*Harry Potter Coloring Book* Penguin  
A beautifully written, darkly funny  
coming-of-age story from an award-

winning, bestselling German author making his American debut. Mike Klingenberg doesn't get why people think he's boring. Sure, he doesn't have many friends. (Okay, zero friends.) And everyone laughs at him when he reads his essays out loud in class. And he's

never invited to parties - including the gorgeous Tatiana's party of the year. Andre Tschichatschow, aka Tschick (not even the teachers can pronounce his name), is new in school, and a whole different kind of unpopular. He always looks like he's just been in a fight, his clothes are tragic, and he never talks to anyone. But one day Tschick shows up at Mike's house out of the blue. Turns out he wasn't invited to Tatiana's party either, and he's ready to do something about it. Forget the popular kids: Together, Mike and Tschick are heading out on a road trip. No parents, no map, no destination. Will they get hopelessly lost in the middle of nowhere? Probably. Will meet some crazy people and get into serious trouble? Definitely. But will they ever be called boring again? Not a

chance.

REESE WITHERSPOON X HELLO

SUNSHINE BOOK CLUB PICK "A great narrative about personal strength and really captures how books bring communities together." —Reese

Witherspoon From the author of *The Last Letter from Your Lover*, now a major motion picture on Netflix, a breathtaking story of five extraordinary women and their remarkable journey through the mountains of Kentucky and beyond in Depression-era America Alice Wright marries handsome American Bennett Van Cleve, hoping to escape her stifling life in England. But small-town Kentucky quickly proves equally claustrophobic, especially living alongside her overbearing father-in-law. So when a call goes out for a team of women to deliver books as part of Eleanor Roosevelt's new traveling library, Alice signs on enthusiastically. The leader, and soon Alice's greatest ally, is Margery, a smart-talking, self-sufficient woman who's never asked a man's permission for

anything. They will be joined by three other singular women who become known as the Packhorse Librarians of Kentucky. What happens to them--and to the men they love--becomes an unforgettable drama of loyalty, justice, humanity, and passion. These heroic women refuse to be cowed by men or by convention. And though they face all kinds of dangers in a landscape that is at times breathtakingly beautiful, at others brutal, they're committed to their job: bringing books to people who have never had any, arming them with facts that will change their lives. Based on a true story rooted in America's past, *The Giver of Stars* is unparalleled in its scope and epic in its storytelling. Funny, heartbreaking, enthralling, it is destined to become a modern classic--a richly

rewarding novel of women's friendship, of true love, and of what happens when we reach beyond our grasp for the great beyond.

Winner, 2018 PEN/E.O. Wilson Prize for Literary Science Writing Short-listed for

the 2018 Wellcome Book Prize A Top 10 Science Book of Fall 2017, Publishers Weekly A Best History Book of 2017, The Guardian "Warning: She spares no detail!" —Erik Larson, bestselling author of *Dead Wake In The Butchering Art*, the historian Lindsey Fitzharris reveals the shocking world of nineteenth-century surgery and shows how it was transformed by advances made in germ theory and antiseptics between 1860 and 1875. She conjures up early operating theaters—no place for the squeamish—and surgeons, who, working before anesthesia, were lauded for their speed and brute strength. These pioneers knew that the aftermath of surgery was often more dangerous than patients' afflictions, and they were baffled by the persistent infections that

kept mortality rates stubbornly high. At a time when surgery couldn't have been more hazardous, an unlikely figure stepped forward: a young, melancholy Quaker surgeon named Joseph Lister, who would solve the riddle and change the course of history. Fitzharris dramatically reconstructs Lister's career path to his audacious claim that germs were the source of all infection and could be countered by a sterilizing agent applied to wounds. She introduces us to Lister's contemporaries—some of them brilliant, some outright criminal—and leads us through the grimy schools and squalid hospitals where they learned their art, the dead houses where they studied, and the cemeteries they ransacked for cadavers. Eerie and illuminating, *The Butchering Art*

celebrates the triumph of a visionary surgeon whose quest to unite science and medicine delivered us into the modern world.

This novel dramatizes an incident that took place in a California school in 1969. A teacher creates an experimental movement in his class to help students understand how people could have followed Hitler. The results are astounding. The highly disciplined group, modeled on the principles of the Hitler Youth, has its own salute, chants, and special ways of acting as a unit and sweeps beyond the class and throughout the school, evolving into a society willing to give up freedom for regimentation and blind obedience to their leader. All will learn a lesson that will never be

forgotten.
