 Michael Winter's book presents a panoramic view of Ottoman Egypt from the overthrow of the Mamluk Sultanate in 1517 to Bonaparte's invasion of 1798 and the beginning of Egypt's modern period. Drawing on archive material, chronicle and travel accounts from Turkish, Arabic, Hebrew and European sources as well as up-to-date research, this comprehensive social history looks at the dynamics of the Egyptian-Ottoman relationship and the ethnic and cultural clashes which characterised the period. The conflicts between Ottoman pashas and their Egyptian subjects and between Bedouin Arabs and the more sedentary population are presented, as is the role of women in this period

and the importance of the doctrinal clash of Islam both orthodox and popular, Christianity and Judaism. Winter's broad survey of a complex and dynamic society draws out the central theme of the emergence, from a period of ethnic and religious tension, of an Egyptian consciousness fundamental to Egypt's later development.

Educational Series

Introducing techniques for making pop-ups from one sheet of card, the third title in this series on paper engineering takes folding techniques into the third dimension. Each chapter introduces a new technical idea and shows how that technique can be adapted in many different ways, or combined with techniques from earlier chapters. These 3-D techniques can be incorporated into any design where typography and/or illustration are used, including mail-shots, personal publicity, invitations, business cards and greetings cards. With their emphasis on surface design over complex cutting, the pop-ups have an instant appeal for designers. Following the elegant, easy-to-follow style of Paul Jackson's other titles for Laurence King, Cut and Fold Techniques for Pop-Up Designs is an essential resource for marketing professionals and design students.
