Nicolas Darvas, author of the phenomenal best-seller, *How I Made \$2,000,000 In The Stock Market*, has devised a breakthrough system for charting the stock market. Called the DAR-CARD, it is easy to use and has the all-important ingredient that existing systems lack: DAR-CARD needs no interpretation. The philosopher's stone of the stock market, DAR-CARD converts data into profits. It eliminates confusing fluctuations and indicates the trend and the buy and sell points-the factors that matter if you want to make money. DAR-

CARD is a compact, visual representation of Nicolas Darvas's system; a simple device to be carried in the pocket, to be checked against each day's closing prices. No bigger than a postcard, DAR-CARD contains its own built-in instructions and all the information necessary to make a decision on whether to buy, sell or hold. In addition to providing this unique tool for dealing with the stock market, Darvas offers straightforward advice on: when to buy; what shall I watch for; five ways to create favorable odds; how to detect a must sale; how long to hold a stock; pitfalls of switching; what to look for before taking action.

Introduction: Quit Your 9-to-5 Job and Become a Solopreneur

1. Your phone's alarm goes off.
2. It's time to get up, shower, grab a bagel and coffee on the way to work, and drive there.
3. You appear to be on autopilot every day.

There's no need to think about it; just do it. For many people, a traditional 9-5 job, while somewhat secure, is not what they expected when they signed up for it. You may only have two weeks of vacation

per year; the pay is pitiful; the people are a bunch of gossipers; and the work - well, let's just say you don't really need your degree to do what you're doing. People, particularly Millennials, are increasingly abandoning full-time employment. Climbing to the top of a company is no longer a common career path. Millennials, on the other hand, frequently see eBay, starting your own company, or growing your own business as the new norm. And the data backs this up: eBay is on the rise. eBay is one of the most active online marketplaces, with a multibillion-dollar turnover and over 180 million users. They were only of the workforce seven years ago. And it's only going to get worse as more people realize the freedom that being a solopreneur provides. If having \*no\* boss

is what you're looking for, here's how to get it right away. There are some people who despise their 9-5 jobs. When they describe their job, it sounds like a prison sentence, complete with roadside manual labor and the old' shackle and chains. Their job makes them a prisoner, which they despise. Others adore their 9-to-5 jobs. They go to work and enjoy the fact that they have no ownership in the company and can leave at any time without incurring any liability. I've had several jobs. I spent the first half of my twenties starting seven businesses, six of which failed miserably and one of which became an overnight success (that I later walked away from). I then got a corporate job in a bank and had to wear a suit to work. The lobby resembled a hotel, and the language

used was never profane. My next position was a cross between a startup and a corporate, with a focus on people management. You're trapped. As each day passes, you can't wait for the weekend to be over, so you don't have to think about work. No more bosses breathing down your neck, no more pre-planned breaks, and certainly no more long commutes. Weekends are your life. You know you don't want this job, but you're stuck with it. You want out but don't know how, whether you want to quit your job to travel more, try something new, or if you're just bored or unhappy with what you're doing. What are you going to do? How do you leave a stable and secure job to pursue a life of hustling for work? And can you make a living from eBay? Rarely Revealed

Secrets to Making Money on eBay that Are Ideal for Complete Beginners “Do you believe you squandered an eBay opportunity? Consider again. eBay is one of the most active online marketplaces, with a multibillion-dollar turnover and over 180 million users. Its business model is so simple that you can start making money from your unwanted items in your cupboards, garage shed, or basement in as little as seven days. It's the ideal first side hustle, and this book will show you how. It's written for ambitious people who want to make money on eBay as quickly as possible. From your very first listing, you'll discover a step-by-step plan for generating consistent sales for your new business. It makes no difference whether you're selling your old items or have

discovered a fantastic product that everyone requires. You'll get a behind-the-scenes look at what it takes to make money from day one. Rarely shared shortcuts, insider knowledge, and a plethora of eBay business secrets will hasten your progress while saving you valuable time and effort. 101 Tips Buying and Selling on eBay Professional eBay buyers and sellers employ specific strategies and keys. Some of the information is drawn from my newsletter, while others are drawn from my books, The Fundamental Guide to eBay, Marketing Antiques and Collectibles on eBay, The eBay Power Seller's Guidebook, and The Wholesale Purchasing System. These titles can all be found on our website, <http://www.auction-sellers-resource.com>.

educational websites that can help you improve your selling skills. I would especially encourage you to go back and read previous issues of the e-newsletters. Let's get this party started. The first point is probably the most important, and it is linked to many of the others. Consider visiting a shopping mall where each store has a bulletin board near the entrance where customers can post notes about the products or services sold in each store. Do you believe this will improve customer service? That is the purpose of the ebay.com responses system. Read this if you want to sell more books, make more money as an author, or rank higher in your category. My name is Nick Vulich. The first thing you should know about me is I'm not a writer, and I'm not

an expert on self-publishing either. I never worked in the industry, and I don't have any experience working for the big publishers. In fact, the only thing I consider myself an expert in is how to sell on eBay, Amazon, and Fiverr... So why should you listen to me? Like most indie authors, I came into publishing through the back door. I had a story to tell, and one day I just sat down and let it all come out. What I wrote wasn't pretty, or polished...but, it helped a lot of people sell more stuff on eBay. What I couldn't say with fancy prose, I made up for with enthusiasm. Because of that, my books sold. I'm not going to lie to you. It wasn't easy. I read just about every book available on self-publishing. I studied up on KDP Free days, Countdown Deals, price pulsing...

Want to build long-term, sustainable

wealth? Then stay out of the stock market! That's radically different advice from what the "experts" have served up for decades... but look at the miserable results those pundits have delivered! Investors who've chosen equity-based buy-and-hold approaches have seen their assets decline dramatically: not just for a year, but often for decades. Fortunately, there are better ways to invest — and *Never Buy Another Stock Again* reveals them. Renowned Reuters financial journalist David Gaffen first explains why stocks are an even worse short- and long-term investment than you realize. Next, he shows how to create a balanced portfolio that reflects a "big-picture," holistic approach, intelligently incorporating cash, real estate, retirement funds, savings, and

other holdings. Gaffen's strategies rely primarily on investments outside the stock market, while identifying strictly limited roles for mutual funds and ETFs. Readers will learn how to: dramatically reduce investing costs that can kill your returns; invest in an environment where double-digit returns can never be expected; overcome huge flaws in conventional diversification strategies; and offset risks associated with existing equity ownership.
