One of the strangest disasters in U.S. history is brought to vivid life in this graphic novel adaptation of Lauren Tarshis's bestselling *I Survived the Great Molasses Flood, 1919*, with text adapted by Georgia Ball and art by Karen De La Vega. It's been four years since Carmen and Papa moved from Italy to Boston. Life here is exciting, but not always easy. And then there's the massive metal tank that rises up over their crowded North End neighborhood. The ugly tank, filled with sticky brown molasses, has always leaked. But nobody imagined that it could one day explode apart, sending a tsunami of molasses into the streets. Caught in the flood, Carmen must fight for her life -- the life that she and Papa built together in America. But where will she find the strength? Lauren Tarshis's New York Times bestselling *I Survived* series comes to vivid life in graphic novel editions. Perfect for readers who prefer the graphic novel format, or for existing fans of the *I Survived* chapter book series, these graphic novels combine historical facts with high-action storytelling that's sure to keep any reader turning the pages. Includes a nonfiction section at the back with facts and photos about the real-life event.

Explores how the flood myths of early China provided a template for that society's major social and political institutions. Early Chinese ideas about the construction of an ordered human space received narrative form in a set of stories dealing with the rescue of the world and its inhabitants from a universal flood. This book demonstrates how early Chinese stories of the re-creation of the world from a watery chaos provided principles underlying such fundamental units as the state, lineage, the married couple, and even the human body. These myths also supplied a charter for the major political and social institutions of Warring States (481-221 BC) and early imperial (220 BC-AD 220) China. In some versions of the tales, the flood was triggered by rebellion, while other versions linked the taming of the flood with the creation of the institution of a lineage, and still others linked the taming to the process in which the divided principles of the masculine and the feminine were joined in the married couple to produce an ordered household. While availing themselves of earlier stories and of central religious rituals of the period, these myths transformed earlier divinities or animal spirits into rulers or ministers and provided both etiologies and legitimation for the emerging political and social institutions that culminated in the creation of a unitary empire. Mark Edward Lewis is Kwoh-ting Li Professor of Chinese Culture at Stanford University and the author of *Writing and Authority in Early China* and *The Construction of Space in Early China*, both published by SUNY Press.

The incredible story of a flood of near-biblical proportions -- its destruction, its heroes and victims, and how it shaped America's natural-disaster policies for the next century. The storm began March 23, 1913, with a series of tornadoes that killed 150 people and injured 400. Then the freezing rains started and the flooding began. It continued for days. Some people drowned in their attics, others on the roads when they tried to flee. It was the nation's most widespread flood ever—more than 700 people died, hundreds of thousands of homes and buildings were destroyed, and millions were left homeless. The destruction extended far beyond the Ohio valley to Illinois, Indiana, Michigan, Nebraska, Pennsylvania, Tennessee, Arkansas, Louisiana, Kentucky, West Virginia, New York, New Jersey, and Vermont. Fourteen states in all, and every major and minor river east of the Mississippi. In the aftermath, flaws in America's natural disaster response system were exposed, echoing today's outrage over Katrina. People demanded change. Laws were passed, and dams were built. Teams of experts vowed to develop flood control techniques for the region and stop flooding for good. So far those efforts have succeeded. It is estimated that in the Miami Valley alone, nearly 2,000 floods have been prevented, and the same methods have been used as a model for flood control nationwide and around the

world.

