Noted technical analyst John Person outlines a comprehensive method to pinpointing today's best trading opportunities. The economy and stock market are heavily influenced by seasonal factors. For example, a strong holiday buying season tends to be bullish for retail stocks or rising energy costs hurt airline profitability.

Awareness of seasonal trends in both the economy and stock market can put you in a better position to profit from sectors and stocks that are likely to outperform the overall market. And technical tools can then be used to confirm emerging trends and time entries into these stocks and sectors. *Mastering the Stock Market* provides authoritative insights into a method for trading stocks based on seasonal trends, sector analysis, and market timing. Taking a top-down approach, the book explains how seasonal supply/demand forces impact commodities and different sectors of the stock market. After learning how to identify stock market sectors and commodity ETFs that are ripe for a

big move, you'll quickly discover how to use technical analysis to gauge the strength of the sector or commodity and then identify the strongest stocks and ETFs to trade. Along the way, you'll also learn how to use the author's own indicators, Persons Pivots, to identify support/resistance areas and pinpoint optimal entry and exit points. Outlines a proven technical approach for trading stocks based on seasonal trends, sector analysis, and market timing Breaks new ground in comparative relative strength, trading volume, breadth indicators, and utilizing pivot analysis in conjunction with options expiration days to identify trading opportunities Written

by noted technical analyst John L. Person To successfully trade today's markets you need to use a proven approach and have the discipline to effectively implement it.

Mastering the Stock Market has what you need to achieve these goals and capture consistent profits along the way.

In the tradition of Carroll & Graf's The Mammoth Book of Erotica, The Mammoth Book of International Erotica, The Mammoth Book of New Erotica, and The Mammoth Book of Historical Erotica - which together have sold more than 400,000 copies - comes this provocative new volume in a hot-selling series, featuring such top writers of erotic fiction as Robert Coover, O'Neil De Noux, Mark Ramsden, Gene Santagarda, and Lucy Taylor along with the editors of this sizzling collection, Michael Hemmingson and Maxim Jakubowski. Written especially for this anthology, these piquant tales do not only titillate. As novellas, they also

expatiate, involving the reader in the complications of plot as well as of lust and exploring the emotional interiors of their characters as well as in their sensual intrigues and sexual gymnastics. From Michael Perkins's "Night Moves" to William Vollmann's "De Sade's Last Stand," from Josephine Jarmaine's "The Doll" to M. Christian's "Speaking Parts" - whether disturbingly autobiographical or wildly fantastical, meditative or action-packed - these tales will arouse, fascinate, astound, and delight in their racy variety. *Under Her Thumb* Cleis Press  
Now available in an affordable softcover edition, this classic in Springer's acclaimed

Virtual Laboratory series is the first comprehensive account of the computer simulation of plant development. 150 illustrations, one third of them in colour, vividly demonstrate the spectacular results of the algorithms used to model plant shapes and developmental processes. The latest in computer-generated images allow us to look at plants growing, self-replicating, responding to external factors and even mutating, without becoming entangled in the underlying mathematical formulae involved. The authors place particular emphasis on Lindenmayer systems - a notion conceived by one of the authors, Aristid Lindenmayer, and internationally recognised for its

exceptional elegance in modelling biological phenomena. Nonetheless, the two authors take great care to present a survey of alternative methods for plant modelling. Bare Metuchen, N.J. : Scarecrow Press

 First published in Malayalam in 1973, My Story, Kamala Das' sensational autobiography, shocked readers with its total disregard for mindless conventions and its fearless articulation of a subject still considered taboo. Depicting the author's intensely personal experiences in her passage to womanhood and shedding light on the hypocrisies that informed traditional society, this memoir was far ahead of its time and is now acknowledged as a bona fide masterpiece.

 This scholarly account traces the emergence of the Zulu Kingdom in

South Africa in the early nineteenth century, under the rule of the ambitious and iconic King Shaka. In contrast to recent literary analyses of myths of Shaka, this book uses the richness of Zulu oral traditions and a comprehensive body of written sources to provide a compelling narrative and analysis of the events and people of the era of Shaka's rule. The oral traditions portray Shaka as rewarding courage and loyalty and punishing failure; as ordering the targeted killing of his own subjects, both warriors and civilians, to ensure compliance to his rule; and as arrogant and shrewd, but kind to the poor and mentally disabled. The rich and diverse oral traditions,

transmitted from generation to generation, reveal the important roles and fates of men and women, royal and subject, from the perspectives of those who experienced Shaka's rule and the dramatic emergence of the Zulu Kingdom.

