Hip-hop and rap music have been a central part of youth cultures all around the world for decades. While every country has its own scene with a specific social and cultural context, the global hip-hop phenomenon also allows young people to integrate their regional identities within an increasingly international environment. The inclusion of rap and hip-hop lyrics in foreign language teaching makes a unique, transcultural approach possible that connects directly to the students' interests. This guidebook offers both teachers and students a wealth of authentic rap and hip-hop lyrics that can be used in Spanish and French as foreign-language classes. They can serve as exercises for listening and reading comprehension of all levels or as templates for entire teaching units. The accompanying website (www.rapromania.de) lends itself to the integration in various forms of multimedia teaching and learning.

This volume identifies and elaborates on the significance and functions of the various actors involved in the

development of family law in the Middle East. Besides the importance of family law regulations for each individual, family law has become the battleground of political and social contestation. Divided into four parts, the collection presents a general overview and analysis of the development of family law in the region and provides insights into the broader context of family law reform, before offering examples of legal development realised by codification drawn from a selection of Gulf states, Iran, and Egypt. It then goes on to present a thorough analysis of the role of the judiciary in the process of lawmaking, before discussing ways the parties themselves may have shaped and do shape the law. Including contributions from leading authors of Middle Eastern law, this timely volume brings together many isolated aspects of legal development and offers a comprehensive picture on this topical subject. It will be of interest to scholars and academics of family law and religion.

Twentieth Century Hodder Education

We all know that healthy partnerships are essential to fruitful boundary-crossing ministries, but how exactly do we create them? What barriers must be overcome, and what self-examination must we do? How do the legacies of colonialism, racism, and unhealed trauma impact missional collaborations today? In this doctoral thesis, Denyer reflects on these questions as she examines the history of relational dynamics between American and Congolese United Methodists in the North Katanga Conference (DR Congo). By surveying memoirs, magazines, and

journals, and conducting in-depth interviews, Denyer presents a complex and multifaceted example of a partnership that is in the process of decolonizing. More than just a history lesson, *Decolonizing Mission Partnerships* presents the questions, hard truths, pitfalls, and toxic assumptions we must face when attempting to be in mission together.

This volume is a collection of articles written by more than 40 scholars who work in the field of Arabic dialectology. All articles are revised versions of papers presented at the 9th Conference of the Association Internationale de Dialectologie Arabe (AIDA) held in Pescara in March 2011. The variety of dialects represented in the book engage various issues in Arabic dialectology - such as sedentary and Bedouin dialects, sociolinguistic phenomena, and the written dimension - investigated from both synchronic and diachronic perspectives. The broad range of meaningful subjects that are tackled in the book offer an important contribution to the current debates on general linguistics and sociolinguistics, Arabic linguistics, Arabic literature, as well as Semitic and Islamic studies. This monograph is the first large-scale corpus analysis of French *il y a* clefts.

While most research on clefts focusses on the English 'prototypical' *it*-cleft and its equivalents across languages, this study examines the lesser-known *il y a* clefts - of both presentational-eventive and specificational type - and provides an in-depth analysis of their syntactic, semantic and discourse-functional properties. In addition to an extensive literature review and a comparison with Italian *c'è* clefts and with French *c'est* clefts, the strength of the study lies in the critical approach it develops to the common definition of clefts. Several commonly used criteria for clefts are applied to the corpus data, revealing that these criteria often lead to ambiguous results. The reasons for this ambiguity are explored, thus leading to a better understanding of what constitutes a cleft. In this sense, the analysis will be of interest to specialists of Romance and non-Romance clefts alike.

"Henrietta Nyamnjoh must be highly commended for her initiative and courage to tackle in-depth research into the hazardous and largely unpredictable reality of boat migration, with a view to erasing existing misconceptions, false and partial explanations, and to enhancing our understanding. This is an original and innovative piece of work - well-written and well-argued. It certainly deserves a wide readership even beyond the normal academic and policy-making circles." --Book Jacket.

Talk of repair has become ubiquitous in recent years. In the age of trauma culture, art and literature have a new purpose: to do justice, to console, comfort, and heal. Drawing on works of twenty-first-century French-language literature, this monograph shows how literature can not only serve as a means of "personal development", but expand our capacity for empathy, help repair the "brokenness" implied in victimhood, and redress individual and collective traumas. Centered on a critical reflection on discourses of repair (and reparations), it questions the canonical

theories on the functions of literature and proposes a new way of writing (and reading) literary history.

 Early in his career, Fernand Brunner became one of the few specialists on Ibn Gabirol, a Jewish philosopher and poet in 11th-century Spain, whose treatise, the Fons vitae, is known only in Latin translation. Brunner showed the coherence of this rarely studied version of Platonism and traced its impact on the scholastic philosophy of the succeeding centuries. His work was guided by a systematic interest in Platonic solutions to such problems as the relations of matter and form, and of God to the

world. This volume includes a number of previously unpublished papers, several of which also provide broad expositions of a Platonic ontology. The author makes his reader aware that arguments as well as images must be taken seriously in the attempt to approach the Platonic tradition. Dès le début de sa carrière, Fernand Brunner est rapidement devenu l'un des rares spécialistes d'Ibn Gabirol, le poète philosophe juif espagnol du 11e siècle - dont le traité, le Fons vitæ, n'est connu qu'en version latine. Guidé dans ses recherches par un intérêt systématique pour les solutions platoniciennes aux problèmes des rapports entre la forme et la matière, et entre Dieu et le monde, Brunner a démontré la cohérence de cette interprétation rarement étudiée du platonisme et en a retracé l'effet sur la philosophie scolastique des siècles suivants. Ce volume comprend plusieurs exposés inédits traitant de l'ontologie platonicienne dont la compréhension, selon Brunner, est essentielle à tout historien de la philosophie. L'auteur fait prendre conscience à ses lecteurs de l'importance des arguments, tout comme des métaphores, dans toute tentative d'approche de la tradition platonique.
