## ADALYNN LIA

**Alkaline Rocks and Carbonatites of the World** M.E. Sharpe  
 The rainy season, terrain, and financial hardships have made the construction of highways and railroads nearly impossible in many parts of Africa. This lack of modern infrastructure has been overcome in some part by the development of air transportation. Hundreds of carriers--both small and large, government owned and private--have connected all parts of the continent. Together, they have had a tremendous impact on the African economy and the people. Country-by-country, this comprehensive reference work provides brief histories of over 700 airlines in 54 African nations. Each entry has the years of operation of the carrier, along with information on its origin, growth, and route structure. Aircraft usage, including registration numbers and nicknames, is covered in many cases. Any crashes involving aircraft in the carrier's fleet are also noted. An appendix gives the location of all major African airports.

Reconnaissance au Maroc is Charles de Foucauld's adventurous account of his Moroccan explorations. For eleven months in 1883-84, Foucauld travelled through a country then off-limits to Europeans, documenting its landscape and charting its waterways. He travelled in disguise as a Russian rabbi, Joseph Aleman, accompanied by the real rabbi Mardochee Aby Serour, and sought hospitality in the mellahs, Jewish quarters, of villages along their route. Foucauld meticulously recorded every day of his time in Morocco, and by the time his memoir was published in 1888 it had already garnered praise in France and the prestigious gold medal from the Société de Géographie de Paris. The book is more than merely a travel memoir, however: as an artefact of cultural and religious encounter, and as a scientific compendium, Reconnaissance au Maroc offers an extraordinary glimpse of the late-nineteenth century French mentality toward North Africa, as well as a cross-section of Moroccan society in the pre-colonial era. Rosemary Peters-Hill's volume translates Foucauld's work into English for the first time, situating Reconnaissance within the contexts of both late-nineteenth century French writing about ailleurs, other places, and Foucauld's own journey through

Morocco: the "other" place where, paradoxically, he found his true self and calling.

Alluring and rich, Lalla Essaydi's work plays with the representation of Islam and the Orient in the West. Her work reaches far beyond Islamic culture to invoke the Western fascination with the veil and the harem as expressed in 19th-century Orientalist painting which suggested exoticism, fantasy and mysticism were abound in Arab culture. In an act of reclamation, Essayadi re-uses this visual language - the exquisite architecture, the interior decor, the clothing - to turn both the visualisation of women and of Islam in a different direction.

"The World of Child Labor" details both the current and historical state of child labor in each region of the world, focusing on its causes, consequences, and cures. Child labor remains a problem of immense social and economic proportions throughout the developing world, and there is a global movement underway to do away with it. Volume editor Hugh D. Hindman has assembled an international team of leading child labor scholars, researchers, policy-makers, and activists to provide a comprehensive reference with over 220 essays. This volume first provides a current global snapshot with overview essays on the dimensions of the problem and those institutions and organizations combating child labor. Thereafter the organization of the work is regional, covering developed, developing, and less developed regions of the world. The reference goes around the globe to document the contemporary and historical state of child labor within each major region (Africa, Latin and South America, North America, Europe, Middle East, Asia, and Oceania) including country-level accounts for nearly half of the world's nations. Country-level essays for more developed nations include historical material in addition to current issues in child labor. All country-level essays address specific facets of child labor problems, such as industries and occupations in which children commonly work, the national child welfare policy, occupational safety regulations, educational system, and laws, and often highlight significant initiatives against child labor. Current statistical data accompany most country-level essays that include ratifications to UN and ILO conventions, the Human Development Index, human capital indicators, economic indicators, and national child labor surveys conducted by the Statistical Information and Monitoring Program on Child Labor. "The World of Child Labor" is designed to be a self-contained, comprehensive reference for high school, college, and professional researchers. Maps, photos, figures, tables, references, and index are included.

It has been said that Marrakech awakens all of the senses. Whether it is seeing the intricate zellige tilework; smelling the various spices sold at the souks; hearing the call to prayer emanate from the nearby mosques; touching the supple leather used to make a pair of babouches (leather sandals); tasting a flavorful tagine, Marrakech never fails to excite. Located just west of the Atlas Mountains, the city has been inhabited by Berber farmers for centuries. It has been dubbed the "Ochre City" because of the proliferation of red sandstone buildings and the red city walls, which now enclose the Medina, home to Jemaa el-Fnaa, one of the busiest squares in Africa.

*Encyclopedia of African Airlines* Lulu.com

Adventure travel in search of a lost friend to Essaouria, a centre of counter-culture and Berber tradition in late Twentieth Century Morocco. The main character returns years later to recall the two friends' journey further south to the northern Sahara, where colonial history is ending, as events unfolded that changed their personal histories.

