The definitive history of writing and producing the "Big Book" of Alcoholics Anonymous, told through extensive access to the group's archives. Alcoholics Anonymous is arguably the most significant self-help book published in the twentieth century. Released in 1939, the "Big Book," as it's commonly known, has sold an estimated 37 million copies, been translated into seventy languages, and spawned numerous recovery communities around the world while remaining a vibrant plan for recovery from addiction in all its forms for millions of people. While there are many books about A.A. history, most rely on anecdotal stories told well after the fact by Bill Wilson and other early members—accounts that have proved to be woefully inaccurate at times. Writing the Big Book brings exhaustive research, academic discipline, and informed insight to the subject not seen since Ernest Kurtz's Not-God, published forty years ago. Focusing primarily on the eighteen

months from October 1937, when a book was first proposed, and April 1939 when Alcoholics Anonymous was published, Schaberg's history is based on eleven years of research into the wealth of 1930s documents currently preserved in several A.A. archives. Woven together into an exciting narrative, these real-time documents tell an almost week-by-week story of how the book was created, providing more than a few unexpected turns and surprising departures from the hallowed stories that have been so widely circulated about early A.A. history. Fast-paced, engaging, and contrary, Writing the Big Book presents a vivid picture of how early A.A. operated and grew and reveals many previously unreported details about the colorful cast of characters who were responsible for making that group so successful.

In a world of rising tensions between Russia and the United States, the Middle East and Europe, Sunnis and Shiites, Islamism and liberalism, Turkey is at the epicentre. And at the heart of Turkey is its right-wing populist president, Recep Tayyip Erdoğan. Since 2002, Erdoğan has consolidated his hold on domestic politics while using military and diplomatic means to solidify Turkey as a

regional power. His crackdown has been brutal and consistent - scores of journalists arrested, academics officially banned from leaving the country, university deans fired and many of the highest-ranking military officers arrested. In some senses, the nefarious and failed 2016 coup has given Erdoğan the licence to make good on his repeated promise to bring order and stability under a 'strongman'. Here, leading Turkish expert Soner Cagaptay will look at Erdoğan's roots in Turkish history, what he believes in and how he has cemented his rule, as well as what this means for the world. The book will also unpick the 'threats' Erdogan has worked to combat - from the liberal Turks to the Gulen movement, from coup plotters to Kurdish nationalists - all of which have culminated in the crisis of modern Turkey.

The Politics of Panem Duke University Press

The words of this book's title are said aloud every day by thousands of people meeting together to help each other recover from addiction. The addictions may be to alcohol or cocaine, gambling or food, violence or sex, but the path to recovery is the same. The exciting thing about the Twelve Steps is that they teach us how to live. Once we know the design of living and the principles of

living a successful life, we find that we not only get over the problems we see, but we avoid many other problems we would have had. To me, the miracle is that all this was boiled down into twelve simple Steps that anybody can apply. This is a book of plain-spoken wisdom for people with addictions and people who love them. Joe McQ has been a student of the Twelve Steps for more than three decades. He, like tens of thousands of others, lives them every day, one day at a time. In *The Steps We Took*, Joe takes us through them, one Step at a time, and helps us understand how they work—and how they can change our lives.

How policing became the major political issue of our time Combining firsthand accounts from activists with the research of scholars and reflections from artists, *Policing the Planet* traces the global spread of the broken-windows policing strategy, first established in New York City under Police Commissioner William Bratton. It's a doctrine that has vastly broadened police power the world over—to deadly effect. With contributions from #BlackLivesMatter cofounder Patrisse Cullors, Ferguson activist and Law Professor Justin Hansford, Director of New York-based Communities United for Police Reform Joo-Hyun Kang, poet Martín Espada, and journalist Anjali Kamat, as well as articles from leading scholars Ruth Wilson Gilmore, Robin D. G. Kelley, Naomi Murakawa, Vijay Prashad, and more, *Policing the Planet* describes ongoing struggles from New York to Baltimore to Los Angeles, London, San Juan, San Salvador, and beyond.

Policing the Planet Penguin

The face of the pedestrian safety crisis looks a lot like Ignacio Duarte-Rodriguez. The 77-year old grandfather was struck in a hit-and-run crash while trying to cross a high-speed, six-lane road without crosswalks near his son's home in Phoenix, Arizona. He was one of the more than 6,000 people killed while walking in America in 2018. In the last ten years, there has been a 50 percent increase in pedestrian deaths. The tragedy of traffic violence has barely registered with the media and wider culture. Disproportionately the victims are like Duarte-Rodriguez—immigrants, the poor, and people of color. They have largely been blamed and forgotten. In *Right of Way*, journalist Angie Schmitt shows us that deaths like Duarte-Rodriguez's are not unavoidable “accidents.” They don't happen because of jaywalking or distracted walking. They are predictable, occurring in stark geographic patterns that tell a story about systemic inequality. These deaths are the forgotten faces of an increasingly urgent public-health crisis that we have the tools, but not the will, to solve. Schmitt examines the possible causes of the increase in pedestrian deaths as well as programs and movements that are beginning to respond to the epidemic. Her investigation unveils why

