## VALENCIA ERNESTO

---

*The United Arab Emirates* Cambridge  
 University Press

The first book to examine the interwar  
 period origins of the present-day Arab-  
 Iranian conflict.

*Dubai* Cambridge University Press  
*Asian Migrant Workers in the Arab Gulf  
 States* (edited by Masako Ishii, Naomi  
 Hosoda, Masaki Matsuo and Koji Horinuki)  
 examines how nationals and migrants  
 construct new relationships in the  
 segregated socioeconomic spaces of the  
 region (namely, Bahrain, Kuwait, Oman,  
 Qatar, Saudi Arabia, and the United Arab  
 Emirates). Instead of assuming that  
 segregation is disadvantageous for  
 migrant workers, it emphasizes multiple

aspects and presents various voices. In  
 this way, the book tries to unfold the  
 region's segregated socioeconomic space,  
 as well as its new forms of networking and  
 connectedness, in order to understand  
 how the various peoples coexist: a  
 situation that often entails conflict and  
 discrepancies between expectations and  
 reality.

**Temporary People** Cambridge University  
 Press

*A Soldier in Arabia* reveals the behind-the-  
 scenes story of the events which led up to  
 and followed the creation of the present  
 day United Arab Emirates in December  
 1971 followed, a few months later, with  
 Ras Al Khaimah joining the Federation.

*How the West Stole Democracy from the  
 Arabs* Naval Institute Press

This book offers new insight into the end  
 of the British Empire in the Middle East. It

takes a fresh look at the relationship  
 between Britain and the Gulf rulers at the  
 height of the British Empire, and how its  
 effects are still felt internationally  
 today. Over the last four decades, the  
 Persian Gulf region has gone through oil  
 shocks, wars and political changes, and  
 yet the basic entities of the southern Gulf  
 states have remained largely in place.  
 How did this resilient system come about  
 for such seemingly contested societies?  
 Drawing on extensive multi-archival  
 research in the British, American and Gulf  
 archives, this book illuminates a series of  
 negotiations between British diplomats  
 and the Gulf rulers that inadvertently led  
 Bahrain, Qatar and the UAE to take their  
 current shapes. The story addresses the  
 crucial question of self-determination  
 versus "better together", a dilemma  
 pertinent to anyone interested in the

transformation of the modern world.

*The Gulf Wife* Casemate Publishers

This comprehensive guide offers a detailed overview of the armed forces in Kuwait, Bahrain, Qatar, Oman and the UAE—fully illustrated with photos and maps. This volume provides a complete picture of Gulf State armed forces, including historical information on each state describing how the various militaries developed. Maps are provided, along with a glossary of terms and diagrams showing various Orders of Battle. military histories of the forces are supported by scores of photographs, many of which showcase the uniforms and a selection of badges and insignia. Military forces covered in this volume include the Bahrain Levy Corps, Trucial Oman Levies, Trucial Oman Scouts, Union Defense Force, Federal Armed Force, Abu Dhabi Defense Force, Dubai Defense Force, Ras Al-Khaimah Mobile Force, Sharjah National Guard, Umm Al-Quwain National Guard and Sultan's Armed Forces of Oman, plus selected paramilitary and police forces.

**The International Flag Book in Color** Springer

A first-hand account of the life and activities of a small military force which operated in what were once the Trucial States on the Persian Gulf. It gives an account of the Force's first ten years.

**Britain and the Formation of the Gulf States** Manchester University Press

This volume provides a comparative analysis of media systems in the Arab world, based on criteria informed by the historical, political, social, and economic factors influencing a country's media. Reaching beyond classical western media system typologies, Arab Media Systems brings together contributions from experts in the field of media in the Middle East and North Africa (MENA) to provide valuable insights into the heterogeneity of this region's media systems. It focuses on trends in government stances towards media, media ownership models, technological innovation, and the role of transnational mobility in shaping media structure and practices. Each chapter in the volume traces a specific country's media - from Lebanon to Morocco - and assesses its media system in terms of historical roots, political and legal frameworks, media economy and ownership patterns, technology and infrastructure, and social factors (including diversity and equality in gender, age, ethnicities, religions, and languages). This book is a welcome contribution to the field of media studies, constituting the only edited collection in recent years to provide a comprehensive and systematic overview

of Arab media systems. As such, it will be of great use to students and scholars in media, journalism and communication studies, as well as political scientists, sociologists, and anthropologists with an interest in the MENA region.

