The New York Times bestselling self-portrait of a flawed but determined Jesse James: rebel, outlaw, gearhead, artist, entrepreneur, lost son, and fiercely committed father. Jesse James is everything you imagined him to be—and more than you ever expected. He has led a violent life. He's survived lower depths, faced harder times, and beaten down more private demons than most—and lived to tell his story with honesty, introspection, and humility. He's tough as nails and riding hard through life, with plenty of wisdom to share about taking a hit and coming back up. In American Outlaw, Jesse reveals all: from his volatile upbringing and troubled relationship with his father to his wild days of car thieving and juvenile detention; from knocking heads as a rock 'n' roll bodyguard to his destructive drinking and barroom brawling; from building an empire from the ground up to marriages marked with both happiness and gut-wrenching pain; from living inside the hottest level

of paparazzi hell to rehab and making peace with his past.

Love. Violence. Destiny. These powerful themes ricochet through Lorenzo Carcaterra's new novel like bullets from a machine gun. In Gangster, he surpasses even his bestselling Sleepers to create a brutal and brilliant American saga of murder, forgiveness, and redemption. Born in the midst of tragedy and violence and raised in the shadow of a shocking secret, young Angelo Vestieri chooses to flee both his past and his father to seek a second family—the criminals who preside over early 20th century New York. In his bloody rise from soldier to mob boss, he encounters ever more barbaric betrayals—in friendship, in his brutal business, in love—yet simultaneously comes to

understand the meaning of loyalty, the virtue of relationships, and gains a perspective on the lonely, if powerful, life he has chosen. As the years pass, as enemies are made and defeated, as wars are fought and won, the old don meets an abandoned boy who needs a parent as much as protection. By taking Gabe under his wing and teaching him everything he knows, Angelo Vestieri will learn, in the winter of his life, which is greater: his love for the boy he cherishes, or his need to be a gangster and to live by the savage rules he helped create. A sweeping panoramic with riveting characters, a unique understanding of the underworld philosophy, and a relentless pace, Gangster travels through the time of godfathers and goodfellas to our own world of suburban Sopranos. But this is more than just an authentic chronicle of crime. Setting a new standard for this acclaimed author, Gangster is a compassionate portrait of one man's fight against his fate—and an unforgettable epic of a family, a city, a century.

La voix du RAID Routledge

When, in 1960, France granted independence to its colonies in West and Central Africa-an empire covering an area the size of the contiguous United States-the French still intended to retain influence in Africa. Through a system of accords with these newly independent African nations, based upon ties naturally formed over the colonial years, France has succeeded for three decades in preserving its position in African affairs. The course of Franco-African relations in the near future, though, is less than certain. In this book, Ambassador Francis Terry McNamara outlines France's acquisition and administration of its Black African empire and traces the former colonies' paths to independence. Drawing upon that background, the ambassador examines the structure of post-independence Franco-African relations and recent strains on those relations, especially African economic crises and the French tendency to focus on Europe. Because of those strains, he suggests, France alone may be unable to support its former dependencies much longer. He believes that long-term solutions to African problems will have to involve international organizations like the World Bank and International Monetary Fund as well as other nations such as the United States and France's European partners. -- From Foreword.

Une mystérieuse bande sévit et dévalise les milliardaires, avec une audace inouïe. Robert d'Enraygues, ruiné par la faillite de la société à laquelle il avait confié sa fortune, se voit proposer par le «Grand Assureur», Jonathan Fahrenheit, moyennant un salaire fort intéressant, de traquer secrètement ces insaisissables bandits. Il le fera en collaboration avec l'inspecteur Achille Durant, grand amateur d'occultisme, chargé de cette affaire... Disons le honnêtement, ce roman n'est pas un des meilleurs de l'auteur. Mais il occupe une place à part par son hétérogénéité, par le curieux mélange des genres fantastique, voire occultisme, anticipation, policier, aventures qu'il recèle. À ce titre, ce roman de Georges Le Faure, dont la carrière a été exceptionnellement longue, apparaît comme le symbole de la transition entre l'ancienne génération, les «suiveurs» de Jules Verne, et la nouvelle littérature de genre qui s'épanouira pendant la deuxième moitié du XXe siècle.

Networks of Outrage and Hope is an exploration of the new forms of social movements and protests that are erupting in the world today, from the Arab uprisings to the indignadas movement in Spain, from the Occupy Wall Street movement to the social protests in Turkey, Brazil and elsewhere. While these and similar social movements differ in many important ways, there is one thing they share in common: they are all interwoven inextricably with the creation of autonomous communication networks supported by the Internet and wireless communication. In this new edition of his timely and important book, Manuel Castells examines the social, cultural and political roots of these new social movements, studies their innovative forms of self-organization, assesses the precise role of technology in the dynamics of the movements, suggests the reasons for the support they have found in large segments of society, and probes their capacity to induce political change by influencing people's minds. Two new chapters bring the analysis up-to-date and draw out the implications of these social movements and protests for understanding the new forms of social change and political democracy in the global network society.

