The magnificent prints of
Ernst Haeckel, who
captured the amazing

forms of the natural
world, spring to life in this
exciting pop-up book that
reveals the vibrant
intricacy of his work. The
book *Art Forms in Nature*
is a collection of prints,
made by the scientist
Ernst Haeckel, of an
enormous variety of flora
and fauna from the
sea—including microscopic
Radiolaria, starfish, and
jelly fish. Since Prestel

published it in 1998, the
book has been a favorite
with artists, designers,
illustrators, and anyone
who enjoys the wondrous
forms of the natural
world. Now paper
engineer Maïke
Biederstaedt has
transformed Haeckel's
transcendent work into a
three-dimensional book
that allows readers to
appreciate Haeckel's vivid

colors, exceptional precision, and fascination with patterns and geometry. This stunning book features seven pop-ups that allow readers to see nature's brilliance the way that Haeckel did—as marvelous, mathematically based creations that support his theory of the unity of all living things. Certain to appeal to his huge variety of fans, this pop-up version of a timeless classic will be treasured for years to come.

Flora and the Flamingo

This book offers a fresh take on the Victorian notion of expressing oneself with the symbolic language of flowers. *Thinking of You* offers a soothing array of blooms with empathetic meanings. Each spread features a flower that "flips up" from the page, a brief description of the flower's symbolism, and its special message for the recipient. When all of the blossoms are popped up, the book can be displayed on a desk just like a vase of flowers. Plants and Empire Rizzoli

Publications
The next installment in the popular Big Book series is a fascinating introduction to some of the most magnificent and surprising flowering plants from around the world. In *The Big Book of Blooms*, the next installment in the wildly successful Big Book series, Yuval Zommer's charming illustrations bring to life some of the most colorful, flamboyant, and unusual flowers from across the globe. In the opening pages, readers will learn all about botany, including how to

recognize different types of flowers. Subsequent pages illustrate the various habitats that are home to flora such as pitcher plants, the giant water lily, and the weirdly wonderful corpse flower. Readers will discover which flowers are endangered and why some blooms are fragrant or colorful, not to mention grisly details about carnivorous and poisonous flowers. This title pairs picture-book charm and concise, informative text to create a beautiful book for

children to return to. Zommer's quirky illustrations appeal to young readers, who will relish these fun and amazing facts about the world's most exciting plants. Woodland Painting Party Oxford University Press There is a rich, beautiful, complex, and diverse narrative being told by African Americans and other persons of color in the floral marketplace. It is long pastime to recognize their excellence and contributions to cut flower farming and

floristry. Garden writer, podcaster, and blogger Teresa J. Speight of Cottage in the Court shares her interviews and profiles with leading pioneers and explores their lives rooted in the floral world. Firefly Books Botanical and scientific illustration share many common themes - the meticulous observation, the crucial composition, the precision of rendering and the accuracy of colour are all intrinsic to this niche genre of art. In this beautiful book, Sarah Jane

Humphrey explains the techniques of the botanical artist but also introduces ideas for scientific illustration, so that the illustrator has a fuller understanding when rendering the natural world. Detailed instruction on all aspects of illustration is given, from application and materials to research and field trips. There is practical advice on using monochrome and colour theory to bring your illustration to life. Illustrated with over 200 of the author's exquisite illustrations, it is an

invaluable companion for both beginners and experienced artists, as well as a source of inspiration and joy. Beautifully illustrated with 429 colour illustrations including 200 of the author's own illustrations.

Thinking of You (A Bouquet in a Book)
Chronicle Books

This collection of pop-up paper bouquets from the creator of the bestselling *Paper Blossoms* celebrates the beauty of the four seasons. Each breathtaking arrangement—spring

daffodils, summer sunflowers, autumn foliage, and a winter wreath—makes a distinctive centerpiece and brings surprise to any décor. A unique gift for any occasion, *Paper Blossoms for All Seasons* delights with color, joy, and beauty throughout the year.

How to Find Flower Fairies
Harvard University Press

A brilliant novelty-packed introduction to the world in this fantastic junior pop up atlas.

Flora of Middle-Earth
The Crowood Press

David Attenborough meets Lemony Snicket in *The Big Bad Book of Botany*, Michael Largo's entertaining and enlightening one-of-a-kind compendium of the world's most amazing and bizarre plants, their history, and their lore. *The Big, Bad Book of Botany* introduces a world of wild, wonderful, and weird plants. Some are so rare, they were once more valuable than gold. Some found in ancient mythology hold magical abilities, including the power to turn a person to

stone. Others have been used by assassins to kill kings, and sorcerers to revive the dead. Here, too, is vegetation with astonishing properties to cure and heal, many of which have long since been lost with the advent of modern medicine. Organized alphabetically, *The Big, Bad Book of Botany* combines the latest in biological information with bizarre facts about the plant kingdom's oddest members, including a species that is more poisonous than a cobra

and a prehistoric plant that actually "walked." Largo takes you through the history of vegetables and fruits and their astonishing agricultural evolution. Throughout, he reveals astonishing facts, from where the world's first tree grew to whether plants are telepathic. Featuring more than 150 photographs and illustrations, *The Big, Bad Book of Botany* is a fascinating, fun A-to-Z encyclopedia for all ages that will transform the way we look at the natural world.

