Tempers would flare with the old man breaking his promises yet again. My anger would overcome me when I planned his demise that he'd never hurt us ever again. With tall tales of Whiskey Holler and times gone past old Harry at ninety, would become a dear friend of mine. It was uplifting Calvin's return and with a host of others to work the woods, especially with James falling in love and never being around when I needed him. The moon and stars reflecting in her eyes kindled my desire of a first kiss. The unexpected shock when the face of a boy my age peered through the car's window, that of a half-brother? I yearned for the day that I might beat all others to feel a thin tape snap across my chest victorious once again. I'd crawl no further wailing of my losses, there'd be no miracle.

Maps in a Mirror brings together nearly all of Orson Scott Card's short fiction written between 1977 and 1990. For those readers who have followed this remarkable talent since the beginning, here are all those amazing stories gathered together in one place, with some extra surprises as well. For the hundreds of thousands who are newly come to Card, here is chance to experience the wonder of a writer so versatile that he can handle everything from traditional narrative poetry to modern experimental fiction with equal ease and grace. The brilliant story-telling of the Alvin Maker books is no accident; the breathless excitement evoked by the Ender books is not a once-in-a-lifetime experience. In this enormous volume are forty-six stories, plus ten long, intensely personal essays, unique to this volume. In them the author reveals some of his reasons and motivations for writing, with a good deal of autobiography into the bargain. "One of the genre's most convincing storytellers. An important volume."--Library Journal At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Your Blood, My Bones Rodale

In the idyllic hill country of Sri Lanka, a young girl grows up with her loving family; but even in the

midst of this paradise, terror lurks in the shadows. When tragedy strikes, she and her mother must seek safety by immigrating to America. There the girl reinvents herself as an American teenager to survive, with the help of her cousin; but even as she assimilates and thrives, the secrets and scars of her past follow her into adulthood. In this new country of freedom, everything she has built begins to crumble around her, and her hold on reality becomes more and more tenuous. When the past and the present collide, she sees only one terrible choice. From Nayomi Munaweera, the award-winning author of *Island of a Thousand Mirrors*, comes the confession of a woman, driven by the demons of her past to commit a single and possibly unforgivable crime. Praise for *Island of a Thousand Mirrors*: "The paradisiacal landscapes of Sri Lanka are as astonishing as the barbarity of its revolution, and Munaweera evokes the power of both in a lyrical debut novel worthy of shelving alongside her countryman Michael Ondaatje or her fellow writer of the multigenerational immigrant experience Jhumpa Lahiri." - Publishers Weekly "The beating heart of *Island of a Thousand Mirrors* is not so much its human characters but Sri Lanka itself and the vivid, occasionally incandescent, language used to describe this teardrop in the Indian Ocean." - The New York Times Book Review

This is the first volume in Chris Stolz's Theatre Illusions series. This series is meant to provide theatre productions with solutions to those special effects so often called for in the story or script. These can be illusions, special theatre props, transformations and much more. Each ebook in the series focuses on a different popular show. In this first installment, Chris focuses on the magical props and effects for *Beauty and the Beast*. Audiences are always prepared to suspend their disbelief. It's when they don't have to that you have something truly special. *Beauty and the Beast* is one of the most popular shows out there. It also has a ton of magical effects baked right into the story. Unfortunately, the script doesn't come with explanations of how to pull them off. This leads to most theatre companies having to cut the effects, come up with alternative and usually less impactful effects or hire someone like Chris. What often surprises his clients is just how simple, cost-effective and yet visually stunning some of these effects can be. The methods outlined here have been used in real productions, for actual living and breathing audiences. They are practical, reliable and they look great all the way from row A to the lighting booth. It's important to note that while these effects have been created with the community production budget in mind, there is nothing here that won't up in a professional production. With simplicity often comes reliability and whether you're doing 8 performances a week or 3, it just has to work. The following effects have been created for *Beauty and the Beast* and are outlined in this ebook. - The Floating Enchanted Rose Prop - The Chip Cart - The Enchantresses Fire 1: Fire from Hands - The Enchantresses Fire 2: Flash Staff - Beast Transformation 1: Mock Levitation - Beast Transformation 2: Shadow Morph Each effect is described first in construction and then in how to perform the effect. All of the major details are provided for each of these original magical creations for *Beauty and the Beast*.

A hundred years ago Sigmund Freud, the father of modern psychology, said that there was one question that he couldn't answer: "What do women want?" My opinion is that old Sigmund was asking the wrong question. He was thinking about the situation all wrong. The question isn't "What do women want?", but "What do women RESPOND to?" Everyone knows that if you ask a woman "What do you want in a guy?" she'll answer with something like, "I want a NICE guy who comes from a good family... honest, stable, dependable... etc." Right? But we also know that a lot of really attractive women on this planet seem to be found with guys who are exactly the opposite. Let's look at some of the top models of all time. Why is it that all the super-models seem to date violent, drugaddicted, unstable, wild rock stars? And why is it that every attractive woman that has ever been interviewed in history has admitted to being attracted to "bad boys"? I think you get the picture. My point is that there's a HUGE difference between what women say they want and what women are attracted to. Women have many conflicting drives going on inside. And in many cases women RESPOND to completely illogical things - which are often very different than what they say that they "want". The question that I am going to attempt to solve in this book is, "How can I make

women feel this attraction that they feel for 'bad boys' without having to be an abusive jerk?"

