On 13 December 2001, the Indian Parliament was attacked by a few heavily armed men. Eleven years later, we still do not know who was behind the attack, nor the identity of the attackers. Both the Delhi high court and the Supreme Court of India have noted that the police violated legal safeguards, fabricated evidence and extracted false confessions. Yet, on 9 February 2013, one man, Mohammad Afzal Guru, was hanged to 'satisfy' the 'collective conscience' of society. This updated reader brings together essays by lawyers, academics, journalists and writers who have looked closely at the available facts and who have raised serious questions about the investigations and the trial. This new version examines the implications of Mohammad Afzal Guru's hanging and what it says about the Indian government's relationship with Kashmir.

Omprakash Valmiki describes his life as an untouchable, or Dalit, in the newly independent India of the 1950s. "Joothan" refers to scraps of food left on a plate, destined for the garbage or animals. India's untouchables have been forced to accept and eat joothan for centuries, and the word encapsulates the pain, humiliation, and poverty of a community forced to live at the bottom of India's social pyramid. Although untouchability was abolished in 1949, Dalits continued to face discrimination, economic deprivation, violence, and ridicule. Valmiki shares his heroic struggle to survive a preordained life of perpetual physical and mental persecution and his transformation into a speaking subject under the influence of the great Dalit political leader, B. R. Ambedkar. A document of the long-silenced and long-denied sufferings of the Dalits, Joothan is a major contribution to the archives of Dalit history and a manifesto for the revolutionary transformation of society and human consciousness.

In his bestselling book *Emergence*, Derek Rydall helps you throw aside the self-help books and recognize one simple, radical truth: the answer is already in you. The harder we try to change, the deeper in the hole we get. We find a new partner but have the same old fights. We strive for an ever-bigger paycheck but end up broke at a higher income bracket. This is what happens when the basic principle of life—the Law of Emergence—is disrupted, stopping you from knowing that you are the perfect you. Like an acorn is a perfect acorn that becomes a perfect oak tree, there is not a part of you from beginning to end that isn't exactly what you should be. The Law of Emergence provides the foundation to re-engage with this ancient principle. In this seven-stage framework, spiritual life coach Derek Rydall shows that we aren't lacking anything; everything we need to fulfill our full potential is already inside us. Backed by an ancient truth that has largely been lost, Rydall changes the conversation around how to achieve your potential by showing you how to activate the genius already in you and empower your purpose in life. If you are struggling to improve something about yourself—your health, your mindset, your relationships, then *Emergence* is the book and Derek is the teacher you have been waiting for.

Drawing on recent theories of virtuality, performativity, and governmentality, and on post-colonial activist scholarship, this book presents a series of ethnographic and archival studies of what Mukhopadhyay terms "vernacular globalization" in India. The book's six provocative chapters cover a wide range of events, objects, histories, narratives and episodes with the intent of interrogating what Franz Fanon called the "zone of occult instability where the people dwell." They span subjects as diverse as the quotidian commodity fetishism of rural cargo cults which thrive on bazaar rumours about Chinese dumping in Communist Calcutta; desi cyberporn showcasing "fat aunties" and Gandhi; Indo-Persian travelogues about England and women's travel narratives to Japan, embodying local traditions of cosmopolitanism; folk scroll paintings about 9/11 in the art historical mode; and vernacular civic traditions of urbanism as interpreted through grotty slum photographs. The Rumour of Globalization presents facades of vernacular India negotiating globalising forces through a distinctive style of ethnography (fabulation) which is sensitive to subaltern political aspirations while maintaining a broad commitment to Marxist theory, Subaltern Studies scholarship and post-structuralist theory.