pedestrians are dying—and she demands action. *Right of Way* is a call to reframe the problem, acknowledge the role of racism and classism in the public response to these deaths, and energize advocacy around road safety. Ultimately, Schmitt argues that we need improvements in infrastructure and changes to policy to save lives. *Right of Way* unveils a crisis that is rooted in both inequality and the undeterred reign of the automobile in our cities. It challenges us to imagine and demand safer and more equitable cities, where no one is expendable.

This highly detailed work captures Tesla as a scientist and as a public figure. The first, original full-length biography, first published in 1944 and long a favorite of Tesla fans, is a definitive biography of the man without whom modern civilization would not exist. His inventions on rotating magnetic fields creating AC current as we know it today, have changed the world yet he is relatively unknown. This special edition of O'Neill's classic book has many rare photographs of Tesla and his most advanced inventions. Tesla's eccentric personality gives his life story a strange romantic quality. He made his first million before he was forty, yet gave up his royalties in a gesture of friendship, and died almost in poverty. Tesla could see an invention in 3-D, from every angle, within his mind, before it was built how he refused to accept the Nobel Prize why Tesla clung to his theories of electricity in the face of opposition his friendships with Mark Twain, George Westinghouse and competition with Thomas Edison In this penetrating study of the life and inventions of a scientific superman, Nikola Tesla is revealed as a figure of genius whose influence on the world reaches into the far future.

12 Secular Steps: An Addiction Recovery Guide is a Step working guidebook for agnostics, atheists, and others who believe addicts should be active in and accountable for their recovery. Unlike traditional Twelve Step literature, this secular adaptation of 12 Step approach neither promotes nor rejects religion and spirituality; it de-emphasizes the active role of God or a Higher Power in favor of a secular, cognitive-behavioral framework. The adapted methodologies are grounded in a biology-based foundation and philosophy.

“A haunting story about the long reach of the past.”—Maureen Corrigan, NPR'S Fresh Air “In this intriguing book, [Nordhaus] shares her journey to discover who her immigrant ancestor really was—and what strange alchemy made the idea of her linger long after she was gone.” —People La Posada—“place of rest”—was once a grand Santa Fe mansion. It belonged to Abraham and Julia Staab, who emigrated from Germany in the mid-nineteenth century. After they died, the house became a hotel. And in the 1970s, the hotel acquired a resident ghost—a sad, dark-eyed woman in a long gown. Strange things began to happen there: vases moved, glasses flew, blankets were ripped from beds. Julia Staab died in 1896—but her ghost, they say, lives on. In *American Ghost*, Julia's great-great-granddaughter, Hannah Nordhaus, traces her ancestor's transfiguration from nineteenth-century Jewish bride to modern phantom. Family diaries, photographs, and newspaper clippings take her on a riveting journey through three hundred years of German history and the American immigrant experience. With the help of historians, genealogists, family members, and ghost hunters, she weaves a masterful, moving story of fin-de-siècle Europe and pioneer life, villains and visionaries, medicine and spiritualism, imagination and truth, exploring how lives become legends, and what those legends tell us about who we are.

From New York Times bestselling authors and renowned leadership consultants Adrian Gostick and Chester Elton comes a groundbreaking guide to building high-performance teams. What is the true driver of a thriving organization's exceptional success? Is it a genius leader? An iron-clad business plan? Gostick and Elton shatter these preconceptions of corporate achievement. Their research shows that breakthrough success is guided by a particular breed of high-performing team that generates its own momentum—an engaged group of colleagues in the trenches, working passionately together to pursue a shared vision. Their research also shows that only 20 percent of teams are working anywhere near this optimal capacity. How can your team become one of them? Based on a groundbreaking 350,000-person study by the Best Companies Group, as well as extraordinary research into exceptional teams at leading companies, including Zappos.com, Pepsi Beverages Company, and Madison Square Garden, the authors have determined a key set of characteristics displayed by members of breakthrough teams, and have identified a set of rules great teams live by, which generate a culture of positive teamwork and lead to extraordinary results. Using a wealth of specific stories from the breakthrough teams they studied, they reveal in detail how these teams operate and how managers can transform their own teams into such high performers by fostering: Stronger clarity of goals Greater trust among team members More open and honest dialogue Stronger accountability for all team members Purpose-based recognition of team members' contributions The remarkable stories they tell about these teams in action provide a simple and powerful step-by-step guide to taking your team to the breakthrough level, igniting the passion and vision to bring about an Orange Revolution.