*A Principled Approach to State Failure* Division

Color illustrations of 853 national, provincial, state, and international flags, emblems, and coats of arms - arranged geographically rather than alphabetically - with a short historical text.

*A Soldier in Arabia* I. B. Tauris

With the end of the British Raj in 1947, the Foreign Office replaced the Government of India as the department responsible for the Persian Gulf, and would proceed to manage relations with the Trucial States (now the United Arab Emirates, UAE) until British withdrawal in 1971. This work is a comprehensive history of British policy in the region during that period, situated for the first time in its broad historical and political context. Tancred Bradshaw - an academic historian with extensive experience in the region - sheds light onto the discovery of oil in Abu Dhabi in the 1950s, Foreign Office attempts to instigate a long-term development policy in the region, the slow end of the British Empire, the origins of the UAE and - most importantly - the British legacy in this geopolitically crucial region today. The book relies on 40,000 pages of archival material, much of it previously unused, and will be of interest to Imperial historians, as well as anyone working on the history and politics of the Middle East and the Persian Gulf.

*Where Soldiers Fear to Tread* Palgrave Macmillan

The book describes the impact of cultural perceptions on rulers' behaviors in the United Arab Emirates, once the Trucial States. Despite differences in size, economic resources, and external political pressures, the seven emirates' rulers utilized very similar cultural expectations to gain the support of others.

*Two Alpha Lima* BRILL

A reinterpretation of how Britain maintained order, protected its interests and carried out its defence obligations in the Gulf before its withdrawal from the region in 1971, benefitting from the extensive use of recently declassified British Government archival documents and India Office records.

*The Origins of the Arab-Iranian Conflict*

Ardent Media

Research completed January 1993.

*The Trucial Coast Political Reports 1958-1963* New York : Basic Books

"Oil Men" represents a unique resource for

the student of the challenges, both physical and political, of oil prospecting in a region with no infrastructure and no formal boundaries between local power bases. The book charts the slow and unexpected transformation of the emirates from poverty to undreamed-of wealth. Detailed coverage with extensive access to primary sources describes the frequently tortuous negotiations between oil companies, sheikhs and regional political agents, all of whom sought to protect their different vested interests. The author has had full access to company records which are quoted throughout, including progress reports, minutes of meetings, telegrams and other primary sources, which are collected in full in Volume 2.

*Keepers of the Golden Shore* DIANE Publishing

Saudi Arabia and the UAE have been engaged in a long-standing border dispute and in 2004 the UAE launched a public diplomatic campaign to persuade Saudi Arabia to revisit the issue. The governments of Saudi Arabia and the UAE had already signed the Treaty of Jeddah in 1974 to end forty years of conflict over territory. However, discrepancies between the oral agreement and final text led to recurrent tensions. This book offers understanding about how the Treaty of Jeddah came about and why the UAE were so quick to sign an agreement they would later regret.

**The Arabian Peninsula** Medina Publishing

This book is the first legal study of state failure in international law. Building on a comprehensive analysis of the phenomenon, Dr. Giorgetti provides a definition of state failure that informs her study of how international actors may operate in situations of emergencies occurring in failed and failing states. The book specifically focuses on actions taken in health, environmental and human rights emergencies to provide generally applicable conclusions. Indeed, the Principles for Action distilled in the final chapter will provide concrete instruments to the international community to act in emergency situations and will prove to be an important contribution to the development of international law.

