A classic work of American literature that has not stopped changing minds and lives since it burst onto the literary scene, *The Things They Carried* is a ground-breaking meditation on war, memory, imagination, and the redemptive power of storytelling. *The Things They Carried* depicts the men of Alpha Company: Jimmy Cross, Henry Dobbins, Rat Kiley, Mitchell Sanders, Norman Bowker, Kiowa, and the character Tim O'Brien, who has survived his tour in Vietnam to become a father and writer at the age of forty-three. Taught everywhere—from high school classrooms to graduate seminars in creative writing—it has become required reading for any American and continues to challenge readers in their perceptions of fact and fiction, war and peace, courage and fear and longing. *The Things They Carried* won France's prestigious Prix du Meilleur Livre Etranger and the Chicago Tribune Heartland Prize; it was also a finalist for the Pulitzer Prize and the National Book Critics Circle Award.

 With more universities facing financial difficulty and academic libraries being asked to do more with less, fundraising has been transformed from a luxury to a necessity. Now, more than ever, academic libraries need to know how to effectively obtain and

steward donors. Most fundraising books are written from perspectives that are not always relevant to the complex environment that academic libraries must navigate. *Fundraising for Academic Libraries: A Practical Guide for Librarian* is written just for academic libraries. The authors demystify fundraising to enable those to work in an academic library to feel confident in their ability to obtain contributions, sponsorships, and grants for their libraries. From major gifts to events to special collections, this book looks at academic library fundraising holistically. Not a one-size-fits-all approach, chapters explore multiple methods that an academic library can use to identify potential donors, ask for gifts, and retain existing contributors. This book also connects readers with extensive fundraising resources so they can readily apply the book's tips and techniques to their own library environment. Whether they are interested in approaching a local business to provide a prize for a silent auction or asking for an established donor for an estate gift, novice academic library fundraisers will find step-by-step instructions that help them navigate a variety of situations. By providing readers with practical fundraising tools including flow charts, simple proposal and gift templates as well as sample donor correspondence, this book enables academic libraries to be able to start and advance their own development programs.

A notary is a public official responsible for independently verifying signatures and oaths. Depending on how a document is written, a notarization serves to affirm the identity of a signer and the fact that they personally executed their signature. A notarization, or notarial act, officially documents the identity of a party to a document or transaction and the occasion of the signing that others can rely upon, usually at face value. A notary's authentication is intended to be reliable, to avoid the inconvenience of having to locate a signer to have them personally verify their signature, as well as to document the execution of a document perhaps long after the lifetime of the signer and the notary. An oath is a sworn statement. In most cases a person will swear that a written statement, oral statement, or testimony they are about to give is true. A notary can document that the notary administered an oath to an individual.
