 Taxation The word tax is based on the Latin word 'Taxo' which means to estimate. Tax means to impose a financial charge or other levy upon a taxpayer on an individual or legal entity by a state or the functional equivalent of a state such that failure to pay is punishable by law. It is imposition of compulsory levies on individuals or entities by government. Taxes are levied in almost every country of the world, primarily to raise revenue for government expenditures, although they also serve other purposes as well. In modern economies taxes are the most important source of government revenue. Taxes differ from other sources of revenue in that they are compulsory levies and are unrequited—i.e., they are generally not paid in exchange for some specific thing, such as a particular public service, the sale of public property, or the issuance of public debt. While taxes are presumably collected for the welfare of taxpayers as a whole, the individual taxpayer's liability is independent of any specific benefit received.

 This book is about the experiences of an eighty-four-year-old retired officer of the Indian Air Force. He joined the Royal Indian Air Force in 1949 and retired as an Air Commodore from the Indian Air Force in 1986. The book includes his life as an enlisted airman, his experiences as a qualified engineering officer in helicopter, transport and fighter squadrons, his training at the Defence Services Staff College, Wellington, and subsequent staff appointments, and about his tenure as a military diplomat at the Indian Embassy in Moscow and appointment as the commanding officer of an Air Force Station. Details of his life as an executive in Daimler-Benz Aerospace for a decade after retirement are also mentioned in the narrative.

 Fiction Book in English The year is 1985. A brilliant young girl, full of promise, has just begun classes at her local college. Rema is excited about this new phase in her life, when all hell breaks loose. She begins to be harassed by a young man from the law college, during the bus journeys from home to college and back. Her confidence is shattered, her sense of self destroyed. Although things take a turn for the better when she makes a new friend in college, her troubles are far from over. Eventually, she gets married to a young lawyer but her marriage is a trap from which there is no escape. To make matters worse, one day the man who abused her when she was in college re-enters her life. He leaves no chance to subject her to further abuse and violence. Rema is at a loss about how to deal with this impossible situation. What will Rema do? How will she turn the situation around? How will she face the demon who has taken it upon himself to take away everything she holds dear? This is the moving and uplifting story of a woman who refuses to let the hostile conditions of her life bring her down. She fights through everything to emerge stronger and better. Unfortunately, she has to take extreme measures to fight her abuser. This is an important commentary on women's place in contemporary Indian society and the conditions of their existence. Rema's story brings with it a slice of life in Calicut, a city located in north Kerala. To watch the book trailer video click **The Journal of English Language Teaching (India)**.  A Journey through the Jeevitha Nauka by Haridasan T.M., narrates his experiences in life and brings out the importance of the nature

driven and man-made evolution of the generation gap and the consequent cultural variations in human life. These changes are essential for our development, and to make this development sustainable, humanity should be ready at different age levels to make self-generated reforms in their mindsets and lifestyles. The author attempts to reveal how he made his experiments to approach this goal. From non-electrified dwelling in a rural hamlet, his journey to his present day life in a modern apartment in a bustling city met many rough and smooth paths. The various roles in his life, as a child, a dutiful son, a loving husband and father, along with being an affectionate grandparent in the home front, and as a student, teacher, researcher, administrator, social reformer and scientific consultant in the professional front gave him an opportunity to become a humane human being and responsible citizen. His revelations, it is hoped, would generate a sense of a rededication in our youth for shaping a glowing harmonious society.

(30 Minute Summary Guide of Napoleon Hill's Think and Grow Rich) Oswaal Books and Learning Private Limited

This book offers a critical analysis of core concepts that have influenced contemporary conversations about environment-society relations in academic, political, and civil circles. Considering these conceptualizations are currently shaping responses to environmental crises in fundamental ways, critical

reflections on concepts such as the Anthropocene, metabolism, risk, resilience, environmental governance, environmental justice and others, are well-warranted. Contributors to this volume, working across a multitude of areas within environmental social science, scrutinize underlying worldviews and assumptions, asking a common set of key questions: What are the different concepts able to explain? How do they take into account society-environment relations? What social, cultural, or geo-political biases and blinders are inherent? What actions or practices do the concepts inspire? The transdisciplinary engagement and reflexivity regarding concepts of environment-society relations represented in these chapters is needed in all spheres of society—in academia, policy and practice—not the least to confront current tendencies of anti-reflexivity and denialism. Environment and Society Oswaal Books and Learning Private Limited
