Vom kaufmännischen Brief über E-Mail bis zu persönlichen Schreiben für besondere Anlässe." INDUSTRIEanzeiger

*How to Win Customers in the Digital World* Legare Street Press

Concepts of historical progress or decline and the idea of a cycle of historical movement have existed in many civilizations. In spite of claims that they be transnational or even universal, periodization schemes invariably reveal specific social and cultural predispositions. Our dialogue, which brings together a Sinologist and a scholar of early modern History in Europe, considers periodization as a historical phenomenon, studying the case of the "Renaissance." Understood in the tradition of J. Burckhardt, who referred back to ideas voiced by the humanists of the 14th and 15th centuries, and focusing on the particularities of humanist dialogue which informed the making of the "Renaissance" in Italy, our discussion highlights elements that

distinguish it from other movements that have proclaimed themselves as "r/Renaissances," studying, in particular, the Chinese Renaissance in the early 20th century. While disagreeing on several fundamental issues, we suggest that interdisciplinary and interregional dialogue is a format useful to addressing some of the more far-reaching questions in global history, e.g. whether and when a periodization scheme such as "Renaissance" can fruitfully be applied to describe non-European experiences.

*Interthinking: Putting Talk to Work* Walter de Gruyter GmbH & Co KG

The second edition of this collection of 13 original papers contains an updated introductory section detailing the significance that the original articles published in 1992 have for the further development of research into linguistic politeness into the 21st century. The original articles focus on the phenomenon of politeness in language. They present the most important problems in developing a theory of linguistic politeness, which must deal with the crucial differences between lay notions of politeness in different cultures and the term 'politeness' as a concept within a theory of linguistic politeness. The universal validity of the term itself is called into question, as are models such as those developed by Brown and Levinson, Lakoff, and Leech. New approaches are suggested. In addition to this theoretical discussion, an empirical section presents a number of case studies and research projects in linguistic politeness. These

show what has been achieved within current models and what still remains to be done, in particular with reference to cross-cultural studies in politeness and differences between a Western and a non-Western approach to the subject. The publication of this second edition demonstrates that the significance of the collection is just as salient in the first decade of the new millennium as it was at the beginning of the 1990s.

*History of Political Ideas* HarperCollins Publishers

Since unification, the Federal Republic of Germany has made vaunted efforts to make amends for the crimes of the Third Reich. Yet it remains the case that the demands for restitution by many countries that were occupied during the Second World War are unresolved, and recent demands from Greece and Poland have only reignited old debates. This book reconstructs the German occupation of Poland and Greece and gives a thorough accounting of these debates. Working from the perspective of international law, it deepens the scholarly discourse around the issue, clarifying the 'never-ending story' of German reparations policy and making a principled call for further action. A compilation of primary sources comprising 125 annotated key texts (512 pages) on the complexity of reparations discussions covering the period between 1941 and the end of 2017 is available for free on the Berghahn Books website, doi: 10.3167/9781800732575.dd. *Repressed, Remitted, Rejected* Commons Strategy Group and Off the Common Press

This is designed to be a clear and readable introduction to social psychology for A-level students, for those studying psychology as a supplement to other applied courses, and for those requiring an overview of the major concerns and issues in this subject.; The book aims to integrate the traditional material, such as conformity, attitudes and prejudice, with some of the more recent insights into social life, such as the study of discourse, relationships, social identity and social representations. This work also incorporates themes and concerns which have emerged in social psychology, including problems of ethnocentrism and identity, ethical issues, and the challenges to conventional methodology represented by some recent areas of research. *To Have or To Be?* Cambridge, Mass. : MIT Press

Annotation. Examining the emergence of modernity within the philosophical and political debates of the sixteenth century, *Religion and the Rise of Modernity* resumes the analysis of the "great confusion" introduced in Volume IV of *History of Political Ideas*. Encompassing a vast range of events ignited by Luther's Ninety-Five Theses, this period is one of controversy, revolution, and partiality. Despite the era's fragmentation and complexity, Voegelin's insightful analysis clarifies its significance and suggests the lines of change converging at a point in the future: the medieval Christian understanding of a divinely created closed cosmos was being replaced by a distinctly modern form of human consciousness that posits man as the proper origin of meaning in the universe. Analyzing the most significant features of the great confusion, Voegelin examines a vast range of thought and issues of the age. From the more obvious thinkers to those less frequently studied, this volume features such figures as Calvin, Althusius, Hooker, Bracciolini, Savonarola, Copernicus, Tycho de Brahe, and Giordano Bruno. Devoting a considerable amount of attention to Jean Bodin, Voegelin presents him as a prophet of a new, true religion amid the civilizational disorder of the post-Christian era. Focusing on such traditional themes as monarchy, just war theory, and the philosophy of law, this volume also investigates issues within astrology, cosmology, and mathematics. *Religion and the Rise of Modernity* is a valuable work of scholarship not only because of its treatment of individual thinkers and doctrines influential in the sixteenth century and beyond but also because of its close examination of those experiences that formed the modern outlook.

