 Vols. 9-17 include decisions of the War Labor Board.  
*Statehood for Hawaii* Columbia University Press  
 Offering a rich and insightful road map of Asian American history as it has evolved over more than 200 years, this book marks the first systematic attempt to take stock of this field of study. It examines, comments, and questions the changing assumptions and contexts underlying the experiences and contributions of an incredibly diverse population of Americans. Arriving and settling in this nation as early as the 1790s, with American-born generations stretching back more than a century, Asian Americans have become an integral part of the American experience; this cleverly organized book marks the trajectory of that journey, offering researchers invaluable information and

interpretation. Part 1 offers a synoptic narrative history, a chronology, and a set of periodizations that reflect different ways of constructing the Asian American past. Part 2 presents lucid discussions of historical debates—such as interpreting the anti-Chinese movement of the late 1800s and the underlying causes of Japanese American internment during World War II—and such emerging themes as transnationalism and women and gender issues. Part 3 contains a historiographical essay and a wide-ranging compilation of book, film, and electronic resources for further study of core themes and groups, including Chinese, Japanese, Filipino, Hmong, Indian, Korean, Vietnamese, and others.

### **Duration of Collective Bargaining Agreements in Hawaii**

Health Communications, Inc.

"After returning to Hawai'i, Ariyoshi plunged into union activities and, most notably, the editing of the Honolulu Record, the voice of labor during the turbulent and bitter postwar conflicts between unions and Hawai'i's ruling elites. Following his 1951 arrest on charges of being a Communist, Ariyoshi became known as one of the "Hawai'i Seven" and spent the next year writing "My Thoughts for which I Stand Indicted" for the Record. The present

volume gathers together in one place this energetic, thoughtful, and engaging work chronicling a life lived at the center of events that transformed Hawai'i, America, China, and the world."--BOOK JACKET.

A ground-breaking study of the Hadrami community in Indonesia. The book considers the evolution of Indonesian Arab identity in the context of the rise of nationalism throughout Southeast Asia during the early twentieth century.

The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States (1789-1824), the Register of Debates in Congress (1824-1837), and the Congressional Globe (1833-1873)

Hawaii has been referred to as the crossroads of the Pacific. This book illustrates how many world cultures and customs meet in the Hawaiian Islands, providing a chronological overview highlighted by extracts from important works that express Hawaii's unique history. This work starts with chronological chapters on general and ancient Hawaiian history and continues through early Western contact, the 19th century, and Hawaii's annexation to the United States. Topics include politics, religion, social issues, business, ethnic groups, and race relations.

With a foreword written by former presidential candidate Michael Dukakis, this book portrays President Barack Obama as a true child of Hawai'i and explains why he believes that America can achieve even more greatness by learning from the multicultural

customs of the 50th state. Obama's aspiration to transform the United States using Hawai'i as his model has been a conspicuous theme in his books and speeches over the years. In them, he extols Hawai'i's multicultural ethos, describing how a normative, problem-solving mindset predicated on mutual respect and harmonious interchange is inculcated in the culture, politics, and society of the Islands. Indeed, this "Aloha Spirit" is imbued in Barack Obama, is part of what made him irresistibly charismatic as a candidate, and explains why voters in 2010 were baffled at his demeanor after he became the 44th President of the United States. This unique book examines Obama's decisions as an adult and as president and exposes how they are directly linked to the culture of Hawai'i and Obama's multicultural life as a child. The author and contributors also describe the ways in which native Hawaiians were dispossessed of their sovereignty and their land, how they steadfastly sought justice, and how their quest served as a model for Obama's mobilization of support for his candidacy.

As roads and sewers now have reached their limits and escalating property values have ousted kamaainas, the growth of the visitor industry has forced the people of Maui to make difficult choices about the future development of their island."--BOOK JACKET.