Spanning three continents, *Butter Honey Pig Bread* tells the interconnected stories of three Nigerian women: Kambirinachi and her twin daughters, Kehinde and Taiye. Kambirinachi believes

that she is an Ogbanje, or an Abiku, a non-human spirit that plagues a family with misfortune by being born and then dying in childhood to cause a human mother misery. She has made the unnatural choice of staying alive to love her human family but lives in fear of the consequences of her decision. Kambirinachi and her two daughters become estranged from one another because of a trauma that Kehinde experiences in childhood, which leads her to move away and cut off all contact. She ultimately finds her path as an artist and seeks to raise a family of her own, despite her fear that she won't be a good mother. Meanwhile, Taiye is plagued by guilt for

what her sister suffered and also runs away, attempting to fill the void of that lost relationship with casual flings with women. She eventually discovers a way out of her stifling loneliness through a passion for food and cooking. But now, after more than a decade of living apart, Taiye and Kehinde have returned home to Lagos. It is here that the three women must face each other and address the wounds of the past if they are to reconcile and move forward. For readers of African diasporic authors such as Teju Cole and Chimamanda Ngozi Adichie, *Butter Honey Pig Bread* is a story of choices and their consequences, of motherhood, of the malleable line between the spirit and the mind,

of finding new homes and mending old ones, of voracious appetites, of queer love, of friendship, faith, and above all, family. Police Matters moves beyond the city to examine the intertwined nature of police and caste in the Tamil countryside. Radha Kumar argues that the colonial police deployed rigid notions of caste in their everyday tasks, refashioning rural identities in a process that has cast long postcolonial shadows. Kumar draws on previously unexplored police archives to enter the dusty streets and market squares where local constables walked, following their gaze and observing

their actions towards potential subversives. Station records present a textured view of ordinary interactions between police and society, showing that state coercion was not only exceptional and spectacular; it was also subtle and continuous, woven into everyday life. The colonial police categorized Indian subjects based on caste to ensure the security of agriculture and trade, and thus the smooth running of the economy. Among policemen and among the objects of their coercive gaze, caste became a particularly salient form of identity in the politics of public spaces. *Police Matters* demonstrates that, without doubt, modern caste politics have both been shaped by, and shaped, state

policing. Thanks to generous funding from the Andrew W. Mellon Foundation, through The Sustainable History Monograph Pilot, the ebook editions of this book are available as Open Access volumes from Cornell Open ([cornellpress.cornell.edu/cornell-open](http://cornellpress.cornell.edu/cornell-open)) and other repositories. *Our Lady of Kibeho* Heinemann The book offers a comprehensive philosophical reconstruction of the work of Edmond Jabès—a Jewish-French poet, modern Kabbalist and thinker. It is a starting point for an enquiry into the nature of the encounter between Judaism and modern philosophy. Philosophically, Judaism becomes a reconstructed tradition: a

field played with by modern forces.

—Larissa MacFarquhar, The New Yorker From the bestselling author

of Americanah and We Should All Be Feminists Fifteen-year-old Kambili and her older brother Jaja lead a privileged life in Enugu, Nigeria. They live in a beautiful house, with a caring family, and attend an exclusive missionary school. They're completely shielded from the troubles of the world. Yet, as Kambili reveals in her tender-voiced account, things are less perfect than they appear. Although her Papa is generous and well respected, he is fanatically religious and tyrannical at home—a home that is silent and suffocating. As the country begins to fall apart under a military coup, Kambili and Jaja are sent to their aunt, a university professor outside the city, where they

discover a life beyond the confines of their father's authority. Books cram the shelves, curry and nutmeg permeate the air, and their cousins' laughter rings throughout the house. When they return home, tensions within the family escalate, and Kambili must find the strength to keep

her loved ones together. *Purple Hibiscus* is an exquisite novel about the emotional turmoil of adolescence, the powerful bonds of family, and the bright promise of freedom.
