They say writing is rewriting. So why does the second part get such short shrift? *Refuse To Be Done* will guide you through every step of the novel writing process, from getting started on those first pages to the last tips for making your final draft even tighter and stronger. From lauded writer and teacher Matt Bell, *Refuse to Be Done* is encouraging and intensely practical, focusing always on specific rewriting tasks, techniques, and activities for every stage of the process. You won't find bromides here about the "the writing Muse." Instead, Bell breaks down the writing process in three sections. In the first, Bell shares a bounty of tactics, all meant to push you through the initial conception and get words on the page. The second focuses on reworking the narrative through outlining, modeling, and rewriting. The third and final section offers a layered approach to polishing through a checklist of operations, breaking the daunting project of final revisions into many small, achievable tasks. Whether you are a first time novelist or a veteran

writer, you will find an abundance of strategies here to help motivate you and shake up your revision process, allowing you to approach your work, day after day and month after month, with fresh eyes and sharp new tools.

*The Fire Prophecy* Llewellyn Worldwide

A complete guide to the theory, practice, and history of Mazdan magic, the first organized system of magic • Provides a complete curriculum of magical study and initiation centered on exercises keyed to the sacred Zoroastrian calendar • Details advanced magical rituals and practices based on archaic Persian formulas, including fire rituals and divine invocations • Explores the history and lore of Persian magic, explaining how the author reconstructed the original Mazdan system of magic Stephen Flowers explores the history, theory, practice, rituals, and initiations of the Mazdan magical system practiced by the Magi of ancient Persia, who were so skilled and famed for their effectiveness that their name came to mean what we today call "magic." The prestige and reputation of the Magian priests of Mazda is perhaps most iconically recorded in the Christian story of the Three Wise Men who visited newborn Jesus. The author explains how the religious branch of the Mazdan magical system, founded by the Prophet Zarathustra, is known in the West under the name Zoroastrianism. He reveals how the Zoroastrian religion, which acts as a matrix for the symbols and formulas of the original form of magic, has existed for almost four thousand years with roots going back even deeper into the Indo-European past. The author reveals how all other known systems of magic have borrowed from this tradition, providing the clues that enabled him to reformulate the original Mazdan system. He reviews what the Greeks, Romans, Hebrews, Christians, and Chinese said about the Iranian-Persian tradition of the Mazdans and their invention of a magical technology. He explains how the ultimate aim of the original form of magic was not only individual wisdom, self-development, and empowerment, but also the overall

betterment of the world. Outlining the theoretical principles of this method, which can be applied in practical ways to deepen the effectiveness of these magical operations, the author details a complete curriculum of magical study and initiation based on a series of graded exercises keyed to the sacred Zoroastrian calendar. He then offers a series of more advanced magical rituals and practices based on archaic Persian formulas, including fire rituals and divine invocations. Providing a manual for the original magical system used by the members of the Great Fellowship, this book guides you toward the comprehensive practice of the Mazdan philosophy, the ultimate outcome of which is ushta: Happiness.
