The Art and Making of Hotel Transylvania brings to (undead) life a fresh new spin on the classic horror monsters like Dracula, Frankenstein, the Mummy, Werewolf, and the Invisible Man from Sony Pictures Animation and director Genndy Tartakovsky - creator of Samurai Jack and executive producer and director of Star Wars: Clone Wars animated series. The story features Dracula, owner of a lavish five-stake resort hotel for monsters, away from the human world. On one special weekend, he invites some of the world's most famous monsters to celebrate his daughter's 118th birthday. For Drac, catering to all these monsters is no problem, but his world could come crashing down when one ordinary guy stumbles into the hotel and takes a shine to his daughter, Mavis. Featuring over 400 pieces of concept art, character sketches, storyboards and digital art, along with interviews with key filmmakers and crew, this full-color book is truly a spooky but fun treat for the eyes!

Friends from Way Back! / the Art of Flying! (Mr. Peabody and Sherman) Random House Books for Young Readers

For those of us who love The Rocky and Bullwinkle Show, these names conjure up memories of some of the wittiest, most inspired, and relentlessly hilarious half-hours of animation ever produced. There was a kind of gleeful magic to the shows, a cumulative joy that transcended the crude animation and occasionally muddled sound, and it's this quality that was the essence of the legendary Jay Ward and Bill Scott. Jay Ward was the magnificent visionary, the outrageous showman who lobbied Washington for statehood for Moosylvania, and invited the press to a picnic on the floor of the Plaza Hotel's august Grand Ballroom. Bill Scott was the genial, brilliant head writer, coproducer, and all-purpose creative whirlwind, often described as the "soul" of the shows. In fact, Scott even provided the voices for most of the star characters, giving life to Bullwinkle J. Moose, Mr. Peabody, Dudley Do-Right, and George of the Jungle. From their tiny, oddball animation studio, Jay Ward Productions, they created some of the most memorable animation of all time, and gave birth to a family of characters whose undying popularity has cast them forever into the pop culture firmament. With

their distinctively unorthodox, artist-friendly philosophy, Ward and Scott attracted some of the most talented writers and voice actors in the industry, and for a time, Jay Ward Productions was a kind of Camelot of cartoons. Now, through exclusive interviews with Bill Scott, Tiffany Ward, June Foray, and dozens of others intimately involved with the Ward epoch, as well as access to original scripts, artwork, story notes, letters, and memos, Keith Scott has created the definitive history of Jay Ward Productions, including episode guides and voice credits for all the Jay Ward cartoons. From the first "Hey Rocky, watch me pull a rabbit out of a hat!" to the last "Watch out for that tree!", *The Moose That Roared* is not only the record of a legendary chapter in animation history, but also the story of a rare and magical relationship between two artists who were wildly, exuberantly ahead of their time, and the fascinating story of the struggle to bring their vision of bad puns and talking animals to unforgettable life.

The Moose That Roared Chronicle Books

One animation empire was built on a mouse, another was built on a rabbit. This one was built on the unlikely combination of a moose and squirrel. It began in the late 1940's, when Jay Ward and his lifetime friend, Alex Anderson, joined forces to create a cartoon series for the fledgling medium of television with a budget that would make "shoestring" look generous. The result was *Crusader Rabbit*, which debuted on a local NBC affiliate in Los Angeles in mid-summer of 1950. The cheaply produced and minimally animated series became the inauspicious and unlikely beginning of a TV

animation powerhouse with a defiantly innovative-and influential-brand of humor that shaped animated comedy for decades. As the 1950's drew to a close, Ward, with now-former partner Anderson's blessing, took two characters from an unsold series they had developed together, teamed with writer Bill Scott and a couple of freelance UPA artists, and created a short pilot film starring a flying squirrel and a hapless but hilarious moose. That pilot, Rocky The Flying Squirrel, launched an animation studio that turned out the funniest, hippest and most satirical cartoons on television and creating a comic vocabulary for generations of children and their parents. The shows produced at Jay Ward Productions featured the wittiest writing in the medium, some of the best character voice work, and ... some of the worst animation. Assembling a staff of first rate writers and artists, Jay Ward was undermined by the cheapest budgets in what was already a low-budget medium. And it showed. In one of the earliest examples of runaway production, Ward was forced to send the animation out of the country. But what was happening with the art off the screen revealed a fascinating dichotomy of the brilliant draftsmanship on the drawing boards and the crude but effective work that was aired. This behind-the-scenes artwork was never meant to be seen by the general public but was merely a means to an end. Now, for the first time anywhere, we are provided an in-depth look at the comic artistry of a talented group of designers, storytellers and directors who created such fondly remembered shows as Rocky and His Friends, Fractured Fairy Tales, Peabody's Improbable History, Dudley Do-right, George of the Jungle and Super Chicken.

When Katie Mitchell, a creative outsider, is accepted into the film school of her dreams, her plans to meet "her people" at college are upended when her nature-loving dad Rick determines the whole family should drive Katie to school together and bond as a family one last time. Suddenly, the Mitchells' plans are interrupted by a tech uprising: All around the world, the electronic devices people love—from phones to appliances to an innovative new line of personal robots—decide it's time to take over. With the help of two friendly malfunctioning robots, the Mitchells will have to get past their problems and work together to save each other and the world! *The Art of The Mitchells vs. The Machines* gives insight into how the filmmakers were able to bring this fresh, new vision to the screen through concept art, sketches, and early character designs, accompanied by exclusive commentary from director/co-writer Michael Rianda and co-director/co-writer Jeff Rowe, alumni of the team behind Emmy Award-winning *Gravity Falls*, and producers Phil Lord and Christopher Miller, the innovative and creative minds behind *The Lego Movie* and the Academy Award-winning *Spider-Man: Into the Spider-Verse*.