Seeking the truth about UFOs in America, Mark Pilkington and John Lundberg uncover a 60 year-old story stranger than any conspiracy thriller. Through the fascinating account of their quest Mark Pilkington reveals the long history of UFOria and its parallels in little known tales from the murky worlds of espionage, psychological warfare and advanced military technology. Along the way he discovers that the truth about flying saucers is stranger and more complex than either the ufologists or debunkers would have us believe. As he crossed the US meeting intelligence agents, disinformation specialists and UFO hunters Pilkington was confronted with a dizzying array of ever more outrageous claims and counter claims. As a result he began to suspect that, instead of covering up stories of crashed flying saucers, alien contacts and secret underground bases, the US intelligence agencies had actually been promoting them all along. Meanwhile he has to deal with his own uncertainties, the suspicions of the UFO community and a partner who is starting to

believe that conspiracy theorists might be right after all. With a fresh, funny and objective approach, Pilkington is the ideal guide to steer us through these strange territories, where nothing is quite as it seems and reality is just a matter of managing perceptions.

Sicile, XI siècle, Nadira est une jeune fille innocente d'origine berbère, qui vit en se soumettant aux décisions de son frère; comme lorsqu'on lui annonce qu'elle devra devenir une des épouses de l'émir de sa ville. Cependant, ses yeux sont tellement étranges et envoûtants qu'ils attirent l'attention de plus d'un prétendant. Bien vite la renommée d'une malédiction se répandra : les hommes qui croiseront son regard ne pourront plus éviter de la désirer et essayer de l'avoir. Les yeux de Nadira et ce ciel sans limite qu'ils rappellent, provoqueront la seconde guerre que la Sicile musulmane vivra. En attendant , les frères de Hauteville, de terribles guerriers normands, attendent n'importe quel prétexte pour pouvoir traverser la mer, dans le but de commencer une croisade contre les maures." Quelque chose de si extraordinairement irrésistible et maudit au point de secouer irrémédiablement les désirs de celui qui le regarde, peut-il réellement exister ?

"Les yeux bleus atypiques de Nadira semblent prouver qu'il en est ainsi.Sicile, XI siècle. Nous nous trouvons aux derniers actes de la domination arabe : les émirs des principales villes de l'île sont en guerre entre eux et les forces chrétiennes, attendent une excuse pour intervenir et entreprendre leur guerre sainte contre l'ennemi musulman.Nadira est une jeune fille innocente d'origine berbère qui vit en se soumettant aux décisions de son frère ; comme lorsqu'on lui annonce qu'elle devra devenir une des épouses de l'émir de sa ville. Son ambition est sans limite et sa vengeance envers les dominateurs musulmans dépasse le bon sens.Le destin de Conrad finira par croiser ce "ciel de Nadira" et le mystère qui se cache derrière la nature de ces yeux là. Freedom in the World, the Freedom House flagship survey whose findings have been published annually since 1972, is the standard-setting comparative assessment of global political rights and civil liberties. The survey ratings and narrative reports on 194 countries and 14 territories are used by policymakers, the media, international corporations, civic activists, and human rights defenders to monitor trends in democracy and track improvements and setbacks in freedom worldwide. The Freedom in the World political rights and civil liberties ratings are determined through a multi-layered process of research and evaluation by a team of regional analysts and eminent scholars. The analysts used a broad range of sources of information, including foreign and domestic news reports, academic studies, nongovernmental organizations, think tanks, individual professional contacts, and visits to the region, in conducting their research. The methodology of the survey is derived in large measure from the Universal Declaration of Human Rights, and these standards are

applied to all countries and territories, irrespective of geographical location, ethnic or religious composition, or level of economic development.

In this study, which is first of all a folk-lore study, we pursue principally an anthro-psychological method of interpreting the Celtic belief in fairies, though we do not hesitate now and then to call in the aid of philology; and we make good use of the evidence offered by mythologies, religions, metaphysics, and physical sciences.

'High energy, highly unique, swashbuckling-cop-epic-noir story. Buy it. BUY IT NOW' Sam Sykes The Greatcoats are back - and this time it's personal. How do you kill a Saint? Falcio, Brasti and Kest are about to find out, as someone is doing just that, and they've started with a friend. The Dukes were already looking for ways to weasel out of their promise to put Aline on her father's throne - but with Saints turning up dead, and Church Inquistitors pushing for control - rumours are spreading that the Gods themselves oppose her ascension. The only way Falcio can stop the country turning into a vicious theocracy is to find and stop the Saint-killer - but his only clue is the iron mask encasing the head of the Saint of Mercy, which prevents her from speaking. And even if he can find the murderer, he will still have to face them in battle - and this may be a duel that no swordsman, no matter how skilled, can win.