Karen Tintori thought she knew her family tree. Her grandmother Josie had emigrated from Sicily with her parents at the turn of the century. They settled in Detroit, and with Josie's nine siblings, worked to create a home for themselves away from the poverty and servitude of the old country. Their descendants were proud Italian-Americans. But Josie had a sister nobody spoke of. Her name was Frances, and at age sixteen she fell in love with a young barber. Her father wanted her to marry an older don in the neighborhood mafia---a marriage that would give his sons a leg up in the mob. But Frances eloped with her barber, and when she returned home a married woman, her fate was sealed. Even eighty years and two generations later, Frances was not spoken of, and her memory was suppressed. *Unto the Daughters* is a historical mystery and family story that unwraps the many layers of family, honor, memory, and fear to find an honor killing in turn-of-the-century Detroit. Tracing the history and insular world of Italian immigrants back to the old country, Karen Tintori shows what they came from, what they hoped for, and how the hopes and dreams of America fell far short for her great-aunt Frances. "Nearly every family has a skeleton in its closet, an ancestor who "sins" against custom and tradition and pays a double price -- ostracism or worse at the time, and obliteration from the memory of succeeding generations. Few of these transgressors paid a higher price than Frances Costa, who was brutally murdered by her own brothers in a 1919 Sicilian honor killing in Detroit. And fewer yet have had a more tenacious successor than Frances's great-niece, Karen Tintori, who refused to allow the truth to remain forgotten. This is a book for anyone who shares the conviction that all history, in the end, is family history." -Frank Viviano, author of *Blood Washes Blood* and *Dispatches from the Pacific Century* "Switching back and forth between rural Sicily and early 20th century Detroit, *Unto the Daughters* reads like a nonfiction version of the film

Godfather II--if it had been told from the point of view of a female Corleone. In exploring her own family's secret history, Karen Tintori gives voice not just to her victimized aunt but to all Italian-American daughters and wives silenced by the power of omerta. Half gripping true-crime story, half moving family memoir, *Unto the Daughters* is both fascinating and frightening, packed with telling details and obscure folklore that help bring the suffocating world of a Mafia family to life." --Eleni N. Gage, author of *North of Ithaca*

An instant New York Times Bestseller. A seductively twisted romance about loyalty, fate, the lengths we go to hide the darkest parts of ourselves . . . and the people who love those parts most of all. Wyatt Westlock has one plan for the farmhouse she's just inherited -- to burn it to the ground. But during her final walkthrough of her childhood home, she makes a shocking discovery in the basement -- Peter, the boy she once considered her best friend, strung up in chains and left for dead. Unbeknownst to Wyatt, Peter has suffered hundreds of ritualistic deaths on her family's property. Semi-immortal, Peter never remains dead for long, but he can't really live, either. Not while he's bound to the farm, locked in a cycle of grisly deaths and painful rebirths. There's only one way for him to break free. He needs to end the Westlock line. He needs to kill Wyatt. With Wyatt's parents gone, the spells protecting the property have begun to unravel, and dark, ancient forces gather in the nearby forest. The only way for Wyatt to repair the wards is to work with Peter -- the one person who knows how to harness her volatile magic. But how can she trust a boy who's sworn an oath to destroy her? When the past turns up to haunt them in the most unexpected way, they are forced to rely on one another to survive, or else tear each other apart.

The Art of the Confectioner McGill-Queen's Press - MQUP

Beginning with an overview of current concerns, Belshaw locates our attitudes toward the environment within their cultural and historical milieu. He then examines the various positions in detail, ranging from the moderate view that we ought to consider not only ourselves but also other animals, to the seemingly more extravagant contention that non-sentient life, rocks, deserts B indeed all of the processes of nature B should be considered intrinsically valuable. In later chapters Belshaw explores the importance of an aesthetic response to the environment, opening the way for a human-centred position that is both more generous and more flexible than those often advanced elsewhere. In contrast to many of its competitors, *Environmental Philosophy* challenges accepted dichotomies B man/nature, instrumental/intrinsic, green/non-green B and advocates conciliation rather than confrontation. Although the arguments are rigorous, the writing is clear and non-technical, making *Environmental Philosophy* an excellent survey for those engaging with these issues for the first time, as well as offering much to challenge the more advanced student.

When Rebecca Monroe—married to Alistair, a scientist who doesn't believe in fate, but rather genetic disposition—discovers that she is pregnant, she begins to question what makes us who we are and whether her own precarious family history will play a role in her future. For Rebecca, the wry and observant narrator of *The Family Tree*, simple things said over breakfast take on greater meaning: a home-improvement project foreshadows darker things to come; the color of one's eyes, the slope of a forehead are all missing pieces to the truth behind the family tree. At once nostalgic and refreshingly original, *The Family Tree* is a sophisticated story of one woman and the generations of women who came before her and whose legacy shaped her life and its emotional landscape.