Happy Day (Bouquet in a Book) Liveright Publishing
Fans of the hit picture book *I Don't Want to Be a Frog* will love this silly companion featuring a frog that's still as stubborn as ever and his surprisingly patient father. "Reminiscent of Mo Willems's 'Elephant and Piggie' series"—Publishers Weekly *Frog* does NOT want to grow up. Doesn't need to be tall. Doesn't want to be able to jump high enough to see the tree frogs. He's just FINE being small. Besides, if you grow up, you don't

get to do fun things like jump in mud puddles with your best friend, Pig. Do you? This hilarious story—which uses humor to teach that it's great being exactly who you are—is sure to bring a smile to every kid who just wants to stay a kid, in addition to those who are the smallest in their class. It's a sly and smartly funny tale that will have children and parents laughing together. And look for all the books in this hilarious series: *I Don't Want to Be a Frog There's Nothing to Do!* *I Don't Want to Go to*

Sleep Flora Harper Collins
A compact edition of Joseph Banks' extraordinary botanical engravings of flora discovered on Captain Cook's first voyage. Joseph Banks accompanied Captain Cook on his first voyage around the world from 1768 to 1771. A gifted and wealthy young naturalist, Banks collected exotic flora from Madeira, Brazil, Tierra del Fuego, the Society Islands, New Zealand, Australia, and Java, bringing back over

1,300 species that had never been seen or studied by Europeans. On his return, Banks commissioned over 700 engravings. Known collectively as Banks' Florilegium, they are some of the most precise and exquisite examples of botanical illustration ever created. The Florilegium was never published in Banks' lifetime, and it was not until 1990 that a complete set in color was issued under the direction of the British Museum. It is from these prints that the new compact edition

of Joseph Banks' Florilegium is selected, as directed by David Mabberley, who has provided expert botanical commentaries. Art historian Mel Gooding sets the works in context while an afterword by Joe Studholme describes the history of modern printing. Joseph Banks' Florilegium is not only a great work of science, but also a major achievement in collaborative Enlightenment art and a volume of outstanding beauty. *Follow the Star* National

Geographic Books
Snowfall quietly blankets the landscape. Critters scurry in search of food, while others hibernate in wait for warmer weather. Each spread is packed with unique interactive pop-ups, changing pull-tabs, and fascinating facts within this winter pop-up book.

Using clever disguises, fairies live and hide in treetops, forests, gardens, marshes, and hedgerows.

Paper Blossoms for All Seasons National Geographic Books

"Connections uses vibrant photos and minimal text in specially selected books to create conversation among caregivers and those in the moderate to severe stages of Alzheimer's/dementia. This experience can help create special moments and memories for the caregiver as well as calming and reducing stress for the individual in care."--

Joseph Banks' Florilegium

4 Seasons of Pop-Up Takes readers on a journey across continents and cultures to discover the endless ways artists and image-makers have employed floral motifs throughout history. Showcasing the diversity of blooms from all over the world, Flower spans a wide range of styles and media - from art, botanical illustrations, and sculptures to floral arrangements, film stills, and textiles - and follows a visually stunning sequence with works, regardless of period,

thoughtfully paired to allow interesting and revealing juxtapositions between them.

A Walk Through the Woods National Geographic Books

The intricate beauty of snowflakes is fully revealed in this amazing pop-up book. An enchanting explanation of the uniqueness of snowflakes supplemented by information about the real life Snowflake Man, Wilson A. Bentley, who was the first to photograph snowflakes, engages readers of all

ages. Each of the seven spreads features fully illustrated pop-ups and delicate mixed media that are sure to surprise and delight.

The Incredible Pop-Up Maze Templar Books

"This book offers a fresh take on the Victorian notion of expressing oneself with the symbolic language of flowers. Happy Day features bright, cheery flowers with uplifting sentiments. Each spread features a flower that "flips up" from the page, a brief description of the flower's

meaning, and its special message for the recipient. When all of the blossoms are popped up, the book can be displayed on a desk just like a vase of flowers"--Amazon.com.

The Nation of Plants National Geographic Books

A comprehensive showcase of Makoto Azuma's striking flower art and botanical sculpture captured in stunning color photography. Since opening the floral shop JARDINS des FLEURS in Japan nearly two decades

ago, Makoto Azuma has been taking commissions from private clients, brands, and corporations from all over the world. He also founded AMKK (Azuma Makoto Kaju Kenkyujo), a group specializing in experimental and innovative floral creations that turn flowers and plants into a medium of self-expression. Juxtaposing the timeless yet transient beauty of flowers with incredibly diverse and striking settings, Azuma has produced work that has

adorned Rihanna's head on the cover of British Vogue and has been exhibited in nearly every corner of the world, from barren deserts and frozen tundras to the depths of the ocean and the edge of space itself. This breathtaking collection of Azuma's work includes more than sixty projects revealing the artist's incredible skill and delight in blurring the boundaries between nature and artifice.
