 Eastern Turkestan, now known as Xinjiang or the New Territory, makes up a sixth of China's land mass. Absorbed by the Qing in the 1880s and reconquered by Mao in 1949, this Turkic-Muslim region of China's remote

northwest borders on formerly Soviet Central Asia, Afghanistan, Kashmir, Mongolia, and Tibet, Will Xinjiang participate in twenty-first century ascendancy, or will nascent Islamic radicalism in Xinjiang expand the orbit of instability in a dangerous part of the world? This comprehensive survey of contemporary Xinjiang is the result of a major collaborative research project begun in 1998. The authors have combined their fieldwork experience, linguistic

skills, and disciplinary expertise to assemble the first multifaceted introduction to Xinjiang. The volume surveys the region's geography; its history of military and political subjugation to China; economic, social, and commercial conditions; demography, public health, and ecology; and patterns of adaption, resistance, opposition, and evolving identities.

 This classic volume presents the core

vocabulary of everyday life in Morocco--from the kitchen to the mosque, from the hardware store to the natural world of plants and animals. It contains myriad examples of usage, including formulaic phrases and idiomatic expressions. Understandable throughout the nation, it is based primarily on the standard dialect of Moroccans from the cities of Fez, Rabat, and Casablanca. All Arabic citations are in an English transcription, making it invaluable to English-

speaking non-Arabists, travelers, and tourists--as well as being an important resource tool for students and scholars in the Arabic language-learning field.

Kirgisistan ist das Traumziel an der Seidenstraße. Drei Viertel des Landes sind mit

Bergen bedeckt, es ist ein Paradies für Bergsteiger und Wanderer. Das kirgisische Volk hat viele Jahrhunderte als Nomaden gelebt. Die traditionelle Gastfreundschaft wird bis heute sehr ernst genommen. Als Reisender ist man Gast, und als Gast tut man gut daran, sich einige Wörter und Sätze in der Landessprache anzueignen und den Gastgebern so Respekt zu zollen. Kauderwelsch-Sprachführer bieten einen schnellen Einstieg in fremde Sprachen und

vermitteln Wissenswertes über Land und Leute. Alle fremdsprachigen Sätze im Buch werden zusätzlich zur sinngemäßen Übersetzung ins Deutsche auch einmal Wort für Wort übersetzt. Dadurch wird das Verständnis für die fremde Sprache erleichtert, und einzelne Wörter lassen sich schnell austauschen. Die Grammatik wird kurz und verständlich erklärt, soweit es für einen einfachen Sprachgebrauch nötig ist. Das Wörterbuch am Ende hält einen

Grundwortschatz und wichtige Begriffe für Reisende bereit. Kauderwelsch-Bücher sind viel mehr als übliche Reisesprachführer. Ziel ist es, schon nach kurzer Zeit tatsächlich sprechen zu können, wenn auch nicht immer druckreif. Whether in family life, social interactions, or business negotiations, half the people in the world speak more than one language every day. Yet many myths persist about bilingualism and bilinguals. In a lively and entertaining book, an international authority on bilingualism explores the many facets of life with two or more languages.

Spectacular photography, rich historical background, and essential travel information are combined in this indispensable reference for the immense, diverse, remote region at the crossroads of Europe and Asia. A country larger than Western Europe, Kazakhstan's vast expanse encompasses the Great Steppe, the heights of the Tien Shan in the south, the exquisite lakes and valleys of the mystical Altai mountains

in the northeast, and the archaeologically rich desert coast of the Caspian Sea in the west. With independence and the discovery of oil has come rapid modernization, and Kazakhstan today stands as Central Asia's most stable and forward-thinking nation.

