkable novel featuring chief medical examiner Dr. Kay Scarpetta. On her quest to find out exactly what happened to her former deputy chief, Jack Fielding, murdered six

months before, Scarpetta drives to the Georgia Prison for Women to meet a convicted sex offender and the mother of a vicious and diabolically brilliant killer. Against the advice of her FBI criminal intelligence agent husband, Benton Wesley, Scarpetta is determined to hear this woman out. Scarpetta has both personal and professional reasons to learn more about a string of grisly killings: the murder of a Savannah family years earlier, a young woman on death row, and then other inexplicable deaths that begin to occur at a breathtaking pace. Driven by inner forces, Scarpetta discovers connections that compel her to conclude that what she thought ended with Fielding's death and an attempt on her own life is only the beginning of something far more destructive: a terrifying terrain of conspiracy and potential terrorism on an international scale. And she is the only one who can stop it.

Deja Dead Penguin

With unparalleled high-tension suspense and the latest in forensic technology, Patricia Cornwell once again proves her exceptional ability to surprise—and to thrill—in this electrifying Kay Scarpetta novel. A body, oddly draped in an unusual cloth, has just been discovered inside the sheltered gates of MIT, and it's suspected the identity is that of missing computer engineering grad student Gail Shipton, last seen the night before at a trendy Cambridge bar. It appears she's been murdered, mere weeks before the trial in her \$100 million lawsuit against her former financial manager, and Massachusetts Chief Medical Examiner Kay Scarpetta doubts it's a coincidence. She also fears the case may have a connection with her computer genius niece, Lucy. In *Dust*, Scarpetta and her colleagues are up against a force far more sinister than a sexual predator who fits the criminal classification of a "spectacle killer." The murder of Gail Shipton soon leads deep into the dark world of designer drugs, drone technology, organized crime, and shocking corruption at the highest levels.