Big Magic Giles de La Mare

A memoir of a singular childhood in England and India by the daughter of Lord Louis and Edwina Mountbatten. Pamela Mountbatten entered a remarkable family when she was born in 1929. As the younger daughter of a glamorous heiress and a British earl, Pamela spent much of her early life with her sister, nannies, and servants-- and a menagerie that included, at different times, a bear, two wallabies, a mongoose, and a lion. Her parents each had lovers who lived openly with the family. The house was full of guests like Sir Winston Churchill, Noël Coward, Douglas Fairbanks, and the Duchess of Windsor. When World War II broke out, Pamela and her sister were sent to live in New York City with Mrs. Cornelius Vanderbilt. In 1947, her father was appointed to oversee the independence of India. Amid the turmoil, Pamela worked with student leaders, developed warm friendships with Gandhi and Nehru, and witnessed both the joy of Independence Day and its terrible aftermath. Soon afterwards, she was a bridesmaid in Princess Elizabeth's wedding to Prince Philip, and was at the young princess's side when she learned her father had died and she was queen. This witty, intimate memoir is an enchanting lens through which to view the early part of the twentieth century--From publisher description.

The Ultimate Guide to 21st Century Careers Simon and Schuster

This book presents a feminist mapping of the articulation and suppression of female desire in Hindi films, which comprise one of modern India's most popular cultural narratives. It explores the lineament of evil and the corresponding closure of chastisement or domesticity that appear as necessary conditions for the representation of subversive female desire. The term 'bad' is used heuristically, and not as a moral or essential category, to examine some of the iconic disruptive women of Hindi cinema and to uncover the nexus between patriarchy and other hierarchies, such as class, caste and religion in these representations. The twenty-one essays examine the politics of female desire/s from the 1930s to the present day - both through in-depth analyses of single films and by tracing the typologies in multiple films. The essays are divided into five sections indicating the various gendered desires and rebellions that patriarchal society seeks to police, silence and domesticate.

Lakeland, the historical African American community of College Park, was formed around 1890 on the doorstep of the Maryland Agricultural College, now the University of Maryland, in northern Prince George's County. Located less than 10 miles from Washington, D.C., the community began when the area was largely rural and overwhelmingly populated by European Americans. Lakeland is one of several small, African American communities along the U.S. Route 1 corridor between Washington, D.C., and Laurel, Maryland. With Lakeland's central geographic location and easy access to train and trolley transportation, it became a natural gathering place for African American social and recreational activities, and it thrived until its self-contained uniqueness was undermined by the federal government's urban renewal program and by societal change. The story of Lakeland is the tale of a community that was established and flourished in a segregated society and developed its own institutions and traditions, including the area's only high school for African Americans, built in 1928.

In 1946, American judge Potter Stewart famously said, 'I can't define pornography, but I know it when I see it.' Over seventy years later, the reverberations of this sentence are still felt across the world. From proposed porn bans to religious morality to women's rights, the assumption is that porn has a single, knowable definition. But if one man's pornography is another woman's erotica is another person's sex tape, what really counts as porn? And who gets to do the counting? In this alternative conversation around digital sexual expression in India, Richa Kaul Padte takes readers on an intimate tour of the sexy internet. From camgirls to fanfiction writers, homemade videos to consent violations, *Cyber Sexy* is an unflinching deep dive into the messy terrain of what it means to seek out pleasure online. The question of whether or not something counts as porn is, ultimately, left up to the reader. After all, you'll know it when you see it, right?

'Crossroads', one of the most successful programmes on television, has attracted a huge and devoted audience of some 15 million regular viewers.

Yet, like many soap operas, it is derided by the press and treated with distaste by other programme-makers. Indeed, despite its popularity, its very future currently hangs in the balance. While doing independent research on popular television in the ATV studios in 1981, Dorothy Hobson observed the storm that developed around the company's decision to dispense with Meg Mortimer, star of 'Crossroads'. The repercussions of that announcement were immense and highlighted the gulf between the broadcasting authorities and the programme's critics, and the 'Crossroads' production team and the audience. Through talking to the actors, the programme controller and the viewing public, she went on to explore the contradictions of why and how a soap opera is made and viewed, examining the appeal of 'Crossroads' and attempting to locate the programme as part of contemporary popular culture. The result is a revealing, controversial but also very absorbing analysis of a soap opera in crisis.