**AngloArabia** Routledge

Operation HOREV - the Israeli winter offensive from December 1948 until January 1949 - practically ended Israel's War for Independence (also known as the 1948 Arab-Israeli War), with an Israeli victory that forced Egypt to seek ceasefire and to negotiate a settlement with the fledgling nation. From HOREV Day 1 on 23

December 1948 until HOREV Day 16 on 7 January 1949, this title presents Israeli Air Force missions during Operation HOREV in heretofore unseen depth and detail. This title chronicles Israeli Air Force sorties during Operation HOREV; from Austers and Pipers to C-46s and C-47s; from Messerschmitts, Spitfires and P-51s to Beaufighters and B-17s; Israel Air Force operations are detailed spanning the timeline of the conflict down to every unearthed sortie in depth, and shown in a way that Israeli Air Force operations during Operation HOREV had never been presented before. This level of detail has been made possible by extensive use of contemporary documentation. The detailed text is supported by numerous photographs and color profiles. Middle East@War - following on from our highly successful Africa@War series, Middle East@War replicates the same format - concise, incisive text, rare images and high quality color artwork providing fresh accounts of both well-known and more esoteric aspects of conflict in this part of the world since 1945.

**Security in the Gulf** Grove Press

Winner of the Restless Books Prize for New Immigrant Writing "Guest workers of the United Arab Emirates embody multiple worlds and identities and long for home in a fantastical debut work of fiction, winner of the inaugural Restless Books Prize for New Immigrant Writing.... The author's crisp, imaginative prose packs a punch, and his whimsical depiction of characters who oscillate between two lands on either side of the Arabian Sea unspools the kind of immigrant narratives that are rarely told. An enchanting, unparalleled anthem of displacement and repatriation." —Kirkus Reviews, starred review In the United Arab Emirates, foreign nationals constitute over 80 percent of the population. Brought in to construct and serve the towering monuments to wealth that punctuate the skylines of Abu Dhabi and Dubai, this labor force is not given the option of citizenship. Some ride their luck to good fortune. Others suffer different fates. Until now, the humanitarian crisis of the so-called "guest workers" of the Gulf has barely been addressed in fiction. With his stunning, mind-altering debut novel *Temporary People*, Deepak Unnikrishnan delves into their histories, myths, struggles, and triumphs. Combining the linguistic invention of Salman Rushdie and the satirical vision of George Saunders, Unnikrishnan presents twenty-eight linked stories that careen from construction workers who shapeshift into luggage and escape a labor camp, to a woman who stitches back together the bodies of those

who've fallen from buildings in progress, to a man who grows ideal workers designed to live twelve years and then perish—until they don't, and found a rebel community in the desert. With this polyphony of voices, Unnikrishnan maps a new, unruly global English and gives personhood back to the anonymous workers of the Gulf. "Guest workers of the United Arab Emirates embody multiple worlds and identities and long for home in a fantastical debut work of fiction, winner of the inaugural Restless Books Prize for New Immigrant Writing.... The author's crisp, imaginative prose packs a punch, and his whimsical depiction of characters who oscillate between two lands on either side of the Arabian Sea unspools the kind of immigrant narratives that are rarely told. An enchanting, unparalleled anthem of displacement and repatriation." —Kirkus Reviews, Starred Review "Inventive, vigorously empathetic, and brimming with a sparkling, mordant humor, Deepak Unnikrishnan has written a book of Ovidian metamorphoses for our precarious time. These absurdist fables, fluent in the language of exile, immigration, and bureaucracy, will remind you of the raw pleasure of storytelling and the unsettling nearness of the future." —Alexandra Kleeman, author of *You Too Can Have a Body Like Mine* "Inaugural winner of the Restless Books Prize for New Immigrant Writing, this debut novel employs its own brand of magical realism to propel readers into an understanding and appreciation of the experience of foreign workers in the Arab Gulf States (and beyond). Through a series of almost 30 loosely linked sections, grouped into three parts, we are thrust into a narrative alternating between visceral realism and fantastic satire.... The alternation between satirical fantasy, depicting such things as intelligent cockroaches and evil elevators, and poignant realism, with regards to necessarily illicit sexuality, forms a contrast that gives rise to a broad critique of the plight of those known euphemistically as 'guest workers.' VERDICT: This first novel challenges readers with a singular inventiveness expressed through a lyrical use of language and a laserlike focus that is at once charming and terrifying. Highly recommended." —Henry Bankhead, *Library Journal*, Starred Review "Unnikrishnan's debut novel shines a light on a little known world with compassion and keen insight. The *Temporary People* are invisible people—but Unnikrishnan brings them to us with compassion, intelligence, and heart. This is why novels matter." —Susan Hans O'Connor, Penguin