*Professor of Physiology, Utrecht (1889-1897)* Courier Dover Publications

Anthropologists have written a great deal about the coastal adaptations and seafaring traditions of Pacific Islanders, but have had much less to say about the significance of rivers for Pacific island culture, livelihood and identity. The authors of this collection seek to fill that gap in the ethnographic record by drawing attention to the deep historical attachments of island communities to rivers, and the ways in which those attachments are changing in response to various forms of economic development and social change. In addition to making a unique contribution to Pacific island ethnography, the authors of this volume speak to a global set of issues of immense importance to

a world in which water scarcity, conflict, pollution and the degradation of riparian environments afflict growing numbers of people. Several authors take a political ecology approach to their topic, but the emphasis here is less on hydro-politics than on the cultural meaning of rivers to the communities we describe. How has the cultural significance of rivers shifted as a result of colonisation, development and nation-building? How do people whose identities are fundamentally rooted in their relationship to a particular river renegotiate that relationship when the river is dammed to generate hydro-power or polluted by mining activities? How do blockages in the flow of rivers and underground springs interrupt the intergenerational transmission of local ecological knowledge and hence the ability of local communities to construct collective identities rooted in a sense of place?

*Developing Writing Skills in German*, is a unique course designed to improve the reading and writing skills of intermediate students of German. Presenting a wide range of authentic written materials, the book aims to develop reading strategies and the ability to write texts of various types - essays, articles and reviews - while imparting an understanding of important aspects of German society. From the environment to consumerism, each chapter focuses on a different theme and concentrates on the advancement of particular skills; all the chapters conclude with a task appropriate to the skills focus of the section. Summary writing, note-taking, the use of mind-maps to collect ideas, and other strategies for successful writing in German are presented here. This course is suitable both for classroom use and independent study, with feedback and answer key supplied at the back of the book.

*Geschäftsbriefe geschickt formulieren* Open Road + Grove/Atlantic

Tells the story of Jewish survivors inside and outside the displaced-persons camps of the American zone as they built families and reconstructed identities while awaiting emigration to Palestine or the United States. Examines how Germans and Jews interacted and competed for Allied favor, benefits, and victim status, and how they sought to restore normality-- in work, in their relationships, and in their everyday encounters.

**Havel** National Geographic Books

"The Book; yes, their Book. They had no state, holding them together, no country, no soil, no king, no form of life in common. If, in spite of this, they were one, more one than all the other peoples of the world, it was the Book that sweated them into unity. Brown, white, black, yellow Jews, large and small, splendid and in rags, godless and pious, they might crouch and dream all their lives in a quiet room, or fare splendidly in a radiant, golden whirlwind over the earth, but sunk deep in all of them was the lesson of the Book. Manifold is the world, but it is vain and fleeting as wind; but one and only is the God of Israel, the everlasting, the infinite, the Jehovah."-Jud Süß, 1925. When Feuchtwanger's two best known novels "Jew Süß" ("Power") and "Ugly Duchess" were first translated into English in the 1920s, they caused a tremendous sensation in England and then in America. The critics all hailed Feuchtwanger as the master of the historical novel-the peer of Dumas and Scott but written with the psychology of our own day. "Jew Süß," set in the 18th century Germany (at the time consisting of numerous fragmented independent states), deals with an identity crisis: in order to gain social power, the novel's protagonist attempts to forsake his Jewish heritage and becomes assimilated into the mainstream of German culture. More than that, Süß finds himself being in the position of potential kingmaker. Brilliant, attractive and with an insatiable lust for power, he practically ruled the Duke and his court, pandering to the vices of dissolute nobility, mounting through his intrigues to dizzying heights of power. Süß's only vulnerable spot, however, is his precious, exquisite, gentle daughter, Naomi. When her beauty became exposed to the beastliness of the Duke, tragedy came swiftly after.

**Against the Eternal Yesterday** I.B. Tauris

What accounts for the persistence and spread of "commoning," the irrepressible desire of people to collaborate and share to meet everyday needs? How are the more successful projects governed? And why are so many people embracing the commons as a powerful strategy for building a fair, humane and Earth-respecting social order? In more than fifty original essays, *Patterns of Commoning* addresses these questions and probes the inner complexities of this timeless social paradigm. The book surveys some of the most notable, inspiring commons around the world, from alternative currencies and open design and manufacturing, to centuries-old community forests and co-learning commons -

and dozens of others. David Bollier ([www.bollier.org](http://www.bollier.org)) is an American author, activist and independent scholar who has studied the commons for nearly twenty years. Silke Helfrich ([commonsblog.wordpress.com](http://commonsblog.wordpress.com)) is a German author and independent activist of the commons who blogs at [www.commonsblog.de](http://www.commonsblog.de), and cofounder of the Commons-Institut in Germany. With Michel Bauwens, Bollier and Helfrich are cofounders of the Common Strategies Group. For more information, go to the book's website, Patterns of Commoning ([www.patternsofcommoning.org](http://www.patternsofcommoning.org))