*Birds of Central Asia* is the first field guide to include the former Soviet republics of Kazakhstan, Kirghizstan, Turkmenistan, Uzbekistan

and Tajikistan, along with neighbouring Afghanistan. This vast area includes a diverse variety of habitats, and the avifauna is similarly broad, from sandgrouse, ground jays and larks on the vast steppe and semi-desert to a broad range of raptors, and from woodland species such as warblers and nuthatches to a suite of montane species, such as snowcocks, accentors and snowfinches. This book includes 141 high-quality plates covering every species (and all distinctive races) that

occur in the region, along with concise text focusing on identification and accurate colour maps. Important introductory sections introduce the land and its birds. Birds of Central Asia is a must-read for any birder or traveller visiting this remote region.

In 1834, Charlotte Brontë and her brother Branwell created the imaginary kingdom of Angria in a series of tiny handmade books. Continuing their saga some years later,

the five 'novelettes' in this volume were written by Charlotte when she was in her early twenties, and depict a aristocratic beau monde in witty, racy and ironic language. She creates an exotic, scandalous atmosphere of intrigue and destructive passions, with a cast ranging from the ageing rake Northangerland and his Byronic son-in-law Zamorna, King of Angria, to Mary Percy, Zamorna's lovesick wife, and Charles Townshend, the cynical, gossipy narrator. Together the tales provide

a fascinating glimpse into the mind and creative processes of the young writer who was to become one of the world's great novelists.

From Kazakhstan's most celebrated author comes his powerful and timely English-language debut about a fisherman's struggle to save the Aral Sea, and its way of life, from man-made ecological disaster. Unfolding on the vast grasslands of the steppes of Kazakhstan before its

independence from the USSR, this haunting novel limns the struggles of the world through the eyes of Nasyr, a simple fisherman and village elder, and his resolute son, Kakharman. Both father and son confront the terrible future that is coming to the poisoned Aral Sea. Once the fourth-largest lake on earth, it is now an impending environmental catastrophe. Starved of water by grand Soviet agricultural schemes, the sea is drying out, and the land around it is turning into a salt desert. The

livelihood of the fishermen who live on its shores is collapsing. Vanishing with the water is a whole way of life. Despite overwhelming odds, Kakharman wages a battle against an indifferent bureaucracy, while Nasyr looks to Allah for guidance. Without the support of neighbors, who have lost hope, Kakharman must travail alone to rescue what literally gives them life. Even as the consequences mount, his quixotic fight proves more daunting. Even the sea itself seems

to roil with distress. In the face of despair, the unwavering convictions of these soulful individuals offer hope. Rollan Seisenbayev takes readers on a cautionary, elegiac, and deeply compassionate journey into what it means to be human--to care and to fight against devastating odds. May humankind heed his warning cry. Xinjiang Amazon Crossing A retelling of the story about a sultan who, disguised as a beggar, meets a poor but generous couple.

Kazakhstan is vast – the

ninth-largest country in the world – yet there is relatively little information available in English about the attractions of this remarkable country. With the Kazakh government seeking to promote the development of tourism, publication of the Bradt guide is timely. Located between Russia and China, the state of Kazakhstan possesses an incredible diversity of natural beauty; this guide includes arrangements for visiting natural parks and reserves and special features such as singing

sand dunes and the Sharyn Canyon - Asia's equivalent of the Grand Canyon. Key historical and archaeological sites are also given due prominence, Kazakhstan having been inhabited since the Stone Age. Muslim Peoples [2 Volumes] Simon and Schuster

Central Asia is a fascinating part of the world. It is rich in culture, natural resources, unique landscapes, wonderful

people and of course water. The exhibition catalogue "From the Glaciers to the Aral Sea - Water Unites" wants to foster a better understanding of the Central Asian countries we associate with the Silk Road. The exhibition shows how people live in Kazakhstan, Kyrgyzstan, Tajikistan, Turkmenistan and Uzbekistan. It also shows how water serves all the living beings in the region. The book has two parts: An analytical part, which contains background information

on water and  
transboundary water

resources management  
and a second part with  
photos, which aim to

bring the region closer to  
the reader.
