Connecting Children with Classics

Amberley Publishing Limited

"In 1929, Arthur Ransome (1884-1967), a journalist and war correspondent who was on the books of MI6, turned his hand to writing adventure stories for children. The result was *Swallows and Amazons* and eleven more wonderful books followed, spanning in publication the turbulent years from 1930 to 1947. They changed the

course of children's literature and have never been out of print since. In them, Ransome creates a world of escape so close to reality that it is utterly believable, a world in which things always turn out right in the end. Yet *Swallows, Amazons and Coots* shows that, to be properly appreciated today, the novels must be read as products of their era, inextricably bound up with Ransome's life and times as he bore witness to the end of Empire and the dark days of the Second World War. In the first critical book devoted wholly to the series, Julian Lovelock explores each novel

in turn, offering an erudite assessment of Ransome's creative process and narrative technique, and highlighting his contradictory politics, his defence of rural England, and his reflections on colonialism and the place of women in society. Thus Lovelock demonstrates convincingly that, despite first appearances, the novels challenge as much as reinforce the pervading attitudes of their time. Written with a lightness of touch and enlivened by Ransome's own illustrations, *Swallows, Amazons and Coots* is both fresh and nostalgic. It will appeal to anyone who has

enjoyed the world of Swallows and Amazons, and there is plenty here to challenge both the student and the Ransome enthusiast."

Swallows, Amazons and Coots Farrar,
Straus and Giroux (BYR)

Jibbooms and bobstays! Those two Blackett sisters are back at it again, and Nancy is right there in the thick of it. Their mother (doubtless suffering from exhaustion) has gone off sailing in the

North Sea with Captain Flint on a rest cure, but she has allowed her two daughters to stay a fortnight at Beckfoot on the lakeshore with their trusty cook. She's also permitted their two old friends, Dick and Dorothea Callum, to come up for a visit. But when their redoubtable Great Aunt (aka G. A.) hears of their abandonment, she's horrified and off on the next train. The Amazons are dismayed; not only will their solo holiday be ruined but now they'll have to hide their two guests in the woods in an abandoned shepherd's cottage (where they'll be forced to live off the land like savages, ergo "The Picts") while they'll be required to dress up in white pinafores, practice the pianoforte, and recite reams of parlor poetry aloud (ergo "The Martyrs"). Not much stretch here; no one dares trifle with the G.A. As usual with Ransome, the fun is gentle, the action nonstop, and the instructions on everything from tickling trout to setting anchors are precise and informed. Even the formidable maiden aunt proves to have virtues, not the least of which is her ability to say she's sorry. This is the eleventh title in a beloved series that have endeared themselves to three generations

of readers, books as credible today as when Ransome penned them on the shores of his beloved Lake District in the 1930s.

On the Fringes of History Routledge

This volume explores how television has been a significant conduit for the public consumption of changing ideas about children, childhood, and national identity, via a critical examination of programs that prominently feature children and youth in international television. The chapters connect relevant cultural attitudes within their respective countries to an analysis of children and/or childhood in international children's programming. The collection addresses how international children's programming in global and local context informs changing ideas about children and childhood, including notions of individual and citizen identity formation. Offering new insights into childhood and television studies, this book will be of great interest to graduate students, scholars, and professionals in television studies, childhood studies, media studies, cultural studies, popular culture studies, and American studies.

The School Arrow

The Harry Potter series of books and movies are wildly popular. Many Christians see the books as largely if not entirely harmless. Others regard them as dangerous and misleading. In his book *A Landscape with Dragons*, Harry Potter critic Michael O'Brien examines contemporary children's literature and finds it spiritually and morally wanting. His analysis, written before the rise of the popular Potter books and films, anticipates many of the problems Harry Potter critics point to. *A Landscape with Dragons* is a controversial, yet thoughtful study of what millions of young people are reading and the possible impact such reading may have on them. In this study of the pagan invasion of children's culture, O'Brien, the father of six, describes his own coming to terms with the effect it has had on his family and on most families in Western society. His analysis of the degeneration of books, films, and videos for the young is incisive and detailed. Yet his approach is not simply critical, for he suggests a number of remedies, including several tools of discernment for parents and teachers in assessing the moral content and spiritual impact of this insidious

revolution. In doing so, he points the way to rediscovery of time-tested sources, and to new developments in Christian culture. If you have ever wondered why a certain children's book or film made you feel uneasy, but you couldn't figure out why, this book is just what you need. This completely revised, much expanded second edition also includes a very substantial recommended reading list of over 1,000 books for kindergarten through highschool.

A prolific 20th-century author, editor, critic, reviewer and foreign correspondent, Arthur Ransome is historically considered one of the most important English children's writers between the wars. This first comprehensive bibliography describes in detail the various editions of the books he wrote and to which he contributed. Included in this work are more than 1,500 contributions by Ransome to newspapers and magazines, with extensive notes on their publication history. Among these contributions are controversial reports from Russia during World War I and the rise of the Bolsheviks.

Novels) Penguin

Forming bonds in a time of war It's the
 summer of 1943, and for twelve-year-old
 Celie Marsh the war seems awfully close to
 her coastal Massachusetts home. She
 worries about bombs and submarines, and
 about her big brother, who can't wait to go
 off and fight. Her little brother doesn't
 seem to need her anymore, and her best
 friend has moved away. When her father
 brings Charley, a monkey, home from
 work one day, Celie finds the comforting
 companion she has been missing. But
 more upheaval is in store: irritating Joey
 Bentley moves in with his crabby
 grandmother next door, her mother takes
 a job building warships, and worst of all,
 Charley proves to be too wild for Celie to
 manage. A near disaster forces Celie to
 make a heart-wrenching decision that
 teaches her painful lessons about
 friendship, family, and the meaning of
 love. This tender novel about
 relationships, based on the author's
 mother's experience, is elegantly crafted
 and suffused with warmth, as well as with
 a powerful sense of time and place.

This guide identifies hundreds of books that can help children develop into engaged readers. Children's librarians, collection development specialists in public libraries, as well as K-8 school librarians and teachers will choose from the best in children's titles. This unique readers' advisory and collection development guide for librarians and others who work with children focuses on readers and their needs, rather than simply categorizing books by their characteristics and features as traditional literature guides do. Taking this unusual perspective brings forth powerful new tools and curricular ideas on how to promote the classics, and how to best engage with young readers and meet their personal and emotional needs to boost interest and engagement. The guide identifies seven reader-driven appeals, or themes, that are essential to successful readers' advisory: awakening new perspectives; providing models for

identity; offering reassurance, comfort, strength, and confirmation of self-worth; connecting with others; giving courage to make a change; facilitating acceptance; and building a disinterested understanding of the world. By becoming aware of and tapping into these seven themes, librarians and other educators can help children more deeply connect with books, thereby increasing the odds of becoming lifelong readers. The detailed descriptions of each book provide plot summaries as well as notes on themes, subjects, reading interest levels, adaptations and alternative formats, translations, and read-alikes. This informative guide will also aid librarians in collection development and bibliotherapy services.

This book investigates the 'series' in children's literature. The works of several well-known children's authors - UK and the US, traditional and contemporary - are analyzed, and using these examples, the book explores the special nature and appeal of series writing for children. As well as providing an historical overview of the series, the author raises important questions about the nature of literary criticism applied to children's literature.