**Charles de Foucauld's Reconnaissance au Maroc, 1883-1884** Routledge

This report sheds light on major labor market issues and challenges that Morocco faces. It is the first phase of the programmatic jobs program jointly undertaken with the government of Morocco. The report is a jobs diagnostic that analyzes microdata mainly from Labor Force Surveys and employs new analytical methods to identify the main trends in the labor market. The key challenges that emerge will provide

the basis for a deeper analysis and policy formulation in the next phase of this program. "Morocco's Jobs Landscape" identifies four priorities: accelerate structural transformation to create more and better jobs in higher-productivity sectors, encourage formalization and improve the quality of jobs, increase female labor force participation, and address youth inactivity and its long-term consequences. Morocco has made significant economic progress over the past 20 years, which has raised the living standards of its people. However, Morocco's economic growth has not been labor-intensive enough to absorb its growing working-age population. It has had a low capacity to generate jobs, and the rate of job creation slowed after the 2008 financial crisis. Morocco is trying to overcome the "middle-income trap," which has been preventing its convergence with more affluent middle-income countries. The government of Morocco has called for a new inclusive development model. The new model must address regional development imbalances, facilitate inclusion for youth and women, and continue to foster labor force skills upgrading. The COVID-19 pandemic and resultant safety measures have halted or slowed economic activity, which is worsening the labor market situation. The pandemic undoubtedly complicates prospects for jobs-led growth, and it will make the challenges highlighted in this report even more urgent and deserving of policy makers' attention.

Eugène Delacroix's Noce Juive Dans Le Maroc Ben Guttery  
With an infectious blend of humor, satire, and biting social commentary, Yassin Adnan gives readers a portrait of contemporary Morocco—and the city of Marrakech—told through the eyes of the hapless Rahhal Laâouina, a.k.a. the Squirrel. Painfully shy, not that bright, and not all that popular, Rahhal somehow imagines himself a hero. With a useless degree in ancient Arabic poetry, he finds his calling in the online world, where he discovers email, YouTube, Facebook, and the news site Hot Maroc. Enamored of the internet and the thrill of anonymity it allows, Rahhal opens the Atlas Cubs Cyber Café, where patrons mingle virtually with politicians, journalists, hackers, and trolls. However, Rahhal soon finds himself mired in the dark side of the online world—one of corruption, scandal, and deception. Longlisted for the International Prize for Arabic Fiction in 2017, *Hot Maroc* is a vital portrait of the challenges Moroccans, young and old, face today. Where press freedoms are tightly controlled by government authorities, where the police spy on, intimidate, and detain citizens with impunity, and where adherence to traditional cultural icons both anchors and stifles creative production, the online world provides an alternative for the young and voiceless. In this revolutionary novel that recalls Junot Díaz's *The Brief Wondrous Life of Oscar Wao* and Dave Eggers's *The Circle*, Adnan fixes his lens on young Rahhal and his contemporaries as they navigate the perilous and changing landscape of the real and virtual worlds they inhabit.

Les Femmes Du Maroc Syracuse University Press  
This text describes and provides ready access to the literature for all known occurrences of alkaline igneous rocks and carbonatites of Africa. Over 1000 occurrences are described from 40 countries. The descriptions include geographical co-ordinates and information of structure, general geology, rock types, petrography, mineralogy, ages, economic aspects and principal references. There are 348 geological and distribution maps and a locality index.

Le phénomène OVNI est bien présent au Maroc, ce n'est pas seulement dans les pays tels la France, les Usa, l'Italie etc.... qu'il est localisé. Au Maroc plusieurs centaines d'observations ont été rapportées et figurent dans « L'HISTOIRE DES OVNIS AU MAROC ». Le problème est sérieux, lors d'une observation en 1976, sa majesté le roi Hassan II s'en est inquiété et a demandé aux autorités américaines des informations sur le sujet. En France le dossier OVNI est également pris au sérieux, tout comme dans plusieurs pays et un service spécialisé au sein même du CNES (Centre National d'Études Spatiales) : le GEIPAN (Groupe d'Études et d'informations sur les Phénomènes aérospatiaux Non Identifiés) est chargé de l'étudier et rend compte au grand public, via un site internet spécialisé, de l'avancement de ses recherches. Gérard LEBAT.

A common objective of saint veneration in all three Abrahamic religions is the recovery and perpetuation of the collective memory of the saint. Christianity, Judaism, and Islam all yield intriguing similarities and differences in their respective conceptions of sanctity. This edited collection explores the various literary and cultural productions associated with the cult of saints and pious figures, as well as the socio-historical contexts in which sainthood operates, in order to better understand the role of saints in monotheistic religions. Using comparative religious and anthropological approaches, an international panel of contributors guides the reader through three main concerns. They describe and illuminate the ways in which sanctity is often configured. In addition, the diverse cultural manifestations of the cult of the saints are examined and analysed. Finally, the various religious, social, and political functions that saints came to play in numerous societies are compared and contrasted. This ambitious study covers sanctity from the Middle Ages until the contemporary period, and has a geographical scope that includes Europe, Central Asia, North Africa, the Americas, and the Asian Pacific. As such, it will be of use to scholars of the history of religions, religious pluralism, and interreligious dialogue, as well as students of sainthood and hagiography.