Bookshop (Sewickley, PA) "Deepak Unnikrishnan uses linguistic pyrotechnics to tell the story of forced transience in the Arabian Peninsula, where citizenship can never be earned no matter the commitment of blood, sweat, years of life, or brains. The accoutrements of migration—languages, body parts, passports, losses, wounds, communities of strangers—are packed and carried along with ordinary luggage, blurring the real and the unreal with exquisite skill. Unnikrishnan sets before us a feast of absurdity that captures the cruel realities around the borders we cross either by choice or by force. In doing so he has found what most writers miss: the sweet spot between simmering rage at a set of circumstances, and the circumstances themselves." —Ru Freeman, author of *On Sal Mal Lane* "Deepak writes brilliant stories with a fresh, passionate energy. Every page feels as if it must have been written, as if the author had no choice. He writes about exile, immigration, deportation, security checks, rage, patience, about the homelessness of living in a foreign land, about historical events so strange that, under his hand, the events become tales, and he writes tales so precisely that they read like history. Important work. Work of the future. This man will not be stopped." —Deb Olin Unferth, author of *Revolution* "From the strange Kafka-esque scenarios to the wholly original language, this book is amazing on so many different levels. Unlike anything I've ever read, *Temporary People* is a powerful work of short stories about foreign nationals who populate the new economy in the United Arab Emirates. With inventive language and darkly satirical plot lines, Unnikrishnan provides an important view of relentless nature of a global economy and its brutal consequences for human lives. Prepare to be wowed by the immensely talented new voice." —Hilary Gustafson, *Literati Bookstore* (Ann Arbor, MI) "Absolutely preposterous! As a debut, author Unnikrishnan shares stories of laborers, brought to the United Arab Emirates to do menial and everyday jobs. These people have no rights, no fallback if they have problems or health issues in that land. The laborers in *Temporary People* are sewn back together when they fall, are abandoned in the desert if they become inconvenient, and are even grown from seeds. As a collection of short stories, this is fantastical, imaginative, funny, and even more so, scary, powerful, and ferocious." —Becky Milner, *Vintage Books* (Vancouver WA) *Persian Gulf States* Restless Books

This book explores the historiography, ports, and peoples of the Persian Gulf over the past two centuries, offering a more inclusive history of the region than previously available. Restoring the history of minority communities which until now have been silenced, the book provides a corrective to the 'official story' put forward by modern states.

[The Legal Status of the Arabian Gulf States](#)  
Bloomsbury Publishing

This meticulously researched book provides a timely and absolutely indispensable guide to the nations of the Persian Gulf on which the West's security and oil supplies critically depend- their political regimes and policies, their economies and the mind-sets of their leaders. But it does more than that. Dr. Kelly, one of the world's leading authorities on the modern history of Arabia and the Gulf, for the first time tells

the full story of how the West's supine policies deliberately pulled us out of the region and thus led inevitably to the dangerous power vacuum that now exists in the world's most important strategic area. The author also shows that one cannot fully understand the dangerous situation in which the West now stands with regard to its oil supplies without understanding the nature of the regimes in power in the Arabian peninsula. -- from Book Jacket.

**Britain's Revival and Fall in the Gulf**  
Helion and Company

UK ties with Saudi Arabia and the other Gulf monarchies are under the spotlight as never before. Huge controversy surrounds Britain's alliances with these deeply repressive regimes, and the UK's key supporting role in the disastrous Saudi-led intervention in Yemen has lent added urgency to the debate. What lies behind the British government's decision to place

politics before principles in the Gulf? Why have Anglo-Arabian relations grown even closer in recent years, despite ongoing, egregious human rights violations? In this ground-breaking analysis, David Wearing argues that the Gulf Arab monarchies constitute the UK's most important and lucrative alliances in the global south. They are central both to the British government's ambitions to retain its status in the world system, and to its post-Brexit economic strategy. Exploring the complex and intertwined structures of UK-Gulf relations in trade and investment, arms sales and military cooperation, and energy, Wearing shines a light on the shocking lengths to which the British state has gone in order to support these regimes. As these issues continue to make the headlines, this book lifts the lid on 'AngloArabia' and what's at stake for both sides.
