Sew Luxe Leather Sterling Publishing (NY)

Suppose, you have to appear for an exam next week, who would be the go-to person for seeking help and guidance? Option 1: A Subject Matter Expert (SME) who studying/teaching the subject for several years and often assumes while explaining that the basics are covered or looks it from their frame of reference. Or Option 2: Someone who also started from scratch as you have and passed the exam just last week. He/She knows the exact process, challenges, doubts, and roadblocks you may be facing and can think from your perspective. If your option is 2, you are in the right place. I am a Technology Consultant by profession, and started my leathercraft journey in the year 2014. I started by

going through multiple YouTube videos, courses, Facebook groups, and finally completed my first project after four months. I was confused and was lost in the magnitude of information available online. I firmly believe that while starting, you need exact, necessary, minimalistic information to start your first project, pardon: Complete your first project! So I started writing this book to provide a minimalistic approach to information required to start your first leather project. It covers: - History of leather - Basics Tools and their usage - Making Patterns - Cutting Patterns - Gluing - Beveling, Embossing, Stamping - Stitching basics - Coloring and Finishing - Tips, Techniques for the beginner -Leather Crafting, Physical Pain & Ergonomics * (New Chapter added!) - Appendix: List of online resources available for free patterns, tips, and techniques. I still remember the initial doubts I had and the tips which helped me. This book is for people who

are in their first lap (0-3 years) of Leather crafting journey and want to have a holistic idea of processes, tools, and need help in their initial projects. I have included photographs of realistic projects of beginners explaining the process and standard operating procedure while starting. So, what are you waiting for? Get this updated edition of the book with 22 chapters and start your Leather Crafting Journey Today!!

Leather Working Techniques For Beginners Createspace Independent Publishing Platform

She wants faith, hope, and love. She wants help and healing. She wants to hear and be heard, to see and be seen. She wants things set right. She wants to know what is true—not partly true, or sometimes true, or almost true. She wants to see Truth itself, face-to-face. But here, now, these things are all cloudy. Hope is tinged with hurt. Faith is shaded by doubt. Lesser, broken things masquerade as love. How does she find something permanent when the world around her is always changing, when not even she can stay the same? And if she finds it, how does she hold on? She Reads Truth tells the stories of two women who discovered, through very different lives and circumstances, that only God and His Word remain unchanged as the world around them shifted and slipped away. Infused with biblical application and Scripture, this book is not just about two characters in two stories, but about one Hero and one Story. Every image points to the bigger picture—that God and His Word are true. Not because of anything we do, but because of who He is. Not once, not occasionally, but right now and all the time. Sometimes it takes everything moving to notice the thing that doesn't move. Sometimes it takes telling two very different stories to notice how the Truth was exactly the

same in both of them. For anyone searching for a solid foundation to cling to, She Reads Truth is a rich and honest Bible-filled journey to finally find permanent in a world that's passing away.

Making Leather Bags, Wallets, and Cases Independently Published

Hiroshima is the story of six people—a clerk, a widowed seamstress, a physician, a Methodist minister, a young surgeon, and a German Catholic priest—who lived through the greatest single manmade disaster in history. In vivid and indelible prose, Pulitzer Prize-winner John Hersey traces the stories of these half-dozen individuals from 8:15 a.m. on August 6, 1945, when Hiroshima was destroyed by the first atomic bomb ever dropped on a city, through the hours and days that followed. Almost four decades after the original publication of this celebrated book, Hersey went back to Hiroshima in search of the people whose stories he had told, and his account of what he discovered is now the eloquent and moving final chapter of Hiroshima.

David and Charles

You've got the leather. You want to make something with it. You want to be creative, but you don't know where to start. Don't panic! I've got your back. This book is here to guide you through the basics of leatherwork and give you the tools you need to produce amazing work without stress. In fact, I'll show you some techniques so simple, they're almost too easy—and that's what makes them so effective. We'll start with the basics of working with leather: what tools are used, how they're used, and how they're cleaned. Then we'll move on to more advanced techniques (like embossing), and finally we'll finish up with some tips on getting the most out of your leatherworking endeavors.