(Spring 2010) Local parents warned about priests and nuns who gang rape and prostitute kids, tweens & teens in directory of clergy perps & pervs in your neighborhood. i missed me after the terror, during the years of unbearable sorrow: trafficking the holy Spirit includes oral journalism of adults raped as kids and a parental directory of priests and nuns who gang rape and prostitute kids, tweens and teens. Book asks Angela Merkel, Michele Obama, Nancy Pelosi, Alessandra Mussolini and Oprah Winfrey to help remove state, federal, civil and criminal statutes of limitation for sexual assault of kids, tweens and teens. Author says, "To protect families we must remove civil, criminal, state & federal statutes of limitation for sexual assault of children by showing parents and legislators cliches of 'child abuse' mask violent serial sexual assault and child, tween and teen suicide. The book documents only a few U.S. priests and nuns rape children under 12, serially rape children under 11, gang rape children under 10, sodomize kids under 9, give kids AIDS, get 11 year olds pregnant, abort children and teenagers, ritually abuse kids, sexually assault kids, torture kids, prostitute and murder kids, and abandon their illegitimate children borne of kids they raped ... all at the same 1.5% percentile as perps & pervs in society: of one million Catholic priests worldwide, only 15,000 sexually assault kids and teens; of ten million nuns, only 150,000 are perps & pervs. An appendix, Where are the Children of Table 34?, exposes a study of the 'scientifically established' orgasm rates of infants, toddlers, preschool children, kids, tweens and teens cited in proponing today's standards of sex education in the classroom for kids too young to be exposed to sex education and helped set statutes of limitation for rape of women (there had been none) and the shift from rapists being guilty to women having to prove they didn't want to be raped. It likely influenced setting statutes of limitation for clergy crimes of sexual assault of kids, tweens and teens. It has come to light 'scientists using stopwatches' to document 'scientific studies' - now used to justify premature sexual education of elementary school-aged kids, were conducted by child rapists and child murderers. That is one reason statutes should be removed, or extended to the life of the child, or 'windowed', since the 'objective studies' were done by perps and pervs. Another reason is, the psychiatric record establishes kids, tweens and teens sexually abused often commit suicide or repress the events for 20-30 years in order to not go crazy. They consequently make bad choices and live sad lives that never would have been, if they had not been sexually molested, assaulted, raped, serially raped, gang raped, prostituted and/or ritually abused. A beautiful wordless picture book about the effects of a flood on a family and their home.

The Flood Myths of Early China Macmillan

Disaster can strike at any time and most people are not prepared for it. Disaster preparedness is essential, but most find it unexciting. However, anyone who has watched a zombie movie has a plan in mind for how they would survive it, and those imaginary plans translate well to real-world disaster scenarios. Using the backdrop of some of the most well-known zombie properties (Night of the Living Dead, 28 Days Later, and The Walking Dead), this book is a guide for preparing for a disaster or service interruption lasting from just a few days to several weeks or more. Food, water, shelter, personal safety--all the topics are discussed, including what to do when you are forced to leave your shelter, and where to go. Readers will learn to comfortably and confidently face fires, floods, tornadoes, strong storms, roving zombies, or even rampaging kaiju.

From the Booker Prize-winning author of Oryx and Crake, the first book in the MaddAddam Trilogy, and The Handmaid's Tale. Internationally acclaimed as ONE OF THE BEST BOOKS OF THE YEAR by, amongst others, the Globe and Mail, the New York Times, the New Yorker, and the Village Voice. In a world driven by shadowy, corrupt corporations and the uncontrolled development of new, gene-spliced life forms, a man-made pandemic occurs, obliterating human life. Two people find they have unexpectedly survived: Ren, a young dancer locked inside the high-end sex club Scales and Tails (the cleanest dirty girls in town), and Toby, solitary and determined, who has barricaded herself inside a luxurious spa, watching and waiting. The women have to decide on their next move—they can't stay hidden forever. But is anyone else out there?

The Black Sea flood and the southern migration, Wilson argues, are the basis for the Genesis tale of Noah. He synthesizes the last 40 years' worth of archeological findings into a lively detective story, showing how various cultures in Europe, Asia and the

Middle East still bear the vestigial traces of their Black Sea roots. He confirms his theory by citing the numerous myths of a great devastating flood and its aftermath among the Sumerians, Babylonians, Greeks and others. Wilson does not aim to prove the literal truth of the Bible story--only that Noah had real-life counterparts who escaped the flood by ship.
