Abby Ellin was shocked to learn that her fiancée was leading a secret life. But as she soon discovered, the world is full of people who aren't what they seem. From Abby Ellin's first date with the Commander, she was caught up in a whirlwind. Within six months he'd proposed, and they'd moved in together. But soon, his exotic stories of international espionage began to unravel. Finally, it all became clear: he was lying about who he was. After leaving him and sharing her story, she was floored to find out that her experience was far from unique. People everywhere, many of them otherwise sharp-witted and self-aware, are being deceived by their loved ones every day. In *Duped*, Abby Ellin studies the

art and science of lying, talks to people who've had their worlds upended by duplicitous partners, and writes with great openness about her own mistakes. These remarkable stories reveal how often we encounter people whose lives beneath the surface are more improbable than we ever imagined.

In 1995, before leaving his much-loved home in North Yorkshire to move back to the States for a few years with his family, Bill Bryson insisted on taking one last trip around Britain, a sort of valedictory tour of the green and kindly island that had so long been his home. His aim was to take stock of the nation's public face and private parts (as it were), and to analyse what precisely it was he loved so much about a country that had produced Marmite; a military hero whose dying wish was to be kissed by a fellow named Hardy; place names like Farleigh Wallop, Titsey and Shellow Bowells; people who said 'Mustn't grumble', and 'Ooh lovely' at the sight of a cup of tea and a plate of biscuits; and Gardeners' Question Time. Notes from a Small Island was a huge number-one bestseller when it was first published, and has become the nation's most loved book about Britain, going on to sell over two million copies.

Literary Nonfiction. Memoir. Translated from the French by Guy Bennett. TLEMCEN OR PLACES OF WRITING is an unusual, hybrid work: part memoir of the author's coming of age and coming to writing in his native Algeria, and part meditation on the nature of writing itself as well as on the task and responsibility of the writer. The text is complimented by some fifty photographs taken by the author in the Tlemcen of his youth, images of a past that has vanished and which the text seeks to reveal. The original French edition of this work was awarded the Grand prix de la Francophonie de l'Académie française on its publication in 1994. The Big Book of the UK Darby Creek™

What do they all mean – the lascivious ape, autophagic dragons, pot-bellied heads, harp-playing asses, arse-kissing priests and somersaulting jongleurs to be found protruding from the edges of medieval buildings and in the margins of illuminated manuscripts? Michael Camille explores that riotous realm of marginal art, so often explained away as mere decoration or zany doodles, where resistance to social constraints flourished. Medieval image-makers focused attention on the underside of society, the excluded and the ejected. Peasants, servants, prostitutes and beggars all found their place, along with knights and clerics, engaged in impudent antics in the margins of prayer-books or, as gargoyles, on the outsides of churches. Camille brings us to an understanding of how marginality functioned in medieval culture and shows us just how scandalous, subversive, and amazing the art of the time could be.
