This is the story of the old days, our story, that of the 'slow emergence of the hominid, the difficult breakthrough of consciousness, the heavy rising of body to erect stance and the touching instability of first bipedalism, the clumsiness of first attempts to shape stone and the moving tenacity to improve them.' It is a story of science, paleo-anthropology, and its most recent advances. It is also the story of a life of research, illuminated by the discovery of the skeleton Lucy an object of endless fascination. What is the point of prehistory? It puts Man in its place. 'It teaches us who we are, how we became what we are and why.' This is everybody's history, not only to the people of Africa. Scientific facts are presented to the layperson in an understandable way, making for a fascinating read."

Now in its fourth edition, Alfred James' Mindfulness Exercises has been read by thousands of people the world over, and continues to be used by professionals in numerous therapy programs and medical centers. From stress and anxiety to PTSD and addiction, the exercises in this book help people from all walks of life find calm, clarity and contentment in everyday life. The exercises provide sanctuary from the stress of daily living; a place where we can stop and take leave of the sporadic nature of mind that constantly pulls our attention in different directions. Mindfulness exercises enable us to tame the judgmental and self-limiting projections of the mind and find mental clarity and inner peace. Whenever you feel overwhelmed, use these exercises to step into the present moment and find emotional balance.

Outsmart Yourself Indiana University Press

"This book is a history of love and the challenge love offers to the laws and customs of its times and places, as told through poetry from the Song of Songs to John Milton's Paradise Lost. It is also an account of the critical reception afforded to such literature, and the ways in which criticism has attempted to stifle this challenge. Bryson and Movsesian argue that the poetry they explore celebrates and reinvents the love the troubadour poets of the eleventh and twelfth centuries called fin'amor: love as an end in itself, mutual and freely chosen even in the face of social, religious, or political retribution. Neither eros nor agape, neither exclusively of the body, nor solely of the spirit, this love is a middle path. Alongside this tradition has grown a critical movement that employs a 'hermeneutics of suspicion', in Paul Ricoeur's phrase, to claim that passionate love poetry is not what it seems, and should be properly understood as worship of God, subordination to Empire, or an entanglement with the structures of language itself - in short, the very things it resists. The book engages with some of the seminal literature of the Western canon, including the Bible, the poetry of Ovid, and works by English authors such as William Shakespeare and John Donne, and with criticism that stretches from the earliest readings of the Song of Songs to contemporary academic literature. Lively and enjoyable in its style, it attempts to restore a sense of pleasure to the reading of poetry, and to puncture critical insistence that literature must be outwitted. It will be of value to professional, graduate, and advanced undergraduate scholars of literature, and to the educated general reader interested in treatments of love in poetry throughout history." A Cognitive Approach to John Donne's Songs and Sonnets W. W. Norton & Company

Beginning with the spectacle of hysteria, moving through the perversions of fetishism, masochism, and sadism, and ending with paranoia and psychosis, this book explores the ways that conflicts with the Oedipal law erupt on the body and in language in Chaucer's Canterbury Tales, for Chaucer's tales are rife with issues of mastery and control that emerge as conflicts not only between authority

and experience but also between power and knowledge, word and flesh, rule books and reason, man and woman, same and other - conflicts that erupt in a macabre sprawl of broken bones, dismembered bodies, cut throats, and decapitations. Like the macabre sprawl of conflict in the Canterbury Tales, this book brings together a number of conflicting modes of thinking and writing through the surprising and perhaps disconcerting use of "shadow" chapters that speak to or against the four "central" chapters, creating both dialogue and interruption.

How to Become an Alpha Male Bloomsbury Publishing

An insightful and moving account, *The Heart Moves in a Circular Direction* tells the story of Ingeborg Gubler Casey, nicknamed "Biby," who must come to terms with her mother's mental illness even as she battles fears that she will succumb to the same disease. While growing up, Biby shares her mother's delusional world but as a teen, conversations with her mother leave her in turmoil. After entering college, Biby tries to focus on her future. She cuts off contact with her mother, and, in her attempts to ward off guilt and anxiety, pretends she has no mother. When her older sister returns for a visit, they decide to visit their mother together. After an absence of ten years, Biby must summon all her courage to face her mother. Despite becoming a psychologist, she has little understanding of her own emotions, especially her conflicting feelings about her mother. After her father's death, as Biby re-engages with her mother, she finds herself embarked on a turbulent journey of self-discovery. She emerges more whole, and, as she begins to truly understand the depth of her legacy, she is brought closer to her mother.

"Sting's gift for prose and reverence for language, nearly the equal of his musical gifts, shine on every page. Even when *Broken Music* addresses the quixotic life of an aspiring rock & roller, it reads like literature from a more rarified time when adults didn't condescend to the vulgarities of pop culture." —Rolling Stone Having been a songwriter most of my life, condensing my ideas and emotions into short rhyming couplets and setting them to music, I had never really considered writing a book. But upon arriving at the reflective age of fifty, I found myself drawn, for the first time, to write long passages that were as stimulating and intriguing to me as any songwriting I had ever done. And so *Broken Music* began to take shape. It is a book about the early part of my life, from childhood through adolescence, right up to the eve of my success with the Police. It is a story very few people know. I had no interest in writing a traditional autobiographical recitation of everything that's ever happened to me. Instead I found myself drawn to exploring specific moments, certain people and relationships, and particular events which still resonate powerfully for me as I try to understand the child I was, and the man I became.

Swoon: Great Seducers and Why Women Love Them Springer

"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

A poetic, passionate and intensely personal exploration of colour written during the final year of Derek Jarman's life -- with a new introduction by Ali Smith. In *Chroma*, his most poetic and lyrical book, Derek Jarman explores the uses of colour. Shifting across the spectrum and from the medieval to the modern, he draws on the work of great colour theorists from Pliny to Leonardo. Interwoven with these musings are evocative memories from Jarman's childhood and illustrious career, along with reflections on his deteriorating health. Written a year before Jarman's death, and as his eyesight was failing, this is an intensely personal work; a paean from an artist seeking to memorialise the extraordinary power of colour even while it receded from his own life.

"Wild" Analysis and the Symptomatic Storyteller Sparrowhawk Publications

Scum Cinema is a social and cultural journey through the 100-year history of America's most critically derided, culturally reviled, and often misunderstood style of filmmaking - exploitation. From the very first feature-length exploitation film, 1913's *Traffic in Souls*, to *Reefer Madness*, *Mom and Dad*, *The Immoral Mr. Teas*, *Blood Feast*, *It's Alive*, *Ilsa: She-Wolf of the SS*, *The Toxic Avenger*, *The Human Centipede*, and many other films in between, exploitation films have been alternately called crude, disgusting, trashy, and occasionally brilliant. Their makers were often figures on society's social, cultural, and political margins. Some were hucksters looking to make a quick buck and others were passionate artists attempting to make a deeply-felt personal statement despite having few resources at their disposal. Exploitation films are far from a cultural oddity; they have existed for as long as film itself. Despite their reputation as a form of low culture, they were hardly garbage for the sake of being so; in their crudity and audacity they revealed unique observations about the society that produced them. Scum Cinema is the story of exploitation films and those who made them. Its research was conducted with academic rigor, but it is written in a style that will appeal to both the film student and the casual fan. Scum Cinema is one of the most detailed examinations of an often ignored style of American film, and is an essential addition to any serious library of film literature.
